TERMS OF REFERENCE

Appointment of a service provider for Review of commitment register to ensure accuracy and completeness of the commitment schedule

1. INTRODUCTION AND OVERALL OBJECTIVES

The Construction Sector Education and Training Authority (CETA) was established and registered in March 2000 in terms of the Skills Development Act of 1998. The CETA aims to provide for the skills development needs of the services sector through the bursary awards and implementation of learning programmes, disbursement of grants, monitoring and quality management of education and training.

The CETA hereby invites bids for a suitable, independent service provider that can review through validation, evaluation, and report on the CETA's commitments prior to submission for the external audit.

LATE SUBMISSIONS WILL NOT BE ACCEPTED AFTER THE CLOSING DATE AND TIME

2. BACKGROUND

The CETA utilises the Pastel Evolution financial system. As part of preparation for audit readiness for the 2021/22 financial year, a simulated audit for the financial statements prepared in terms of Generally Recognised Accounting Practice is required. Commitments form an integral part of the GRAP compliant financial statements and as a result an extensive independent review of the commitment schedule is required.

2.1 Commitments

The CETA allocates and disburses Discretionary Grant funding for projects, through Special Projects and Regular Projects.

2.2 Regular Discretionary Grant Projects:

The Discretionary Grants funding is offered to entities via an application and approval process, to implement learning interventions through projects. The funds awarded are aimed at addressing the CETA's objectives as set out in the Service Level Agreement between with the Department of Higher Education and Training (DHET). Approval for regular projects rests with the Accounting Authority and is in line with the requirements set out in the CETA's Discretionary Grant Policy.

2.3 Special Projects:

This is supported by NSDS III which requires the SETAs to partner with higher learning institutions and not a tender award. SETA grants regulations allows the SETA to utilize 20% of its discretionary grants budget towards non-pivotal programmes. The following salient features of special projects are key:

- Special projects are projects aimed at ensuring the participation of public institutions and non-profit making organisations in the CETA's skills development work.
- The purpose of these projects is to provide training in the priorities of government and/or the responsiveness to, amongst others, performance against its own objectives and to government pronouncements.
- Special projects shall be addressed through special initiatives in line with CETA's development requirements as approved by the Accounting Authority.
- Approval of special projects rests with the Accounting Authority.

In awarding allocations, the CETA ensures that the Discretionary Grant allocations are fully in line with:

- NSDSIII objectives and the Services Sector Skills Plan
- The organisation's Strategic Plan, Annual Performance Plan and related planning documents
- The Skills Development Act, the Skills Development Levies Act, and all other relevant legislation, regulations and policies
- Any other imperatives as directed by the Executive Authority and the Accounting Authority

The CETA must also ensure that the delivery of projects emanating from these allocations results in the achievement of both qualitative and quantitative targets of the organization

Per the Grant regulation 2012 (Government gazette No. 36655) a commitment means that contractual obligations exist (contract or offer letter) at the end of the financial year that will obligate the SETA to make a payment or agreement (written) with specific terms between the SETA and a third party whereby the third party undertakes to perform something in relation to a discretionary project for which CETA will be obligated to make payment against the discretionary grant.

GRAP regards a commitment to be a contractual obligation that does not fit within the definition of a payable, accrual or provision.

SETAs are expected to maintain a reasonable presentation between the Grant regulation and GRAP requirements when considerations are made for what constitutes a commitment.

The CETA has approximately 2000 contracts for programmes active across all provinces of the country.

During the 2020/21 financial year audit the CETA experienced various issues around commitment.

The Construction Sector Education and Training Authority hereby invites bids from experienced, knowledgeable service providers to submit proposals for the provision of resources in the validation, evaluation and reporting on commitments.

3. SCOPE OF WORK/ DELIVERABLES

CERTIFICATE OF INDEPENDENT BID DETERMINATION

This Standard Bidding Document (SBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

This Standard Bidding Document (SBD) must form part of all bids¹ invited.

- 6 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 7 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
- a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 8 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 9 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
