**DEPARTMENT OF
TRANSPORT AND COMMUNITY SAFETY**

**SPECIFICATION FOR THE SUPPLY AND DELIVERY OF CARTRIDGES/TONERS FOR THE
DEPARTMENTAL WAREHOUSES.**

1. INTRODUCTION

The Department seeks to establish a contractual arrangement with a capable bidder who can consistently meet demand, adhere to delivery timelines, and maintain high standards of product quality and customer service throughout the contract period.

The Department requires a reliable and efficient supply of printer cartridges/ toners to support its daily operational and administrative functions. Printing consumables form a critical component in ensuring uninterrupted service delivery across all sections and departmental locations.

This specification outlines the requirements for the appointment of a qualified bidder for the supply, delivery, and offloading of cartridges/toners to designated departmental warehouses. The objective is to ensure the procurement of high-quality, cost-effective, and environmentally responsible products that are compatible with the Department's printing equipment.

2. BACKGROUND

The Department operates a wide range of printing and copying equipment across its offices and facilities to support administrative, operational, and service delivery functions. These operations require a consistent and reliable supply of printer cartridges/ toners to ensure continuity and efficiency in daily activities.

Historically, the procurement of cartridges/ toners has been managed through ad hoc purchasing and multiple suppliers, which has occasionally resulted in delays, inconsistent product quality, and increased operational costs. In addition, the lack of standardised supply arrangements has made it challenging to effectively manage inventory levels and respond promptly to urgent requirements.

To address these challenges, the Department intends to establish a structured and centralized procurement process through the appointment of a qualified bidder. This approach aims to improve supply chain efficiency, ensure the availability of quality products, achieve better value for money, and enhance overall service delivery. Furthermore, the Department seeks to align its procurement practices with applicable regulatory frameworks and promote environmentally sustainable solutions, including responsible disposal and recycling of used cartridges and toners. The bidders will be expected to supply the goods with effect from the 1st of February 2027.
