6. Fronting

PetroSA supports the spirit of broad based black economic empowerment and recognises that real empowerment can only be achieved through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent and legally compliant manner. Against this background, PetroSA condemns any form of fronting.

PetroSA, in ensuring that Consultants conduct themselves in an honest manner will, as part of the tender evaluation process, conduct or initiate the necessary enquiries/investigations to determine the accuracy of the representation made in tender documents. Should any of the fronting indicators as contained in the Guidelines on Complex Structures & Transactions and Fronting, issued by the Department of Trade and Industry, be established during such enquiry/investigation, the onus will be on the Supplier to prove that fronting does not exist. Failure to do so within 14 days from date of notification may lead to the disqualification of the Supplier and may also result in the restriction of the Supplier to conduct business with PetroSA, in addition to any other remedies PetroSA may have against the Supplier.

7. Subcontracting of contracts above R 30 million

As a rule, Consultants must subcontract a minimum of 30% of the contract value to an EME or QSE which is at least 51% black owned. Where it is impractical or not feasible to subcontract, Consultants are to provide reasons and are required to make proposals which will advance designated groups as outlined in paragraph 9 of the PPPFA Regulations. PetroSA reserves the right to negotiate with and to assist any Supplier to comply with this provision. - 8.2 Consultants who elect not to participate in the reverse auction will not be eligible for contract award.

10. Contract Award

PetroSA reserves the right to withdraw tenders, reissue tenders and/or divide the scope of supply and award more than one contract.

PetroSA shall not be obliged to accept the lowest or part or all of any tender submitted. No agreement between PetroSA and the Supplier shall come into existence until such time as a written contract signed by PetroSA and the Supplier is concluded, or an official purchase order is issued to the Supplier, and becomes unconditional in accordance with its terms. The Supplier should not and cannot rely on any communication to the Supplier of a successful tender by PetroSA staff and representatives as no legally binding agreement will come into existence until a formal written and legally binding and enforceable agreement is validly concluded and executed. Please further take note that even if a Supplier scores the highest points in a tender/auction the award is subject to a due diligence before a purchase order or contract can be concluded with PetroSA.

PetroSA reserves the right not to award any tender, including a tender that is technically compliant, if the tender is found to be commercially unattractive.

11. Scope Clarification Meeting

PetroSA has scheduled a **virtual (TEAMS)** scope clarification meeting at **10:00** on **Wednesday, 03 September 2024**. Should the Consultants wish to attend it must inform the PetroSA representative by **14:00** on 30 August 2024.
