The service provider shall provide the following:

1. **Detailed Quotation:** A comprehensive breakdown of all quoted items, including specifications and pricing.
2. **Latest Technology:** Confirmation that the items offered represent the most recent and up-to-date technology available in the market.
3. **After-Sales Service Letter:** A formal letter outlining the after-sale services to be provided, including support, maintenance, and contact information for service inquiries.
4. **Warranty Letter:** The supplier shall submit a formal warranty letter along with the quotation. This warranty must cover a minimum period of one (1) year from the date of installation or delivery of the equipment. The warranty letter shall clearly outline the terms and conditions of the coverage. A duly signed and stamped warranty certificate shall be provided upon delivery of the equipment.
5. **Delivery Timeline:** Commitment to deliver all items within two (2) weeks from the date of receipt of the official purchase order.
