SECTION 2

BACKGROUND OVERVIEW AND SCOPE REQUIREMENTS

1. INTRODUCTION AND BACKGROUND

The Housing Development Agency (HDA) is a national public development agency that promotes sustainable communities by making well-located and properly planned land available for the development of sustainable human settlements. As its primary activity, the HDA assembles state, private and communal land and releases it for development. In addition, the HDA provides project delivery support to state organs at the Local, Provincial and National levels. The organisation focuses on upgrading Informal settlements and providing project management services.

The Driftsands Nature Reserve has been subject to systematic land invasion for many years, but since July 2020 the reserve experienced a mass in-migration of people, vehicles and materials into the general area that resulted in more than 8 000 informal structures counted on the Nature Reserve by September 2020. These informal structures continue to grow and impact the dam wall area. It is imperative that the people residing in the dam wall area are relocated, given flooding risk along the dam wall.

An Inter-Governmental Working Group has been established consisting of various relevant Provincial Sector Departments (DEA&DP and DoI), the City of Cape Town and Cape Nature. This working group is being chaired by the Provincial Department of Environmental Affairs and Development Planning (DEA&DP). The involvement of the Department of Infrastructure (DoI), and its Human Settlements Branch in addressing the situation on Driftsands Reserve revolves around the following possible actions:

- Assist the landowner (DPW), land user (CapeNature) and local authority (City of Cape Town) in protecting the site from further illegal occupation;
- Assist with the relocation of inhabitants situated in dangerous locations on-site;
- Provision of interim basic services as needed on-site;
- High-level scoping of the site to determine potential relocation areas on-site and future human settlement potential of the site;
- Assist the local authority to unblock existing human settlement development projects on the site;
- Assist in developing a relocation strategy for the current inhabitants with the landowner, land user and Local Authority; and
- Or potentially undertake a human settlement development project on-site.

The HDA has entered into an agreement with the Provincial Government of the Western Cape via its previous Department of Human Settlements in 2010, now the Department of Infrastructure (DoI), Human Settlement Branch. Since this agreement, an addendum has since been concluded in March 2023 which includes for the management of the relocation of occupants, stakeholder management and community facilitation related to the Driftsands Emergency Relocation Assistance Project. As part of the Driftsands Emergency Relocation Assistance Project, the HDA is required to also proceed with a land use departure application process, which is required to formalize the existing settlement at Driftsands, to formalize the relocation process and to obtain the necessary land use rights to formalize the relocation.

In consultation with the City of Cape Town Metropolitan Municipality, it was recommended that an application for land use departure is submitted to the municipality for approval, for the land use rights required to formalize the relocation process. The HDA submitted a motivation to the DoI for funding to be approved for the undertaking of the land use departure process, that will formalize the relocation of the 400 households to the site identified in Driftsands as Phase 1 of the relocation. DoI has approved the request and the funding is now available for the procurement of a service provider to undertake the land use departure application process. The approved funding also includes the formalization for the further relocation of 600 (Phase 2) and 1 000 (Phase 3) households that are located along the dam wall - therefore the procurement of a service provider is to undertake the land use departure application process for Phases 1, 2 & 3 of the Driftsands relocation programme.

The HDA requires the services of a suitable and qualified service provider who will undertake the town planning process of Phase 1, 2 & 3 of the Driftsands Emergency Relocation Assistance Project. This will entail project concept planning, detailed planning, and specialist studies with requisite stakeholder engagements and public participation, preparation and administration of the town planning application resulting in Municipal Planning Tribunal Approval of a land use departure application.

2. OBJECTIVE

Procurement of a suitable and qualified service provider to undertake a temporary land use departure process for Phase 1, 2 & 3 of the Driftsands Emergency Relocation Assistance Project. This land use departure process is to result in the submission of a temporary land use departure application to the City of Cape Town Metropolitan Municipality, as well as an approval of the application to regularize the existing human settlement within the Driftsands Nature Reserve.

The HDA requires a qualified and suitable service provider to undertake a land use departure town planning application process, as per the City of Cape Town's By-Law requirements to ensure the successful formalization of the Phase 1, 2 & 3 Driftsands relocation programme.

To formalize the relocation of 2 000 households into temporary units as well as sites reserved to support social facilities and amenities, a land use departure application must be undertaken to formalize the existing settlement and to secure the required land use rights for the relocation process being undertaken. The proposed land use rights are to also enable the permanent use of the units in future.

