1. INTRODUCTION

Kriel Power Station coal laboratory is SANAS 17025 accredited. As per the ISO 17025 the accredited facility is required to conduct analysis with SANAS accredited calibrated and serviced equipments to ensure accuracy of results reported by the facility.

2. SUPPORTING CLAUSES

2.1 SCOPE

This document provides the technical evaluation strategy that will be used to evaluate tenders for the Service, Calibration, Repairs and supply of instrument and spare parts for Laboratory equipment and consumables at Kriel Power Station for a period of 5 years, on as and when required basis.

Purpose

The purpose of this tender technical evaluation strategy (TES) is to define the Mandatory Evaluation Criteria, Qualitative Evaluation Criteria and Technical Evaluation Team (TET) member responsibilities for tender evaluation. The technical evaluation strategy serves as basis for the tender technical evaluation process and will thus ensure that the selected tenderer meets the minimum technical requirements.

2.1.1 Applicability
