1. INTRODUCTION

Winnie Madikizela-Mandela Local Municipality in undertaking the Town Planning and Surveying of various portions within Bizana commonage with the intention to revalidate the General Plan. The Local Municipality of Winnie Madikizela-Mandela Local Municipality has identified the need to conduct a township establishment on the Remainder of Erf 110 Bizana Municipal commonage.

Property Description

The land parcel to be developed is situated within the municipal commonage and forms part of the land earmarked for middle income. It forms part of the Remaining Extent, Portion of Remainder of Erf 110. The township is located on the southeast of the Extension 2. towards Port Edward. It is bounded by the road to Umhlanga location, to the south and Extension 2.

Apart from small pockets of privately-owned land in the urban center and land around within municipal, the balance of land in the Winnie Madikizela-Mandela Local Municipal area is mainly state land held in trust by the Minister of Rural Development and Land Reform. Individual use right and “ownership” is held in terms of lesser forms of tenure. Procedures to unlock the potential of this land and its resources are both complex and time consuming. Various other communities in the WMMLM have lodged land claims in terms of the Restitution of Land Rights Act 22 of 1994. Almost 80% of land within Bizana Urban Area is subjected to land claims.

2. BACKGROUND & PROBLEM STATEMENT.

The municipality has identified the establishment and development of a township to comprise of a predominately Single Residential township for middle income with a mixed-use component consisting of Business, Institutional, Government and Municipal land uses. The Township Establishment is a key initiative towards developing the local community as per the spatial proposal of the council adopted Spatial Development Framework 2019. This development is in line with the municipality's focus in promoting more integrated human settlement orientation as part of the paradigm shift from merely providing low income erven.

Winnie Madikizela-Mandela Local Municipality has in the past 5 years appointed consultants to prepare Nodal Development Framework (NDF 2013) this was followed by the Spatial Development Framework (SDF 2019). These two strategic spatial frameworks triggered the planning of the Remainder of Erf 110 commonage as it was given priority for spatial restructuring and growth of Winnie Madikizela-Mandela Local Municipality with conceptual intensification and mixed-use zones along R61 connecting to the Central Business District.

Winnie Madikizela-Mandela Local Municipality urban space is the area for the proposed predominately residential for the middle-class township establishment which will see robust mixed-use development across spaces in order to accomplish principles of intensification, infill, densification, and compaction and also give effect to liveability, efficiency, mobility and in doing so shrink elements of poverty, unemployment and inequalities as well as to cater for middle income group in Bizana.

These terms of reference aim at the appointment of the service provider to conduct township establishment comprises of predominantly residential for the middle income with integrated uses and necessary studies required for the establishment and approval of the township.

3. SCOPE OF WORK.

The scope of work entails doing a revalidation of a General Plan through township establishment and will also be subject to the need and desirability to conduct surveying project. A detailed scope of work is as follows:

PHASE 1

Consultation

The service provider in consultation with the Municipality will be expected to design and implement a consultation process plan.

Consultation is central to this development process and assumes critical significance when dealing with development that involves more than one organisation / party. The Service Provider needs to communicate and consult with the municipality in order to be effective but they also need to exchange information with other relevant stakeholders which necessitates lateral communications. Failure to recognise this need may lead to discrepancy of approach.

The consultant is required to engage in this process plan, ensure that all issues are captured within the required timeframe and ensure that all relevant stakeholders are included throughout the process. The Service Provider shall participate in stakeholder meetings and produce information material for stakeholders as required, but guided by legislation or policies.

Environmental Impact Assessment (EIA)

The Service Provider will be required to conduct an Environmental Impact Assessment to ensure that decision makers consider the environmental impacts when deciding whether or not to proceed with a project.

Geotechnical Study

The Service Provider will be required to conduct a geotechnical study to confirm the ground conditions beneath the site and to identify any problems that may be

associated with the stability of the site or the subsoils with respect to the proposed development.

Tacky Survey

The Service Provider will be required to carry out tacky survey to determine the existing features, fences etc.

Layout Plan

The Service Provider will be required to assess and revalidate the existing settlement layout plan to obtain approval from the municipality.

Report

The Service Provider will be required to compile the report accompanying the layout plan and submit it to the municipality.

Bulk Services study

The Service Provider will be required to conduct bulk studies for the required infrastructure for services to the envisaged township.

Storm water Management Plan

The service provider will be required to prepare the storm water management plan for the proposed road within the layout plan.

Traffic Impact Assessment

The service provider will conduct the necessary transport studies as per the layout plan.

