TERMS OF REFERENCE

NWDF02/2023 - APPOINTMENT OF A PANEL OF PROVINCIAL EXECUTIVE REPRESENTATIVES FOR MUNICIPALITIES IN THE NORTH WEST PROVINCE FOR A PERIOD OF THREE (03) YEARS ON AS AND WHEN REQUIRED BASIS.

1. BACKGROUND

Section 139 (5) (a) and (c) of the Constitution states that;

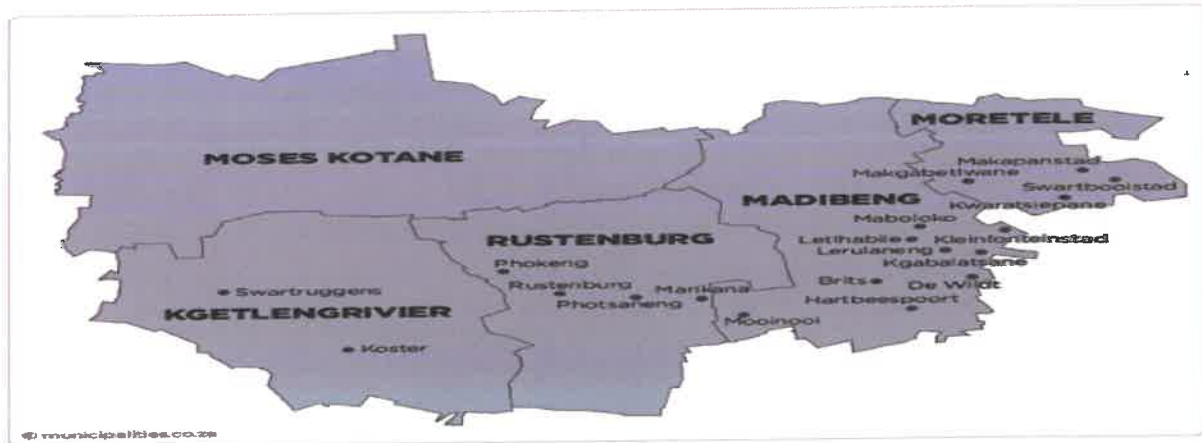

If a municipality, as a result of a crisis in its financial affairs, is in serious or persistent material breach of its obligations to provide basic services or to meet its financial commitments, the relevant Executive Council:

- a) Must impose a recovery plan aimed at securing the municipality's ability to meet its obligations to provide basic services or its financial commitments which:
 - (i) Is to be prepared in accordance with national legislation
 - (ii) Binds the municipality in the exercise of its legislative and executive authority;

But only to the extent necessary to solve the crisis in its financial affairs.
- b) If the Municipal Council is not dissolved in terms of paragraph, assume responsibility for the implementation of the recovery plan to the extent that the municipality cannot or does not otherwise implement there recovery plan.

Some Municipalities have been placed under Section 139 (5) (a) and (c) of the Constitution by the Provincial Executive Council. It is therefore a Provincial intervention based on a Governance, Institutional, Service Delivery and financial crisis in the municipality. In line with the above provisions of the law, there is a need to appoint the Provincial Executive Representative to assume the responsibility of implementing the recovery plan.

The North West Province has identified twelve (12) financially distressed municipalities. These municipalities are experiencing poor cash flow management, unable to collect revenue, long outstanding creditors as well as underspending on capital grants. The trend in the province for the past five (5) years has seen municipalities adopting unfunded budgets. The continuous adoption of unfunded budgets impact negatively on service delivery.

2. OBJECTIVE

To establish a panel of individuals to serve as Provincial Executive Representatives at municipalities responsible for the performance of the duties entrusted to a Provincial Executive Representative in line with the decision of the Provincial Executive Council to invoke the provisions of section 139(5) (a) and (c) of the Constitution of the Republic of South Africa, read together with section 139 of the MFMA.

3. LEGISLATIVE FRAMEWORK

Section 139(1) (a) of the Municipal Finance Management Act states that;

“If a Municipality, as a result of a crisis in its financial affairs, is in serious or persistent material breach of its obligations to provide basic services or to meet its financial commitments, or admits that it is unable to meet its obligations or financial commitments, the Provincial Executive Council must promptly -

- a) request the Municipal Financial Recovery Service -
 - (i) to determine the reasons for the crisis in its financial affairs;
 - (ii) to assess the municipality's financial state;
 - (iii) to prepare an appropriate recovery plan for the municipality;

- (iv) to recommend appropriate changes to the municipality's budget and revenue-raising measures that will give effect to the recovery plan; and*
- (v) to submit the MEC for finance in the province –*
 - (aa), the determination and assessment referred to in subparagraphs (i) and (ii) above, as a matter of urgency and*
 - (bb) the recovery plan and recommendations referred to in subparagraphs (iii) and (iv) above, within a period, not to exceed 90 days, determined by the MEC for Finance, and*

Section 139(5) (a), (b) and (c) of the Constitution states that;

If a municipality, as a result of a crisis in its financial affairs, is in serious or persistent material breach of its obligations to provide basic services or to meet its financial commitments, or admits that it is unable to meet its obligations or financial commitments, the relevant provincial executive must –

