This addendum refers to the duration of the RFQ. The original RFQ stated that the duration is 12 months with the option to renew for another 12 months. After discussions internally, it was deemed necessary to amend it to 3 years.

Current project purpose:

Perishable Products Export Control Board seeks to appoint a panel of five (5) service providers for workplace investigations and support services, as and when requested. PPECB reserves the right to appoint fewer on the panel. The appointed panel of bidders will enter into a 12-month agreement with an option to renew for further 12 months.

When the contract reaches the limit threshold value for RFQ's, which is R 1 million, the contract will be cancelled even before it reaches its 1-year contracted period and renewal period.

New project purpose:

Perishable Products Export Control Board seeks to appoint a panel of five (5) service providers for workplace investigations and support services, as and when requested. PPECB reserves the right to appoint fewer on the panel. The appointed panel of bidders will enter into **a 3-year agreement** with an option to renew for further 1 year.

When the contract reaches the limit threshold value for RFQ's, which is R 1 million, the contract will be cancelled even before it reaches **its 3-year contracted** period and renewal period.

The changes stated in the addendum will be the new project purpose. They override the current in the document. The 3-year duration is subject to the expenditure being within the R1 million threshold. When the expenditure reaches R 1 million, as per legislation, the contract will have to be cancelled and a new process started.