Deliverable

- Report and layout plan
- Motivational report
- An environmental Permit for the development or Record of Decision
- Cad layout, GIS Maps, Soft copy of the report in word format
- Transport Impact Assessment
- Flood Line study

Feasibility analysis

A feasibility analysis report for the project; will also be expected. The five principle areas of feasibility that the Service Provider is expected to also take into consideration are technical, economic, legal, operational and scheduling.

Technical: Is the project technically feasible? The Service Provider Given has to overview technical capabilities of the organization, including the availability of skilled staff and appropriate facilities.

Economical: Is the project affordable given the economic resources available? Even if it can be afforded, is the projected return on investment sufficient? A project that is simply too expensive and which doesn't offer sufficient economic benefits is not feasible.

Legal: Is the proposed venture in compliance with applicable laws and regulations?

Operational: Is the project in line with the operations and objectives of the organization?

Schedule: Given the recommended schedule, is it realistic to expect that the project will be completed on time? If the project takes too long to complete, costs can escalate and the overall feasibility can be negatively affected.

Key document

- Inception report
- Base Plan
- Tacky Survey
- EIA report
- Flood line study
- Geotechnical report
- Layout Plan
- Bulk services report
- Proof of submission
- All engineering report required
- Close-out report

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.

7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:

- (a) prices;
- (b) geographical area where product or service will be rendered (market allocation)
- (c) methods, factors or formulas used to calculate prices;
- (d) the intention or decision to submit or not to submit, a bid;
- (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
- (f) bidding with the intention not to win the bid.

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No. 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No. 12 of 2004 or any other applicable legislation.

PHASE 2

Implementation plan

The implementation of the outcomes of the project will be the responsibility of the Municipality. The project must, however provide guidance to the Municipality for the implementation with indicators and responsibilities to achieve this. The Implementation Plan is designed to be a key resource for the municipality in ensuring that the goals and policies of the Layout Plan and General Plan are reflected in day-to-day municipal operations and services including preparing plans and programs, reviewing development proposals, and maintaining infrastructure. The implementation plan must also consider the institutional arrangements and capacity.

Implementation Plan should address specific actions required of the municipality such as preparing an updated zoning code to accomplish consistency of the zoning and development standards with the updated General Plan's. Land use designations and policies. Opening of the township register and proclamation of the township.

Deliverables

- Indicators for set objectives
- A schedule of activities and responsibilities
- Draft calls for proposals for surveying of land

4. PROJECT APPROACH

The terms of reference are the municipality's point of reference, with which it will engage the service provider or consultants.

The Municipality expects the successful consultant to undertake the township establishment in line with legislation and policies at various government levels. The service provider will also provide recommendations to the Municipality on the suitable approach with which the project will be best implemented in a cost-effective manner.

Due to the nature of the project, there is a need for private and public partnership. This will enhance the involvement of the community at large throughout the entire project.

Proposed key development factors

The Scope of Work of this study recognises that, for the achievement of the objectives of the project, the study would have to take consideration of a wide range of technical, financial, planning, geotechnical and environmental issues. Such issues would encompass the integration of the aspects listed below.

- Project Management to ensure deadlines are met.
- Town Planning by experienced professionals.
- Geotechnical Investigations.
- Flood lines if required.
- Technical Investigations (Traffic Impact Studies, Civil Services, Electrical Services, storm water management).
- Environmental Impact Assessment (EIA).
- Knowledge of the Communities and community requirements and understanding the Local Context of Township Establishment.
- Monthly Reporting to the Local Municipality and the respective ward councillors to ensure that both parties are part of the overall progress of these projects.
- Both the municipality and the service provider should establish a good working relationship with relevant stakeholders and departments. This can be achieved through forming a steering committee which comprises of representatives from all relevant parties.
- A Service Level Agreement will be drawn-up to include terms and conditions of the projects.
- An effective public participation, to make sure that the interest of the public are put into consideration.
- The credibility of the service-providers to ensure that the quality of the product delivered is of the highest standards.

Proposed statutory processes

To explain the procedures and time frames, please see the project chart as attached Project plan.

Table 4.1. Herewith an executive summary of the envisaged procedure to be followed:

PROCEDURE	PERSON RESPONSIBLE
Determine Contours, Flood lines, Servitudes & Boundaries, Tacky survey, Base plan	Land Surveyor
Geotechnical Study	Geotech Engineer

Town planning Application

A formal township establishment application must be lodged in terms of the Winnie Madikizela-Mandela Local Municipal Spatial Planning and Land Use Management Bylaw of 2016, read with the Spatial Planning and Land Use Management Act of 2013 and Integrated Land Use Scheme.

