Quotation Validity	90 Days from the closing date
Submission Details	RFQ Response must be sent to: ✉ Catherine.matima@necsa.co.za
RFQ Description	RFQ: Management of Ionization Smoke Detectors

Dear Service Provider

1. Introduction

The South African Nuclear Energy Corporation Limited (Necsa) is a state-owned public company (SOC), registered in terms of the Companies Act, (Act No. 61 of 1973), registration number 2000/003735/06. The Necsa Group engages in commercial business mainly through its wholly-owned commercial subsidiaries: NTP Radioisotopes SOC Ltd (NTP), which is responsible for a range of radiation-based products and services for healthcare, life sciences and industry, and Pelchem SOC Ltd (Pelchem), which supplies fluorine and fluorine-based products. Both subsidiaries, together with their subsidiaries, supply local and global markets, earning valuable foreign exchange for South Africa and are among the best in their field in their respective world markets.

Necsa's safety, health, environment and quality policies provides for top management commitment to compliance with regulatory requirements of ISO 14001, OHSAS 18001 and RD 0034 (Quality and Safety Management Requirements for Nuclear Installations), ISO 9001 and ISO 17025.

Necsa promotes the science, technology and engineering expertise of South Africa and improves the public understanding of these through regular communications at various forums and outreach programmes to the community. We are a proudly South African company continuously striving, and succeeding in many respects, to be at the edge of science, technology and engineering related to the safe use of nuclear knowledge to improve our world.

For more information on Necsa, please visit: www.necsa.co.za

2. Background

Necsa has been collecting and safely storing Ionisation Smoke detectors (ISD). The ISD are the most common type smoke detectors that are commercially manufactured and used within the country and

	<h1 style="text-align: center;">Request for Quotation</h1> <h2 style="text-align: center;">Management of Ionization Smoke Detectors (ISD)</h2>		Doc. No	NOAM-PM-RFQ-0003
			Revision	1
			Page	1 of 4

around the world. These have been used for decades. These devices use a small amount of radioactive material, usually ²⁴¹Am or ⁸⁵Kr.

Individual ISD are often exempted from regulatory control due to the small amount of radioactive material they contain, therefore, disposal of individual units in municipal landfills was previously practiced in many countries and is still practiced in some. However, due to the large number of these devices and the long half-life of their sources, it is becoming a routine practice worldwide (a) to remove them from the public domain, (b) remove, consolidate and condition their disused sealed radioactive sources (DSRS) and (c) manage their DSRS as radioactive waste.

According to South African regulation, smoke detectors once become disused, should be managed as radioactive waste. For this reason, disused smoke detectors across the country are being collected around the country for safe storage at authorised facility at Necsa for future disposal. Necsa is responsible for all predisposal operations related to radioactive waste management in the country. A large number of different types of these devices are currently stored at its centralized waste management facility.

3. Scope of work

The ISD waste cannot be left in its current form forever and specific management options are required to adequately manage this type of waste. The management option selected for a particular source will depend on a variety of relevant factors, including amongst others the activity, radioisotope content, half-life and physical condition of the source.

One of the safe and economic way of management of ionic smoke detectors is to dismantle the device, recover the radioactive source and condition them for long term storage and disposal. The rest of the non-radioactive materials should be segregated (plastic, metal and electronic components) for recycling.

ISD have been collected from different institutions around the country. The information regarding the radionuclide contained in the source and the activity is not known for some models of these devices. Thus the first assignment for the appointed service provider is the development of the characterization method for the ISD. The method must clearly indicate how the radionuclide and the activity of each device will be identified and validated. A corresponding registry to capture the data must also be developed.

All sources entering the waste management process must be characterized to establish their activity, the radionuclide content and other important characteristics. Based on the source characteristics, specific management options will be identified.

As indicated earlier one of the options for treatment of radioactive waste is to reduce the volume, in this case by dismantling each model of smoke detector and recovering the radioactive sources and the rest of the component be treated as normal waste. It is therefore required that a technical manual with specific instruction for dismantling each model of smoke detector and recovering the disused

	<h1 style="text-align: center;">Request for Quotation</h1> <h2 style="text-align: center;">Management of Ionization Smoke Detectors (ISD)</h2>	Doc. No	NOAM-PM-RFQ-0003
		Revision	1
		Page	1 of 4

sealed radioactive source (DSRS) be developed. Instructions for segregation of non-radioactive components must also be included in the manual.

A methodology for the conditioning of removed sealed radioactive sources for long term storage and disposal must be developed. The retrievability of the sources (sealed capsules with radioactive sources) for future disposal must be considered. A procedure must be elaborated for these operations and form part of the methodology.

Finally a waste management plan that describes the long-term management of both the radioactive sources and the secondary waste from dismantling operations must be drafted. The document must demonstrate how the radioactive sealed source removal, conditioning and long-term management will be carried out safely and in accordance with IAEA and NNR requirements independent of available infrastructure at Necsa.

