

1. TENDER TECHNICAL EVALUATION FOR SUPPLY AND DELIVERY OF FLUKE MULTIMETER 177.

1.1 TECHNICAL EVALUATION THRESHOLD

Mandatory Technical Evaluation Criteria (gatekeepers) are 'must meet' criteria. These criteria shall not be weighted or point scored, but shall be assessed on a Yes/No basis as to whether or not the criteria are met.

Qualitative Technical Evaluation Criteria are weighted evaluation criteria used to identify the highest technically ranked tenderer after determining that all the Mandatory Evaluation Criteria have been met. The Qualitative Evaluation Criteria are weighted to reflect the relevant importance of each criterion.

The minimum weighted final score (threshold) required for a tender to be considered from a technical perspective is 80%. The following scoring method will be used:

Table 1: Technical Scoring Methodology

SCORE	PERCENTAGE (%)	DESCRIPTION
5	100%	Meets Employer's Requirements: no errors, risks, weaknesses or omissions.
4	80%	Meets Employer's Requirements: Some qualifications required from tenderer to eliminate the errors, risks, weaknesses and omissions.
3	60%	Marginally does not meet Employer's Requirements: Some minor errors, weaknesses or omissions which can be corrected or overcome with negotiation and minor cost impact.
2	40%	Substantially does not meet Employer's Requirements: many errors, risks, weaknesses which may be difficult to be corrected or overcome and make acceptance.
1	20%	No achievement of Employer's Requirements: existence of numerous errors, risks, weaknesses or omissions which cannot be corrected.
0	0%	Totally deficient / non-responsive