Environmental Impact assessments

The process will follow the NEMA Act 108 of 1998 to determine the area which are suitable and those which are not suitable for development. This will be done by appointing environmental consultants. The final decision or Record of Decision (ROD) will be obtained from the environmental affairs department.

5. OUTCOMES AND DELIVERABLES.

- Tacky Survey.
- A planning process bringing together all stakeholders within timeframes.
- Gather all required documents.
- Carry out planning by means of conducting township establishment in accordance relevant planning policies.
- Base plan which indicates location, study, contours, developed and undeveloped areas and (when necessary) interpretation of all the available deeds, contracts, maps, wills, or other documents that contain a description of the boundaries.
- Draft Layout, amendment and incorporation of comments.
- Proof of circulation to stakeholders.
- Final submission of the layout plan.
- Motivation report for township establishment.
- Prepare and submit the application to the relevant Board, authority for approval.
- Coordinate meetings.
- Prepare business plans for bulk services and application to the water service authority.
- Conduct Environmental Impact Assessment.
- Conduct Geotechnical Study.
- Storm water management report.
- Flood Line Study if any are required.
- Transport impact assessment

6. PROJECT DURATION AND COST

The project will be guided by the project process plan developed. The project, from appointment to the framing and submission of the diagram to the Surveyor General's office should not take longer than 8 Month from the date of appointment.

Due to the urgency of the project it is critical that timeframes are strictly adhered to. Financial penalties will be imposed for any delay or non-compliance with time and quality requirements.

Undue Delay Remedies

Should it be found that the delay of the project in terms of the agreed time period is unreasonable then for every 5 (five) days or other stipulated time frame there shall be a penalty in terms of percentages which will be deducted from the payment

7. RELEVANT SKILLS AND EXPERIENCE.

Expertise in the following fields will be necessary:

- Knowledge and experience in undertaking and completing similar projects
- Land Surveying
- Town and Regional Planning
- Engineering Services
- Scientists/ Environmentalists
 - Ability to undertake geotechnical study
- Infrastructure development
 - Engineering services
- Geographic Information System
 - Ability to create and read maps
- Social development
 - Social Facilitation coordination or involvement

- Social research and analytical skills

8. CAPACITY BUILDING AND SKILLS TRANSFER.

The municipality consider skills development as an integral part of the out-sourcing process. The process should ensure that skills development and transfer is achieved within the municipality. Proposals should indicate how skills development and transfer would be achieved in the municipality.

9. INFORMATION GATHERING

The successful Service Provider is expected to contact all the relevant GIS, Planning and required officials and units within the local and provincial spheres of government to obtain relevant information that is required for the project. Existing relevant information which is available within the municipality/plans will be made available to the successful service provider.

In the light of the event that the service provider needs a letter to confirm the motive for requesting information from the different spheres of government or parastatals, the municipality will provide the requested letter.

However, the responsibility for collecting information necessary for the successful execution of the project remains entirely with the service provider.

10. TERMS AND CONDITIONS OF THE BID

10.1 General

Awarding of the bid will be subject to the Service Provider's express acceptance of the municipal Supply Chain Management general contract conditions.

The municipality and Service Provider will sign a Services Level Agreement upon appointment.

Staffing requirements will be identified on the onset of the project and shall remain unchanged for the duration of the project, unless prior written consent has been granted by the Department municipality (Same as 8.4)

No material or information derived from the provision of the services under the contract may be used for any other purposes except for those of the municipality, except where duly authorized to do so in writing by the municipality.

Copyright in respect of all documents and data prepared or developed for the purpose of the project by the Service Provider shall be vested in municipality.

The successful Service Provider agrees to keep all records and information of, or related to the project confidential and not discloses such records or information to any third party without the prior written consent of municipality.

The municipality reserves the right to terminate the contract in the event that there is clear evidence of non-performance and non-compliance with the contract.

The short-listed service providers may be required to do a presentation in person to the municipality; at their own cost should it be deemed necessary to do so.

10.2 Format of Proposal

10.2.1 All proposals are to respond to requirements as per the Terms of Reference

10.2.2 All proposals should be clearly indexed and easy to read

11. EVALUATION PROCEDURE

The 80/20 preference points system as prescribed in the Preferential Procurement Policy Framework Act (PPPFA) will be applied to evaluate this bid. The lowest acceptable bid will score 80 points for price and maximum of 20 points will be awarded for attaining the Broad-Based Black Economic Empowerment (B-BBEE) status level of contribution.

This bid shall be evaluation in two stages. On first stage bids will be evaluated on functionality, second stage in accordance with 80/20 preference points system as stipulated above.

Evaluation of Functionality