The scope of work for the appointment consists of the following outputs:

- **Environmental Authorization / ROD**
- **MPT Approval (Approval Letter, Layout, CoE)**
- **Approved General Plan.**

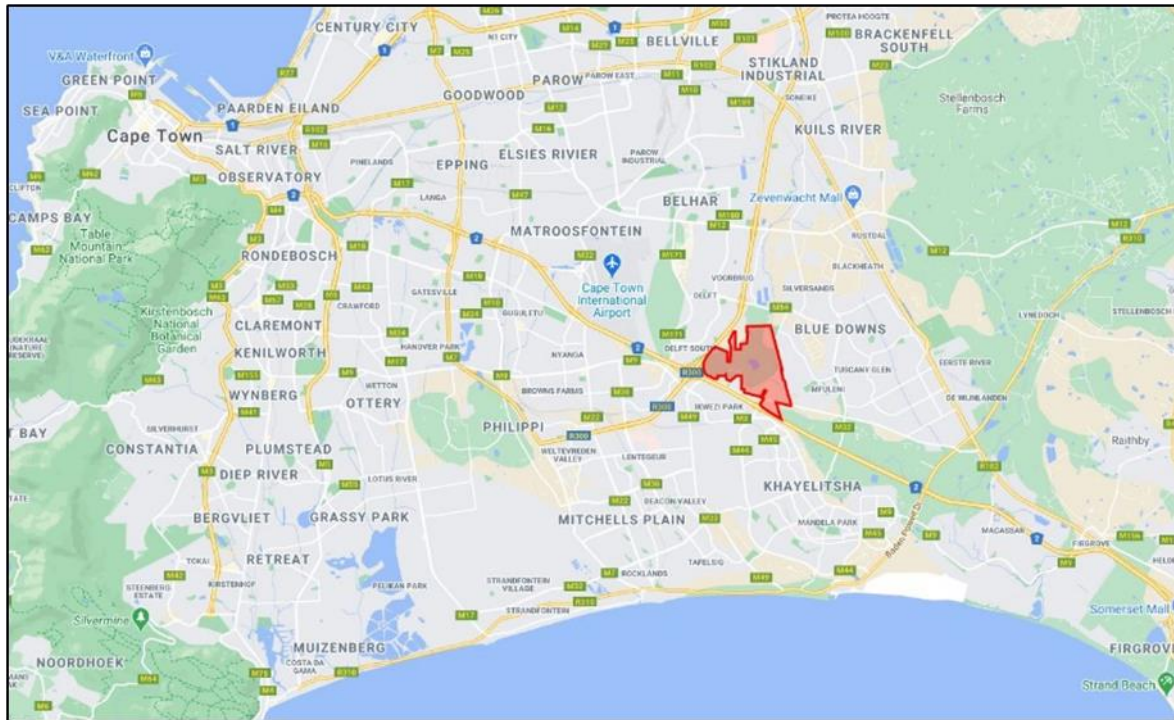

The project will take place on:

Remainder of Portion 1 of the Farm Driftsands No. 544, measuring 506,03 hectares in extent, Driftsands within the City of Cape Municipality.

Prepare contract documents	17	Revise the contract documents issued by the HDA as part of the <i>tender documents</i> to take account of • Addenda issued during the tender period, • inclusion of some of the <i>tender returnables</i>, and • other revisions agreed between THE HDA and the successful <i>tenderer</i>, before the issue of THE HDA's notice of acceptance (of the tender).
Issue final contract	18	Issue the final contract documents to the successful <i>tenderer</i> for acceptance within one week of the date of the HDA's notice of acceptance.
Sign Form of Agreement	19	Arrange for authorised signatories of both parties to complete and sign the original Form of Agreement within two weeks of the date of the HDA's notice of acceptance of the tender. A layout plan has been developed for Phase 1 of the relocation process, whereby 400 households will be relocated in this phase of the process. A geotechnical investigation, topographical survey and an environmental screening study were completed as part of the Phase 1 process. These studies are to be assessed for applicability.

