3 SCOPE OF REQUIREMENTS

The Addo – Kirkwood Branch Line is located within the Sundays River Local Municipality in the Gqeberha (Port Elizabeth) area of the Eastern Cape Province.

The Sundays River Valley is one of the three citrus producing and export corridors in South Africa. The produce from this corridor is export through the Port of Ngqura and Port of Elizabeth.

The Branch Line commences from the point of origin at Kirkwood and runs for approximately 37 kilometres to the termination point at Addo where it interfaces with the mainline that runs to Gqeberha (Port Elizabeth). The distance from Addo to Gqeberha (Port Elizabeth) (Gqeberha) is 83 kilometres.

The main commodity that moved on this line was citrus until operations terminated in 2005.

Sundays River Citrus Company (SRCC), the biggest citrus grower in South Africa moved their produce for the export market exclusively on rail along this Branch Line since the company's inception in 1924 until rail operations terminated in 2015.

Since the closure of the Branch Line in 2005 to date, citrus has been transported by road trucks from the Sundays River Valley area to the ports in Gqeberha (Port Elizabeth) for export to various destinations such as USA, Russia, Middle East and the Far East.

The Concessionaire will be required, as a minimum, to maintain the frequency and level of freight services presently being provided by Transnet on the Kirkwood Rail Line. The branch line service will originate on the branch line and terminate at the Addo Marshalling Yard, where after Transnet will continue to provide all train marshalling and haulage services for the Concessionaire from the Addo Marshalling Yard to the destination point on the Core Network. Transnet will then return empty wagons to the Addo Marshalling Yard for collection by the Concessionaire.

Infrastructure Condition

The Addo – Kirkwood Branch Line fell into a state of disrepair since its closure in 2005, until Transnet commissioned the rehabilitation of the line in 2019.

Transnet completed the upgrading of the rail track to an 18.5t per axle loading in 2019. The upgrade allows for improved efficiencies and cycle times.

The track infrastructure is currently managed and maintained by the Depot Engineer's Permanent Way staff, comprising a Track Inspector, Plate layers and Track Maintenance Personnel, all based in Gqeberha (Port Elizabeth).

Respondents are to note that Transnet will round off final technical scores to the nearest 2 (two) decimal places for the purposes of determining whether the technical threshold has been met.

The minimum threshold for technical/functionality [Step Three] must be met or exceeded for a Respondent's Proposal to progress to Step Four for final evaluation

6.4 STEP FOUR: Evaluation and Final Weighted Scoring

a) Price Criteria [Weighted score 80/90 points]:

Evaluation Criteria	RFP Reference
• Commercial offer	<i>Section 4</i>

Transnet will utilise the following formula in its evaluation of Price:

$$PS = 80 \left(1 - \frac{Pt - Pmin}{Pmin} \right) \text{ OR } PS = 90 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where:

Ps = Score for the Bid under consideration
 Pt = Price of Bid under consideration
 $Pmin$ = Price of lowest acceptable Bid

b) Broad-Based Black Economic Empowerment criteria [Weighted score 20/10 points]

- B-BBEE - current scorecard / B-BBEE Preference Points Claims Form
- Preference points will be awarded to a bidder for attaining the B-BBEE status level of contribution in accordance with the table indicated in Section 4.1 of the B-BBEE Preference Points Claim Form.

6.5 SUMMARY: Applicable Thresholds and Final Evaluated Weightings

Thresholds	Minimum Threshold
Technical / functionality	60

Evaluation Criteria	Final Weighted Scores
Price and Total Cost of Ownership	80/90
B-BBEE - Scorecard	20/10
TOTAL SCORE:	100

6.6 STEP FIVE: Post Tender Negotiations (if applicable)

- Respondents are to note that Transnet may not award a contract if the price offered is not market-related. In this regard, Transnet reserves the right to engage in PTN with the view to achieving a market-related price or to cancel the tender. Negotiations will be done in a sequential manner i.e.:
 - first negotiate with the highest ranked bidder or cancel the bid, should such negotiations fail,
 - negotiate with the 2nd and 3rd ranked bidders (if required) in a sequential manner.
- In the event of any Respondent being notified of such short-listed/preferred bidder status, his/her bid, as well as any subsequent negotiated best and final offers (BAFO), will automatically be deemed to remain valid during the negotiation period and until the ultimate award of business.
- Should Transnet conduct post tender negotiations, Respondents will be requested to provide their best and final offers to Transnet based on such negotiations. Where a market related price has been achieved through negotiation, the contract will be awarded to the successful Respondent(s).

6.7 STEP SIX: Objective Criteria (if applicable)

Transnet reserves the right to award the business to the highest scoring bidder/s unless objective criteria justify the award to another bidder. The objective criteria Transnet may apply in this bid process include:

- Geographical location;
- all Risks identified during a risk assessment exercise/probity check (which may be conducted by an authorised third party) that would be done to assess all risks, including but not limited to:
 - the financial stability of the bidder based on key ratio analysis, which would include, but not be limited to Efficiency, Profitability, Financial Risk, Liquidity, Acid Test, and Solvency;
 - a due diligence to assess functional capability and capacity. This could include a site visit;
 - A commercial relationship with a Domestic Prominent Influential Person (DPIP) or Foreign Prominent Public Official (FPPO) or an entity of which such person or official is the beneficial owner; and
 - Reputational and Brand risks

6.8 STEP SEVEN: Award of business and conclusion of contract

- Immediately after approval to award the contract has been received, the successful or preferred bidder(s) will be informed of the acceptance of his/their Bid either by way of a Letter of Award or Letter of Intent where Transnet will negotiate any final terms and conditions of the contract with the successful Respondent(s). Thereafter the final contract will be concluded with the successful Respondent(s).
- Otherwise, a final contract will be concluded and entered into with the successful Bidder at the acceptance of a letter of award by the Respondent.

SECTION 11: SBD 9- CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. Section 4(1)(b)(iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds. Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
2. Transnet will take all reasonable steps to prevent abuse of the supply chain management system and to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
3. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