- (a) Impose a recovery plan aimed at securing the municipality's ability to meet its obligations to provide basic services or its financial commitments, which -
 - (i) is to be prepared in accordance with national legislation; and*
 - (ii) binds the municipality in the exercise of its legislative and executive authority, but only to the extent necessary to solve the crisis in its financial affairs; and*
- (b) Dissolve the municipal council, if the municipality cannot or does not approve legislative matters, including a budget or any revenue- raising measures, necessary to give effect to the recovery plan, and
 - (i) appoint an administrator until a newly elected municipal council has been declared elected; and*
 - (ii) approve a temporary budget or revenue-raising measures or any other measures giving effect to the recovery plan to provide for the continued functioning of the municipality; or*
- (c) If the Municipal Council is not dissolved in terms of paragraph (b), assume responsibility for the implementation of the recovery plan to the extent that the municipality cannot or does not otherwise implement the recovery plan".

4. LEGISLATIVE FRAMEWORK

4.1 NATURE AND SUMMARY OF THE INTERVENTION

The Provincial Executive Council has adopted a resolution which communicated that municipalities which are in serious material breach of their obligations to meet their financial commitments as confirmed by the financial health assessment conducted in terms of Section 140(2) (c) of the Municipal Finance Management Act, must be placed under mandatory intervention in terms of the provisions of Section 139 of the Municipal Finance Management Act read together with Section 139(5) of Constitution of the Republic of South Africa.

The above serious material breach of municipal obligations can be attributed to amongst others the following factors:

- a) A widespread lack of financial controls and project monitoring;
- b) Deliberate lack of accountability by the political and administrative municipal leadership;
- c) Accountability was not adequately practised and enforced by leadership and the failure of key controls continued;
- d) Millions were spent to improve the outcomes, but there were no consequences for poor performance;
- e) Deteriorating accountability and financial management coupled with weakened oversight is at the centre of the significant regressions in audit outcomes; and
- f) Systemic breakdown in the discipline of financial controls.

These could be summarised into the following key common factors contributing to problems in municipal finance:

- a) Weak or dysfunctional governance systems and institutions;
- b) Poor leadership - both political and administrative;
- c) Lack of effective monitoring and oversight; and
- d) An obvious disregard for the legal framework knowing that unethical and corrupt behaviour will not be met with any consequences.

The mandatory intervention must also address political, financial management, governance and institutional arrangements as well as service delivery failures to ensure long-term sustainability of the municipality.

4.2 **THE ARCHITECTURE OF THE INTERVENTION PLAN**

The intervention plan contemplated must differentiate between three distinct phases and must meet minimum standards of section 142 of MFMA Act that states that:

A financial recovery plan must be aimed at securing the municipality's ability to meet its obligations to provide basic services or its financial commitments, and such a plan, whether for a mandatory or discretionary intervention-

(a) must-

- (i) identify the financial problems of the municipality;
- (ii) be designed to place the municipality in a sound and sustainable financial condition as soon as possible;
- (iii) state the principal strategic objectives of the plan, and ways and means for achieving those objectives;
- (iv) set out a specific strategy for addressing the municipality's financial problems, including a strategy for reducing unnecessary expenditure and increasing the collection of revenue, as may be necessary;
- (v) identify the human and financial resources needed to assist in resolving financial problems, and where those resources are proposed to come from;
- (vi) describe the anticipated time frame for financial recovery, and milestones to be achieved; and
- (vii) identify what actions are necessary for the implementation of the plan, distinguishing between actions to be taken by the municipality and actions to be taken by other parties; and

(b) may-

- (i) provide for the liquidation of specific assets, excluding those needed for
- (ii) provide for debt restructuring or debt relief in accordance with Part 3 of
- (iii) provide for special measures to prevent unauthorised, irregular and
- (iv) identify any actual and potential revenue sources.

Phase 1 - A Rescue Phase which will focus primarily on governance, institutional and service delivery issues which can also produce a relatively quick turn-around. A

list of strategic, high-level and useful financial indicators will have to be identified for Phase 1 upon the completion of the status quo report. Indicators for service delivery in Phase 1 should ideally focus on ensuring visible waste management and sanitation service delivery improvements i.e., refuse removal in formal and informal areas, sewer spillages, curbing water losses, fixing of streetlights and road maintenance with particular emphasis on potholes also requires priority attention. However, as resources become available through better cash management, the collection of outstanding debt and the prioritisation of expenditure, service delivery issues can be addressed more comprehensively to secure the revenue base.

Phase 2 - Stabilisation Phase In this phase, a strong focus on cash, finances and financial management is still maintained, but greater attention is placed on the underlying service delivery, governance and institutional matters perpetuating the financial crisis in the municipality, such as the design of a fit for purpose organogram, plans to address the repairs and maintenance and renewal of infrastructure for the water and electricity network through which the municipality loses significant revenues, ensuring that the property valuation roll is updated and that all customers are billed accordingly and other similar measures.

Phase 3 – Sustainability Phase will focus on ensuring the long-term sustainability of the municipality. In this phase, much of the work done in Phases 1 and 2 will need to be institutionalised.

5. LEGISLATIVE FRAMEWORK
