1. PURPOSE

The Agency seeks to appoint a service provider for the development of SETA accredited curriculum that will be utilised in the implementation of the Rehabilitation Programme. This TOR outlines the scope of work, evaluation criteria, and mandatory compliance requirements. The project will run for 1 year from date of appointment.

2. BACKGROUND

The proclamation for the AARTO roll-out has been pronounced and gazetted on 1 August 2025, the roll-out of AARTO legislation is envisaged to be implemented fully with the Points Demerit System (PDS) across the country in line with Sect 24 of the Act, in terms of full implementation of AARTO with the Point Demerit System, such will have effect on the driving licenses. Once fully operational in all provinces, the Point Demerit System, which is aimed at influencing positive behaviour change through suspension and/or cancelation of documents, will have an effect on driving license. South Africa as a low/middle income country, majority of drivers fully depend on their driving licenses for their livelihood and such suspension and cancelation might have negative economic consequences. Implementation of AARTO should not be viewed as a policy that will disadvantage drivers and by suspending and/or cancellation of their documentation. Therefore, its clients and customers should not view the RTIA as an entity with the aim of cancelling or suspending licenses.

However, by introducing the Driver Rehabilitation Programme within the PDS, drivers and operators will have the opportunity, or the advantage of their demerit points reduced prior to reaching the set threshold by attending and successfully completing the programme. This will also apply to traffic offenders charged, found guilty in court, and serving either custodial or non-custodial sentences.

Who We're Looking For:

The Agency is looking for Service Provider/s who can develop SETA accredited curriculum/syllabus that will assist infringers in the following: -

- (a) provide an infringer with the information and skills necessary to develop positive attitudes to driving and to change driving behaviour.
- (b) develop safer driving behaviour in infringers and offenders.
- (c) provide an operator with the information and skills necessary to manage the roadworthiness, drivers and operation of its vehicles; and
- (d) provide an infringer with the opportunity to reduce such infringer's demerit points to enable the infringer to reapply for his/her or its driving licence, professional driving permit or operator card.

3. SCOPE OF WORK

Develop and design SETA accredited Curriculum for Rehabilitation Programme for the following learning objectives:

- Helps individuals maintain or regain the ability to drive safely after experiencing a physical or cognitive impairment.
- Attendance of the course will not lead to an accredited qualification, but rather certificate confirming that the programme has been completed.
- Learning material developed may not exceed NQF level 3.
- Occupational therapists assess a person's fitness to drive, considering factors like vision, physical ability, and cognitive skills. They then develop personalized programs to address any identified deficits and provide training to improve driving skills and behaviour.
- Provide training to improve specific skills needed for safe driving, including visual scanning, reaction time, and decision-making.
- Typically focus on equipping individuals with the knowledge, skills, and resources to safely return to driving after incurring demerit points leading to suspension or revocation of the driving license.
- Use of amended AARTO regulation specifically focusing on offences and infringements that carry demerit points
- Curriculum needs to cater for all modes of delivery (e.g. face to face, on-line or blended learning) courses, programmes or workshops for on behalf of Road Traffic Infringement Agency (RTIA).
- The curriculum development must systematically organise what will be taught; who will be taught; and how it will be taught.
- Service Provider expected to register the course/courses content with the relevant SETA and Quality Council for Trades and Occupations (QCTO).
- Service Provider expected to develop the Skills Programme for Infringer Rehabilitation.
- Duration of rehabilitation programme will be a period of five (5) to seven (7) days.

4. PROJECT DELIVERABLES

- SETA accredited Curriculum for road traffic infringers
- 100 hardcopies of the developed curriculum
- Electronic version of the developed curriculum
- The service provider must transfer skills to the internal project teams.
