Document Name: BEARINGS AND SEALS SPECIFICATION

DOC. No : RDM_KDS_SPEC_2001

Date: 11/19/2024

Revision: 02

Page: 1 of 4

1. SCOPE

This specification states the minimum requirements relating to the services required and in no way absolves the contractor from responsibility for sound engineering practice. Any omissions or sub-standard requirements of this specification must be brought to the attention of Transnet Engineering at tender stage and optional prices for addressing such omissions must be provided. The Supplier shall supply all the labour, tools, material, equipment, consumables, facilities, testing, and supervision required for servicing the specified equipment on site.

2. INFORMATION REQUIRED

- 2.1. Tenders shall provide enough details at the tendering stage to enable the Transnet Technical Officers the opportunity to assess each offer properly.
- 2.2. Tenders shall complete the relevant questionnaire in full and must indicate whether their offer complies with each item of the specification.
- 2.3. Should there be insufficient space for providing full details, bidders shall provide the additional details in their covering letter. The additional details shall be numbered in accordance with the applicable clause specified in the specification.

3. GENERAL REQUIREMENT

- 3.1. Suppliers shall comply with the Occupational Health and Safety Act (Act 85 of 1993), as amended. This applies to any work done as well as any equipment supplied.
- 3.2. The dedicated supplier personnel shall complete a SAFETY INDUCTION and have valid permits when entering Transnet Engineering's facilities.
- 3.3. Supplier personnel shall always wear the appropriate personal protective equipment (PPE) on site.
- 3.4. Supplier shall have a valid Letter of Good standing with the Workman's Compensation Fund.
- 3.5. Supplier shall comply with the last version of Transnet Engineering's Safety, Health and Environment (SHE) Specification for contract work.

Bidder Signature: _____

4. SPECIFICATION:

The following list of items below details the products required for Muncher manufacturing:

1. Bearings and Seals

Material descriptions	Geometry	Dimensions (mm)	QTY	Comply (Y/N)
Bearings: Spherical roller bearings; cylindrical bore 22311 EK		$d = 55 \text{ mm}$ $D = 120 \text{ mm}$ $B = 43 \text{ mm}$	4	
Double Lip Grease Seal- 3(inner spring ring: 55X70X10 HMSA10 V		$d_1 = 55 \text{ mm}$ $D = 70 \text{ mm}$ $b = 10 \text{ mm}$	4	
Double Lip Grease Seal- 3(inner spring ring: 60X80X10 HMSA10 V		$d_1 = 60 \text{ mm}$ $D = 80 \text{ mm}$ $b = 10 \text{ mm}$	4

5. DELIVERY ADDRESS

Price should include delivery to the following address:

Research & Development
Mechanical Department
Transnet Engineering, Bay 8
Koedoespoort, Pretoria
Gauteng
0184

Note: Delivery date to be communicate with Transnet before date of delivery to ensure that staff are available to receive items. Please note, no delivery will be taken after 15:00.