4. Request

Necsa hereby invites interested service providers/suppliers to submit quotations, proposals or bids, as appropriate, for the provision of goods and/or services as defined in Section 3.

To access Necsa site, all representatives from potential service providers must provide a copy of their South African Identity Document. Service providers intending to attend the site briefing are required to complete the form on the last page of this RFQ and send it to catherine.matim@necsa.co.za at least 2 days before the compulsory site briefing. Representatives from potential bidding companies are to arrive at gate 3 by 9:30 to allow time to go through the registration and site arrangement before commencement at 10:00.

5. Attachments

01	Declaration of Interest	Bidder's Disclosure
02	FBD-SCM-2017-FRM-0024-Rev 7	Request to register a supplier
03	SBD1	Supplier Information

6. Pricing

- Use Table 1 to itemize your offer, taking into account the scope of work and associated deliverables as defined in Section 3 and Table 1. Additional rows can be added if there are more itemized items than the rows allocated in Table1.
- All price quoted to include all applicable taxes.
- Price must be fixed and firm.

	<h1>Request for Quotation</h1> <h2>Management of Ionization Smoke Detectors (ISD)</h2>	Doc. No	NOAM-PM-RFQ-0003
		Revision	1
		Page	1 of 4

- Price should include additional cost elements such as freight, insurance until acceptance, duty where applicable, disbursements etc.
- Quotation must be completed in full; incomplete quote could result in the submission being disqualified.
- Payment will be according to Necsa's General Conditions of Purchase.

7. Evaluation

• Phase 1- Functionality Evaluation / Technical Evaluation (N/A)

Where functional or technical evaluation criterion is applicable, assessment will be performed in terms of the criterion listed below and the criterion may include Technical, Performance, Quality and Risk. If the bidder's response to the Technical templates does not indicate that the bidder can support an acceptable technical solution, the bidder's response will be rejected and not evaluated further.

Together; the Technical, Performance, Quality and Risk criteria make up the functionality criterion and a bidder's proposal will be evaluated for functionality out of a possible 100 points. Only RFQ responses achieving an evaluation score of greater than the set threshold points out of the possible 100 points and which score a number of points for functionality that is greater than or equal to the set threshold points of the number of points achieved by the highest scoring bid for functionality will be selected to progress to the second stage.

The quotations will be evaluated according to the following selection criteria (based on information requested above):

	<h1>Request for Quotation</h1> <h2>Management of Ionization Smoke Detectors (ISD)</h2>	Doc. No	NOAM-PM-RFQ-0003
		Revision	1
		Page	1 of 4

Item	Requirement	Weight	Points	Criteria
01	Nuclear Scientist or Engineer Skills and expertise in nuclear waste management and understanding of local and international legislation related to nuclear waste.	20	20	BSc Honours – Chemistry; Physics or equivalent.
			0	No BSc Honours-Chemistry; Physics or equivalent.
		10	10	Experience in Radiological sample and material characterization (provide CV).
			0	No experience in Radiological sample and material characterization.
		10	10	Experience in compiling waste management strategies/plans (clearly indicate on CV)
			0	No experience in compiling waste management strategies/plans
		10	10	Understanding of nuclear waste management processes (clearly indicate on CV)
			0	No Understanding of nuclear waste management processes
		10	10	Understanding of NNR processes (clearly indicate on CV)
			0	Understanding of NNR processes
		40	Years of Experience in the nuclear environment. (clearly indicate on CV). 8 Years' and more = 40 6 to 7 Years' = 32 4 to 5 Years = 24 2 to 3 Years = 16 1 Year or less = 8	
Total	100

IMPORTANT: A bidder/s that scores less than **80 points out of 100** in respect of functionality will be regarded as submitting a non-responsive bid and will be disqualified. On the other hand, should a bidder/s meet the minimum required percentage or minimum points, they will be evaluated as per Phase 2 evaluation outlined below.

- **Phase 2 - Evaluation In Terms Of Preferential Procurement Policy Framework Act, 2022**

This bid will be evaluated and adjudicated according to the 80/20 point system, in terms of which a maximum of 80 points will be awarded for price and 20 points will be allocated based on the specific goals (B-BBEE status level).