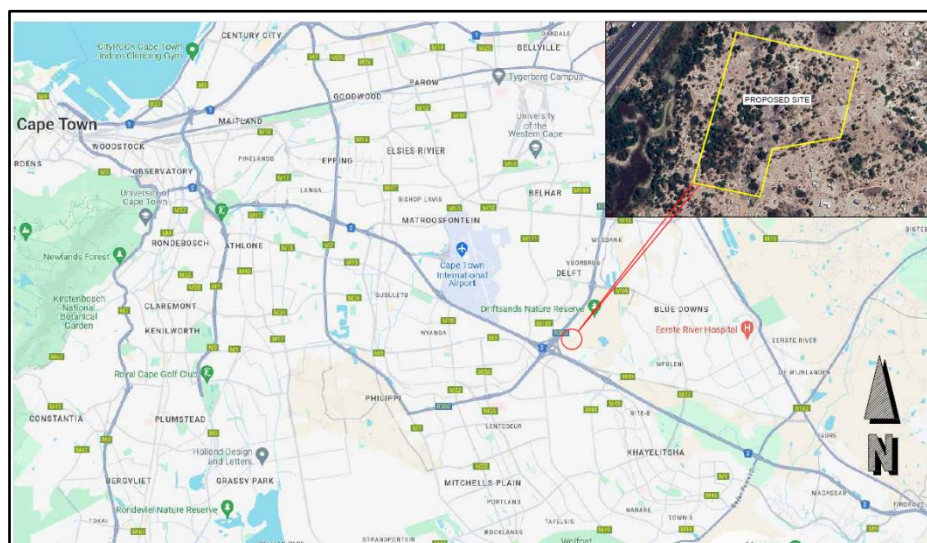

Figure 1: Locality of Phase 1

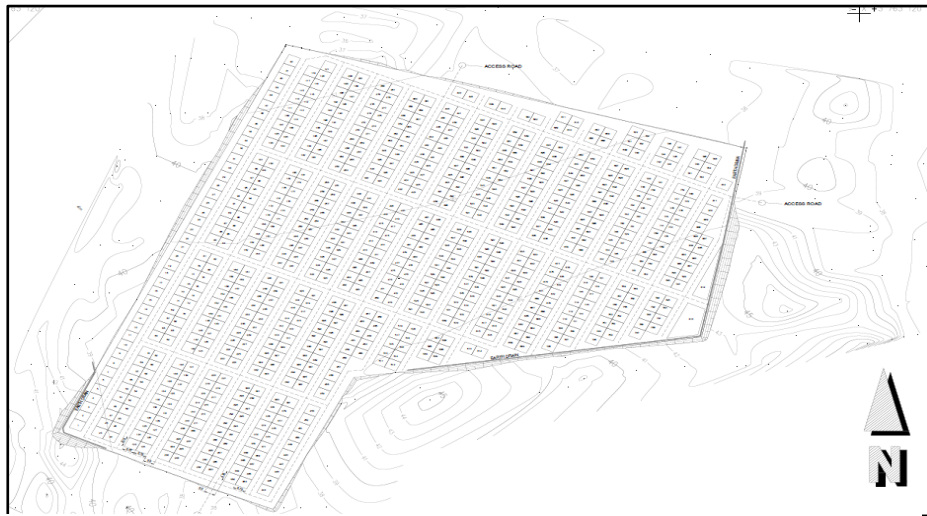

Figure 2: Phase 1 layout plan

A layout plan is to be developed for Phase 2 (for the relocation of 600 households) and Phase 3 (for the relocation of 1 000 households), taking into consideration the location that is currently being used for Phase 1 (as per diagram below). Site A is to be accessed to determine the most suitable area for Phase 2 and Phase 3 relocations. The layout plan developed for Phase 1 is to be taken into consideration to develop a layout plan for Phase 2 and Phase 3, for ease of basic service provision.

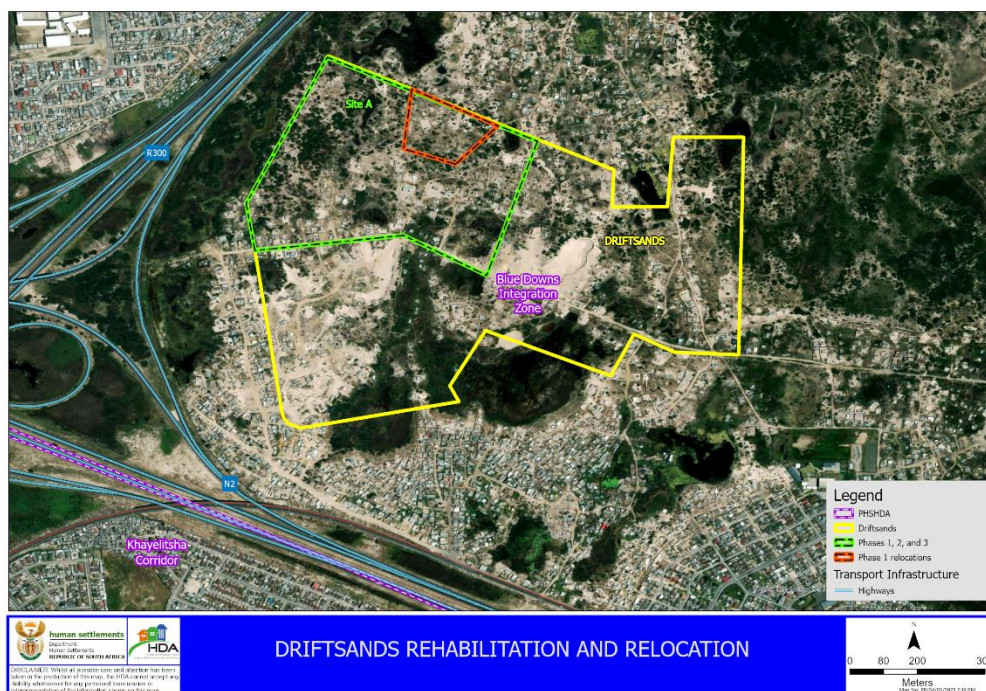

Figure 4: Driftsands site

The layout plan for Phase 2 and Phase 3 must:

- Indicate the positioning of 5-metre single roads and an 8-metre wide main road; that will allow for basic services to be installed, as well as access for emergency vehicles;
- Indicate erven measuring 40m² in extent;
- Indicate the positioning of a structure measuring 4 metre x 4 metre in extent on each erf;
- Indicate supporting social facilities and amenities;
- Indicate the capacity for stand pipes at a ratio of 1:25 and the capacity for toilets at a ratio of 1:5;
