

Introduction

This document has been developed to set the standard technical evaluation criteria to be used when evaluating the tender submissions. This covers the technical evaluation for the supply and delivery of PPE Accessories for Eskom and its Subsidiaries.

This document contains the evaluation criteria to be used for evaluation of PPE Accessories tender.

Evaluation criteria

The aim of the technical evaluation is to establish the capability of tenders to supply good quality PPE that complies with the relevant statutory requirement, local and international standards and the Eskom requirements.

Technical evaluation will be done in two phases, that is, first phase desktop evaluation and second phase warehousing and sample evaluation.

In the first phase bidders are required to complete and return the PPE category document attached (Annexure A) confirming the category of PPE the bidder can be able to supply. If the bidder cannot supply all the products in a particular category, that category will not be evaluated in the second phase. A letter of support from the local manufacturer confirming that they will be the bidder's supplier for all designated products, which are leather and footwear for this tender. In addition bidders will be required to submit applicable standard compliance certificates (e.g. SANS, EN, CE ANSI) and test certificates (where applicable) for the products they are intending to supply.

The second phase includes visiting the tenderers premises to confirm that their products (sample evaluation) indeed complies to the Eskom specification and SABS requirements. The bidder needs to prepare each product's technical data sheet for evaluation. This phase also includes evaluation of the bidder's warehousing facilities to establish the bidder's potential to hold enough stock.

Requirements

Tenderers are required to return the following:

Phase 1

- Completed Annexure A. clearly stating the products they can supply, also confirmation that their products comply with the Eskom specification.
- The evaluation will be per category. This means that the bidder has to apply for all the products in a category to be considered for that category.
- Letter of support from the manufacturer for all designated products which stipulate that they will be able to supply the required products.
- Product technical data sheet. Suppliers should provide data sheets for all items tendered for.
- Test and/or standard compliance certificates for relevant products tendered for as per PPE specification.

Phase 2

- Prepare samples for the products they have tendered for to be evaluated during the site visits.
- Product technical data sheet. Suppliers should provide data sheets for all items tendered for.
- Allow the visit to the manufacturers who will be manufacturing the equipment.
- Allow for a visit to the warehousing facility where the stocks will be kept.

The Eskom Technical Evaluating team will inspect the samples provided for compliance with the Eskom's PPE Specifications and assess the capability of the bidder to keep enough stock.

NOTE: Should the tenderer have a product that is not the same as specified in the Eskom specification but can perform according to or better than the one specified, they must list it in the deviation schedule.

ANNEXURE A

NB: To completed and sent back as part of the tender documents.

Company name	
Manufacturer/Distributor	
Name of Manufacture to be used if you are a Distributor	
Letter from Manufacture attached (Yes/No)	
Please indicate which products you are tendering for in the categories below by placing an (x) next to the product. Note for phase 1, failure to submit the relevant standards and or test certificates will lead to disqualification.	

DESCRIPTION	MANUFACTURER OR DISTRIBUTOR (M/D)	Mandatory standards and or Test Certificates available where applicable as per PPE Specification (Yes/No)	Mark with X for products Tendering for	Mandatory Letter of Support from Manufacturer for products Tendering for , clearly stating the ETA from PO stage to delivery (Yes/No)	COMMENTS
Soft hat (bush hat)					
Compliance to Eskom's PPE specification 240-44175132.					
Hard hat					
Compliance to Eskom's PPE specification 240-44175132.					
Sun brim					
Compliance to Eskom's PPE specification 240-44175132.					
Hair net					
Compliance to Eskom's PPE specification 240-44175132.					
One piece overall Artisan Boiler Suit					

Compliance to Eskom's PPE specification 240-44175132.					
One piece overall - acid					
Compliance to Eskom's PPE specification 240-44175132.					
Chemical suit					
Compliance to Eskom's PPE specification 240-44175132.					
2 Piece overall					
Compliance to Eskom's PPE specification 240-44175132.					
2 Piece overall - acid					
Compliance to Eskom's PPE specification 240-44175132.					
Long Pants					
Compliance to Eskom's PPE specification 240-44175132.					
Ladies long pants					
Compliance to Eskom's PPE specification 240-44175132.					
Jacket Utility Operating					
Compliance to Eskom's PPE specification 240-44175132.					
Thermal jackets					
Compliance to Eskom's PPE specification 240-44175132.

