Ergonomics Chair specifications

1. An office chair must fulfil all requirements of a modern seat, adjustable height (380-540mm) swivel, rounded front edge of the seat surface, castors at five-arm base and user-friendly controls.
2. The height of the armrests should be adjustable to ensure that the office chair is able to move underneath the desk. This promotes supported forearms on the table whilst typing and therefore prevents strain and repetitive use of lower trapezius.
3. The backrest should have an adjustable inclination. It should be possible to lock the backrest at any desired angle. Backrest height of at least 500mm vertically above the seat surface is a necessity so as to prevent strain on the neck muscles (upper and lower trapezius).
4. The backrest must have a well-formed lumbar pad, which should offer good support to the lumbar spine between the 3rd vertebrae and sacrum.
5. The seat surface should measure 400-500mm across and 380-420mm from back to front. A light cavity in the seat pan will prevent the buttocks from sliding forward. A light padding, about 20mm thick, covered with non-slip, permeable material is a great aid to comfort and to reduce the strain on the lower back.

Equipment/Assistive devices:

Active design high back office chair maximizes proper body alignment in sitting to reduce back and neck strain/pain.

Recommended model: Mid-back Active range with adjustable arms

Specification: Mid-Back Mesh back: Moulded foam seat (700mm deep) Lumbar support, Fully adjustable arms (380 -540mm) (height and width adjustable), Frontal pivot synchro mechanism with Multiples back lock, Variable back tension control and Height adjustment. The seat surface should measure 400-500mm across and 380-420mm from back to front. . Backrest height of at least 500mm vertically above the seat surface. **Material: black fabric seat**

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
