

To Whom it may concern,

The below are answers to all the questions that were posed for the following Contract:

**31700 (1Q) - Aerial Survey to provide high resolution aerial imagery, true orthophotos and high-resolution LiDAR for a period of 36 months**

(1) Is the only requirement for the large format camera to be >85MP?

**Answer :** Yes, or greater than 85MP

(2) What would the tolerances on the true orthophotos be?

**Answer :** We do not have a specific tolerance, a DSM ortho will do, ensuring no building lean.

(3) Is true ortho production required for the entire AOI, or only for the high-rise building areas?

**Answer :** Yes, maintaining the same overlap, even in rural parts of the AOI

Signed..... 27 May 2025

A handwritten signature in black ink, appearing to read 'Luvo Qumba', is written over a dotted line.

Yours faithfully