	POINTS
PRICE	80
SPECIFIC GOALS (B-BBEE status level)	20
Total points for Price and SPECIFIC GOALS	100

Preference goal

B-BBEE status level contributor

B-BBEE Status Level of Contributor	Number of points (80/20 system)

8. Required Documentation

- Tax Clearance Certificate (Tax pin issued by SARS)
- Declaration of interest (SBD 4)

	<h1 style="text-align: center;">Request for Quotation</h1> <h2 style="text-align: center;">Management of Ionization Smoke Detectors (ISD)</h2>	Doc. No	NOAM-PM-RFQ-0003
		Revision	1
		Page	1 of 4

- BEE Certificate / Applicable Affidavit if classified as EME
- Letter of Good Standing (COID) only if Applicable due to the nature of work required
- Any other document or certification that might have been requested on this RFQ

9. Important

1. Quotation must be submitted on or before the RFQ closing date and time stated above.
2. Orders above R 30 000 will be evaluated according to the PPPFA 80/20-point system and a functionality scorecard where applicable and those above R 1 Million will be subjected to the tender process.
3. This RFQ is subjected to the Necsa's General Conditions of Purchase, Preferential Procurement Policy Framework Act 2000 and the Preferential Procurement Regulations, 2022, the General Conditions of Contract (GCC) and, if applicable, any other legislation or special conditions of contract.
4. Failure on the part of a bidder to submit proof of B-BBEE Status level of contributor together with the bid, will be interpreted to mean that preference points for specific goals are not claimed.
5. The purchaser reserves the right to require of a bidder, either before a bid is adjudicated or at any time subsequently, to substantiate any claim in regard to specific goals, in any manner required by the purchaser.
6. For a bidder to obtain clarity on any matter arising from or referred to in this document, please refer queries, in writing, to the contact details provided above. Under no circumstances may any other employee within Necsa be approached for any information. Any such action might result in a disqualification of a response submitted in competition to this RFQ.
7. No goods and/or services should be delivered to Necsa without an official Necsa Purchase order.
8. Necsa reserves the right to either cancel or reject any quote and not to award the RFQ to the lowest bidder or award parts of the RFQ to different bidders, or not to award the RFQ at all.
9. The supplier shall under no circumstances offer, promise or make any gift, payment, loan, reward, inducement, benefit or other advantage, which may be construed as being made to solicit any favour, to any Necsa employee or its representatives. Such an act shall constitute a material breach of Agreement and Necsa shall be entitled to terminate the Agreement forthwith, without prejudice to any of its rights.

BIDDER'S DISCLOSURE

1. PURPOSE OF THE FORM

Any person (natural or juristic) may make an offer or offers in terms of this invitation to bid. In line with the principles of transparency, accountability, impartiality, and ethics as enshrined in the Constitution of the Republic of South Africa and further expressed in various pieces of legislation, it is required for the bidder to make this declaration in respect of the details required hereunder.

Where a person/s are listed in the Register for Tender Defaulters and / or the List of Restricted Suppliers, that person will automatically be disqualified from the bid process.

2. Bidder's declaration

2.1 Is the bidder, or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest¹ in the enterprise, employed by the state? **YES/NO**

2.1.1 If so, furnish particulars of the names, individual identity numbers, and, if applicable, state employee numbers of sole proprietor/ directors / trustees / shareholders / members/ partners or any person having a controlling interest in the enterprise, in table below.

¹ the power, by one person or a group of persons holding the majority of the equity of an enterprise, alternatively, the person/s having the deciding vote or power to influence or to direct the course and decisions of the enterprise.

Full Name	Identity Number	Name of State institution

2.2 Do you, or any person connected with the bidder, have a relationship with any person who is employed by the procuring institution? **YES/NO**

2.2.1 If so, furnish particulars:

.....

2.3 Does the bidder or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest in the enterprise have any interest in any other related enterprise whether or not they are bidding for this contract? **YES/NO**

2.3.1 If so, furnish particulars:

.....

3 DECLARATION

I, _____ the _____ undersigned,
 (name)..... in
 submitting the accompanying bid, do hereby make the following
 statements that I certify to be true and complete in every respect:

- 3.1 I have read and I understand the contents of this disclosure;
- 3.2 I understand that the accompanying bid will be disqualified if this disclosure is found not to be true and complete in every respect;
- 3.3 The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint

- venture or consortium² will not be construed as collusive bidding.
- 3.4 In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications, prices, including methods, factors or formulas used to calculate prices, market allocation, the intention or decision to submit or not to submit the bid, bidding with the intention not to win the bid and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 3.4 The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
- 3.5 There have been no consultations, communications, agreements or arrangements made by the bidder with any official of the procuring institution in relation to this procurement process prior to and during the bidding process except to provide clarification on the bid submitted where so required by the institution; and the bidder was not involved in the drafting of the specifications or terms of reference for this bid.
- 3.6 I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

I CERTIFY THAT THE INFORMATION FURNISHED IN PARAGRAPHS 1, 2 and 3 ABOVE IS CORRECT.

I ACCEPT THAT THE STATE MAY REJECT THE BID OR ACT AGAINST ME IN TERMS OF PARAGRAPH 6 OF PFMA SCM INSTRUCTION 03 OF 2021/22 ON PREVENTING AND COMBATING ABUSE IN THE SUPPLY CHAIN MANAGEMENT SYSTEM SHOULD THIS DECLARATION PROVE TO BE FALSE.
