2. TERMS OF REFERENCE

2.1. INTRODUCTION

- 2.1.1 The Railway Safety Regulator Act, 2024 (Act No. 30 of 2024), which was promulgated on 01 August 2025, together with the National Rail Policy of 2022, has ushered in a new era of transformation for South Africa's rail sector. The Railway Safety Regulator (RSR) is an agency of the Ministry of Transport and comprises a Board, Chief Executive Officer (appointed by the Minister), Executive management, and staff.

2.1.2 The primary legislative mandate of the RSR is to oversee and enforce safety performance by all railway operators in South Africa including those of neighbouring States whose rail operations enter South Africa. Notwithstanding the foregoing, operators are, in terms of the Act, primarily responsible and accountable for ensuring the safety of their railway operations.

2.2. BACKGROUND

- 2.2.1 Central to the National Rail Policy and legislative framework is the introduction of an open access regime, designed to liberalise the rail market by enabling multiple operators to utilise the national rail network.
- 2.2.2 While this presents opportunities for growth, competition, and innovation, it also introduces significant challenges in ensuring safe, reliable, and harmonised operations across diverse operators and technologies.
- 2.2.3 Currently, the sector relies on a body of safety standards and manuals, including SABS standards (most of which are due for review), regulator standards, voluntary guidelines, and operator-specific manuals, some of which may not align with the requirements of the Act or international best practice.
- 2.2.4 The RSR, mandated to provide oversight, is therefore confronted with regulatory gaps that hinder its ability to effectively enforce safety and interoperability.
- 2.2.5 In response to this challenge, the RSR has initiated a Standards Development Roadmap, an integrated phased approach to developing and implementing an updated Railway Safety Standards for the rail industry, which combines immediate interventions with medium to long-term reforms.

2.3. PURPOSE

- 2.3.1 The purpose of this Terms of Reference (TOR) is to render specialist services for the reviewing and development of the signalling and telecommunications safety standard.

2.4. SCOPE OF WORK

- 2.4.1 The successful bidder shall deliver on the following scope of work:

2.4.1.1 Conduct a structured gap analysis of existing railway signalling and telecommunications safety standards applicable in South Africa, including relevant SANS standards and regulator-issued standards.

2.4.1.2 Conduct targeted international benchmarking against selected railway safety regulators and recognised international standards bodies to assess approaches to safety regulation, interoperability, and technological evolution. Benchmarking will be conducted against the following Regions:

2.4.1.2.1 Europe (EU)

2.4.1.2.2 China and India

2.4.1.2.3 Southern African Development Community

2.4.1.2.4 Australia

2.4.1.2.6 United States of America

2.4.1.3 Facilitate technical working sessions with the RSR-appointed Signalling and Telecommunications Working Group to validate findings and inform the development of the draft Safety Standard.

2.4.1.4 Develop a draft Railway Signalling and Telecommunications Safety Standard that reflects the outcomes of the gap analysis, benchmarking, and stakeholder inputs.

2.4.1.5 Support the RSR during the public consultation process and incorporate approved public comments into the final proposed standard.

2.4.1.6 Complete the Socio-Economic Impact Assessment System (SEIAS) applicable to the development of the Safety Standard.

2.4.2 The total project duration is estimated at approximately **eight months** from the date of contract commencement, and with deliverables 2.4.1.1 to 2.4.1.4 being completed within **three months** from the date of contract commencement.
