SECTION 7: SCOPE AND SPECIFICATION OF REQUIRED SUPPLY / SERVICES

Scope of Supply / Services

uShaka Marine World was constructed in the early 2000's, and it opened its doors to members of the public on the 30th of April 2004. As a world class Entertainment Theme Park, uShaka Marine World has positioned itself to be Durban's No.1 tourist attraction. The facility has a footprint of 160 000m², boasting a variety of attractions; and amidst this, it is the home of approximately 10 000 animals (Marine Animals, Reptile, Birds etc).

To support business operational activities certain areas of the park are required to run 24hrs a day / 7 days a week / 365 days a year. The park has its own Reliability and Maintenance Department which incorporates various Engineering disciplines to support park-wide operational activities.

The Reliability and Maintenance Department has an 'Engineering Store/s' consisting of spares, equipment, and consumables needed to support business operational activities. The timeous and continuous replenishment of the Engineering Stores, and the availability of spares and equipment, forms a critical part in this process.

Purpose

To identify accredited service providers or suppliers who are eligible to supply and deliver **Various Electrical Spares, Equipment, and Consumables to uShaka Marine World**, as and when required, for a period of 36 Months thereby enhancing service delivery and lead times.

It is the intention of uShaka Marine World to appoint a Panel of Service Providers for a period of three years. The selection of the service provider will be subject to the criteria set out in the evaluation criteria.

The provided unit rates on the Bill of Quantities will be used to evaluate price. However, Orders will be issued on an as-and-when-required basis and will not exceed the approved budget allocated to the tender. The supplier will be required to acknowledge the Purchase Order. Deliveries must take place within 7 days of placing an official order unless otherwise communicated by uShaka Marine World.

The supplier must provide their own labour for the offloading of the Spares, Equipment, and Consumables at the designated stores. It is a requirement that the items being delivered are checked by the supplier in the presence of the storeman to ensure that the correct items and quantities are being delivered.

Due to nature of business, emergency deliveries will be required from time to time. The successful tenderer will be required to supply and deliver required spares and equipment as per the maximum duration of 24 hours.

Specialised items and non-standard spares that are required by the business are available to be viewed on site for quotation purposes and is marked "as per sample".

The table included in **Section 8-** Bill of Quantities/ Schedule of Rates/ Activities, below provides an overview of the items required by uShaka Marine World. However, it is subject to change within the duration of the contract and is not limited to the items included in the table below. **Bidders will be evaluated per item quoted.**
