6.11.1	The procedure for the evaluation of responsive tenders is Method 4: Financial offer, quality and preference. Add the following to the clause: Price Analysis Nala Local Municipality uses a Financial Tolerance Range (also referred to as standard deviation) to assess the reasonableness of tender prices relative to the consultant's estimate. This range assists in eliminating bid prices that are deemed excessively high or low. Prices falling outside the tolerance range (-20% to +20%) will be deemed non-responsive. The higher limit ensures Nala Local Municipality does not pay more than the service or goods are worth, while the lower limit mitigates the risk of incomplete work or subsequent price increases due to under-pricing. Nala Local Municipality reserves the right not to appoint the lowest bid. Bids will be opened immediately after the closing time for bids, at the same venue. The name of each tenderer and their bid price will be read out and recorded.

6.11.8	Preferential Procurement Regulations, 2022, will be used to evaluate this proposal as per the applicable threshold value. Bid proposals will be evaluated based on the 80/20 preference points system in accordance with the PPPFA Act (Act no. 5 of 2000). Where a maximum of 80 points will be awarded in respect of price and a maximum of 20 points will be awarded for specific goals. In terms of Regulation 4(2) and 5(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the tenderer's goals claimed as per Table 1 - 5 below. The tenderer goals claimed must be supported by proof/documentation as per Table 1 - 5 and the special conditions of this tender where applicable. "Specific goals" means specific goals as contemplated in section 2(1)(d) of the PPPFA Act which may include contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender and disability including the implementation of programmes of the Reconstruction of Development Programme as published in <i>Government Gazette</i> No. 16085 date 23 November 1994. "Ownership" means the percentage of ownership and control, exercised by individuals within an enterprise. "Disability" means, in respect of a person, a permanent impairment of a physical, intellectual, or sensory function, which results in restricted, or lack of, ability to perform an activity in the manner, or within the range, considered normal for a human being. i. A blind person (in terms of the Blind Persons Act, 1968 (Act no.26 of 1968); ii. A deaf person, whose hearing is impaired to such an extent that he/she cannot use it as a primary means of communication; iii. A person who, as a result of permanent disability, requires a wheelchair, calliper or crutch to assist him/her in moving from one place or another; iv. A person who requires an artificial limb; or v. A person who suffers from a mental illness (in terms of the Mental Health Act, 1973 (Act no. 18 of 1973). "Youth" means, in respect of a person younger than 35 years of age. Women, disability, and youth will be measured by calculating the pro-rata percentage of ownership of the bidding company which meets the criterion. E.g., Company A has five shareholders each of whom owns 20% of the company. Three of the five shareholders meet the criterion, i.e. they are women/disability/youth. Therefore, this bidder will obtain 60% of the points allowable for this goal. The number of points for N_p will be capped at a maximum of 20, as outlined in Table 1 below, in accordance with the Preferential Procurement Regulations, 2022. The points awarded will be based on the Tenderer's specific objectives, as detailed in the table below. Failure on the part of a bidder to submit proof of documentation required in terms of this tender to claim for specific goals with the bid will be interpreted to mean that preference points for specific goals are not claimed and will not be allocated.

	MAXIMUM POSSIBLE SCORE FOR QUALITY (Ms)			100
	Note: In a case where the bidder was subcontracting , both copies of the appointment letter and completion certificate must be submitted along with the completion certificate of the main contractor .			
Functionality refers to the Tenderer's technical capability, as demonstrated by their experience, to deliver the required product in line with the specified standards of quality, reliability, and performance. The Bidder (and or together with the Bidders' subcontractor) must meet the minimum requirements outlined in the functionality criteria and achieve a minimum score of 70 points (SO) out of a possible 100 points (Ms) for Functionality. An overall minimum threshold of 70 (SO) points out of a total of 100 (Ms) must be achieved for the tender to be eligible. Bids scoring below 70 points (SO) will be deemed technically unacceptable and will not progress to further evaluation. Bidders intending to use a specialist subcontractor for scoring must include supporting details about the subcontractor, along with a letter of intent to engage their services, in the bid submission. If a bidder relies on the subcontractor's functionality score, they are required to employ that subcontractor for the project if awarded the contract or to use a similar approved subcontractor who meets or exceeds the functionality score of the initially proposed subcontractor. Furthermore, any pricing included in the bidding documentation for specialist services will be fixed and binding throughout the contract. See the T2 returnable annexure for applicable documents with details on point allocation for the sub-criteria. The minimum number of evaluation points required for functionality (quality) is 70 out of 100. This score of 70 points will be converted into a score out of 100 using the following formula: $N_Q = 100 \times S_O / M_S$ • $N_Q \rightarrow$ is the number of tender evaluation points awarded for the functionality offered; • $S_O \rightarrow$ is the score for functionality criteria (6.11.9) allocated to the submission under consideration • $M_S \rightarrow$ is the maximum possible score for functionality criteria (100). The minimum required evaluation points for functionality (quality) are 70 out of 100.
