## INTRODUCTION TO THE NRF

The National Research Foundation Act as amended, Act 19 of 2018, establishes the National Research Foundation (“NRF”) as the juristic legal entity that will contract with the awarded bidder. Please visit the NRF website (<https://www.nrf.ac.za>) for more information.

## INTRODUCTION TO SARAO

The South African Radio Astronomy Observatory (SARAO) is the National Research Foundation’s National Facility incorporating South Africa’s radio astronomy instruments and programmes such as the MeerKAT and KAT-7 telescopes in the Karoo in the Northern Cape, the Hartebeesthoek Radio Astronomy Observatory (HartRAO) in Gauteng, the African Very Long Baseline Interferometry (AVN) programme in nine African countries as well as the associated human capital development and commercialisation endeavours. More information about SARAO is available from [www.sarao.ac.za](http://www.sarao.ac.za) More information about the international SKA project is available at [www.skatelescope.org](http://www.skatelescope.org).

## PROJECT BACKGROUND

The Astronomy Geographic Advantage Act, 2007 (‘the Act’) mandates the preservation and protection of areas within the Republic of South Africa that are uniquely suited for optical and radio astronomy; and provides a framework for intergovernmental co-operation and public consultation on matters concerning nationally significant astronomy advantage areas, such as the SARAO operated MeerKAT radio telescope. In terms of the Act<sup>1</sup>, the core of the MeerKAT radio telescope and the planned Square Kilometre Array (SKA) have been declared Karoo Core Astronomy Advantage Areas (KCAAA), which are protected for the purpose of radio astronomy and related scientific endeavours.

Similarly, the declared KCAAAs consist of three partly overlapping areas with common inner boundaries that coincide with the outer boundaries of the KCAAA. The three areas have different outer boundaries that depend on the applicable propagation conditions for the different frequency bands specified, and other practical considerations.<sup>2</sup> The Act prohibits and restricts the use of certain radio frequency spectrum and certain radio activities in the KCAAA for radio astronomy purposes.

The Karoo Core and Central Astronomy Advantage Areas in

Figure 1 were declared for the protection of the Astronomy Advantage Areas.

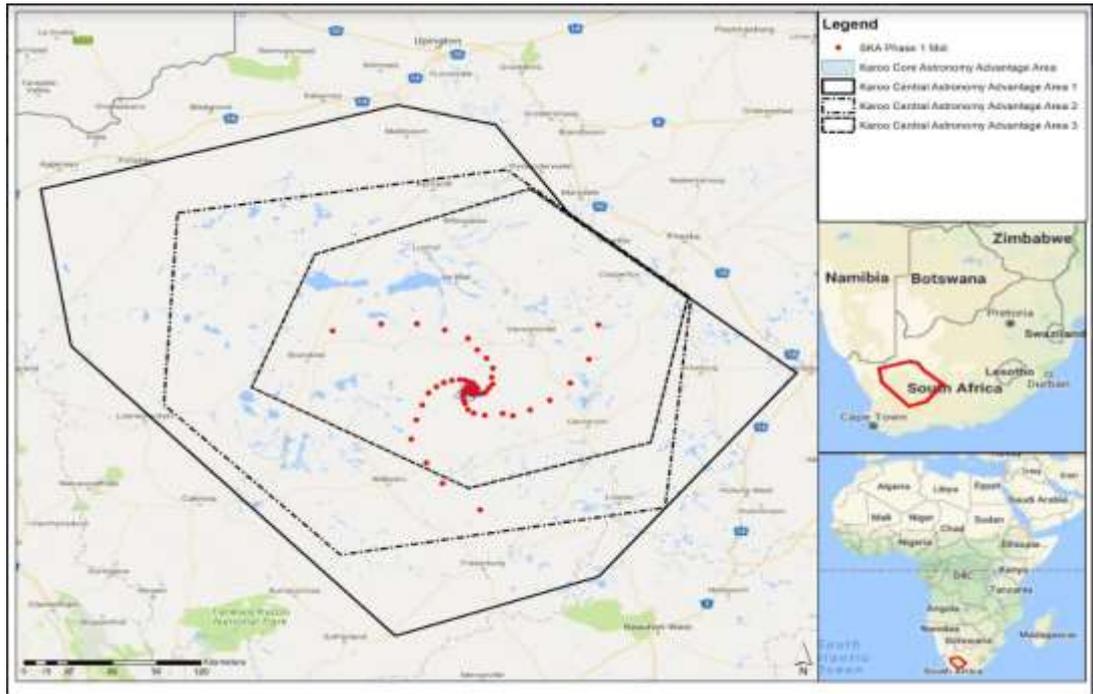

Figure 1: Declared Karoo Core and Karoo Central Astronomy Advantage Areas

All radio frequency spectrum licensees of the Independent Communications Authority of South Africa (ICASA) operating within the KCAAs must apply for a permit with the Astronomy Management Authority (AMA).<sup>3</sup>

The objective of this tender is to purchase a technical system for the calculation of radio frequency interference levels at each of the SKA radio telescope stations – this system is known as a Spectrum Management System, consisting of hardware infrastructure and software applications.

SARAO and AMA will issue a permit to all radio frequency spectrum licensees of ICASA operating within the KCAAs.