Protective clothing for hand held Chainsaw					
Compliance to SANS 50381-5					
Respirator canister					
Compliance to Eskom's PPE specification 240-44175132.					
Sunscreen / Sunblock cream UV SPF 40+					
Compliance to Eskom's PPE specification 240-44175132.					
Barrier cream 1					

Compliance to Eskom's PPE specification 240-44175132.					
Barrier cream 2					
Compliance to Eskom's PPE specification 240-44175132.					
Barrier cream 3					
Compliance to Eskom's PPE specification 240-44175132.					
Barrier cream 4					
Compliance to Eskom's PPE specification 240-44175132.					
Insect repellent					
Compliance to Eskom's PPE specification 240-44175132.					
Foot Powder					
Compliance to Eskom's PPE specification 240-44175132.					
Lip Balm SPF 16					
Compliance to Eskom's PPE specification 240-44175132.					
Tick repellent and Snake repellent					
Compliance to Eskom's PPE specification 240-44175132.					
Spectacles - goggles clear / Industrial grey					
Compliance to Eskom's PPE specification 240-44175132.					
Spectacles - amber					
Compliance to Eskom's PPE specification 240-44175132.					
Spectacles -safety rap around clear 48 mm Sunglasses					
Compliance to Eskom's PPE specification 240-44175132.					
Spectacles -in-door/outdoor					

Compliance to Eskom's PPE specification 240-44175132.					
Spectacles - cord					
Compliance to Eskom's PPE specification 240-44175132.					
Spectacles - visitors					
Compliance to Eskom's PPE specification 240-44175132.					
Spectacle Gas welding Green					
Compliance to Eskom's PPE specification 240-44175132.					
Spectacle Storage case					
Compliance to Eskom's PPE specification 240-44175132.					
Cold weather protection					
Compliance to Eskom's PPE specification 240-44175132.					
Protective clothing for Chainsaw					
Compliance to Eskom's PPE specification 240-44175132.					

**TECHNICAL EVALUATION CRITERIA FOR Unique Identifier: Enquiry No.
PPE ACCESSORIES**

Revision: **0**

Page: **3 of 4**

Phase 1 Technical Evaluation

Criteria	Requirement	Weight (%)	Scoring Guide
Annexure A Completion & Compliance	Completed Annexure A clearly stating products supplied, with confirmation of compliance to Eskom specification per Category	60%	0 = Not submitted = Completion 25% = Fully completed & compliance confirmed
Category Application	Bidder must apply for all products in a category to be considered	15%	0 = Did not apply for all products in category 20 = Applied for all products in category, complete
Manufacturer Support Letter or proof that you are the manufacture	Distributor/Supplier must provide Letter of support from manufacturer with full details of the company, with a letter head for all the products that they wish to tender for per category	15%	0 = No letter provided 20 = Comprehensive letter covering all products tendering for
Test/Compliance Certificates	Certificates for relevant products as per PPE specification	10%	0 = No certificates 15 = All relevant certificates provided, compliant
Total weighted		100%	
Minimum Threshold for Qualification		85%	

Phase 2 Evaluation Criteria

Note: This phase is done to confirm information submitted during the first phase, therefore if a category does not have a full complement of products, it will not be evaluated further. The supplier will be eliminated for that category.

Evaluation Criteria	Weighted Score	Requirement Breakdown
Sample compliance to Eskom PPE specification	60%	Not compliant – 0% Compliance to PPE specification per product – 60%
Stock keeping - warehousing	10%	Warehouse or storeroom with proper shelving, labelling and enough space (at least 20 m2) – 100% Warehouse or storeroom with enough space but no shelves (at least 20 m2) – 5% No storeroom – 0%
Total	100%	
Minimum Threshold for Qualification	85%
