	18 000 BTU AIR CON	Airconditioner	Examination Room-23	Replacement	Remove existing and install new aircon. long run drainage existing
OPS	24 000 BTU AIR CON	Airconditioner	Move to slaker house No.2 OM	Replacement	Remove existing and install new aircon. scaffolding required
Facilities	24 000 BTU AIR CON	Airconditioner	Rec gym	Replacement	Remove existing and install new aircon
Facilities	60 000 BTU AIR CON Under ceiling	Airconditioner	rec club hall	Replacement	Remove existing and install new aircon

Special instruction notes on Installation:

Supplier's responsibility to provide all the necessary equipments required for the intallation and removal of existing aircons where it will be replaced

supplier to work on heights (some aircons are installed on buildings that are 10m high and above) and confined spaces

Supplier shall be given a list and barcodes to install during installation and all air conditioners to be barcoded prior to installation and list to be updated accordingly

All airconditioners that will be removed needs to be taken to Scrap Yard for save keeping

Include the safety file amount when quoting per unit

Brand: Samsung, LG, Gree, York or equivelant , spares should be available in South Africa for repairs

Successful supplier must submit a safety file and attend induction before work commences

Safety file costs along with any other additional costs eg scaffolding etc must be worked into the pricing for the air condtioners

Annexure C 4 - Site Information

Rand Water Zuikerbosch

Vischgat Road

Three Rivers East

Vereeniging

GPS Co-ordinates S26 41 520, E28 00 061
