4 INDEPENDENT TENDERING

- 4.1 For the purposes of that Certificate in relation to any submitted Tender, the Tenderer declares to fully understand that the word "competitor" shall include any individual or organisation, other than the Tenderer, whether or not affiliated with the Tenderer, who:
- a) has been requested to submit a Tender in response to this Tender invitation;
 - b) could potentially submit a Tender in response to this Tender invitation, based on their qualifications, abilities or experience; and
 - c) provides the same Goods and Services as the Tenderer and/or is in the same line of business as the Tenderer.
- 4.2 The Tenderer has arrived at his submitted Tender independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium will not be construed as collusive tendering.
- 4.3 In particular, without limiting the generality of paragraph 5 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
- a) prices;
 - b) geographical area where Goods or Services will be rendered [market allocation];
 - c) methods, factors or formulas used to calculate prices;
 - d) the intention or decision to submit or not to submit, a Tender;
 - e) the submission of a Tender which does not meet the specifications and conditions of the RFP; or
 - f) tendering with the intention of not winning the Tender.

- 4.4 In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the Goods or Services to which his/her tender relates.
- 4.5 The terms of the Tender as submitted have not been, and will not be, disclosed by the Tenderer, directly or indirectly, to any competitor, prior to the date and time of the official Tender opening or of the awarding of the contract.
- 4.6 Tenderers are aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to Tenders and contracts, Tenders that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and/or may be reported to the National Prosecuting Authority [NPA] for criminal investigation and/or may be restricted from conducting business with the public sector for a period not exceeding 10 [ten] years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
- 4.7 Should the Tenderer find any terms or conditions stipulated in any of the relevant documents quoted in the Tender unacceptable, it should indicate which conditions are unacceptable and offer alternatives by written submission on its company letterhead, attached to its submitted Tender. Any such submission shall be subject to review by Transnet's Legal Counsel who shall determine whether the proposed alternative(s) are acceptable or otherwise, as the case may be.

5 DISQUALIFICATION FROM TENDERING PROCESS

- 5.1 If the Tenderer/Service Provider/Contractor has committed a transgression through a violation of section 3 of this Integrity Pact or in any other form such as to put its reliability or credibility as a Tenderer/Service Provider/Contractor into question, Transnet may reject the Tenderer's / Service Provider's / Contractor's application from the registration or tendering process and remove the Tenderer/Service Provider/Contractor from its database, if already registered.
- 5.2 If the Tenderer/Service Provider/Contractor has committed a transgression through a violation of section 3, or any material violation, such as to put its reliability or credibility into question. Transnet may after following due procedures and at its own discretion also exclude the Tenderer/Service Provider /Contractor from future tendering processes. The imposition and duration of the exclusion will be determined by the severity of the transgression. The severity

will be determined by the circumstances of the case, which will include amongst others the number of transgressions, the position of the transgressors within the company hierarchy of the Tenderer/Service Provider/Contractor and the amount of the damage. The exclusion will be imposed for up to a maximum of 10 (ten) years. However, Transnet reserves the right to impose a longer period of exclusion, depending on the gravity of the misconduct.

- 5.3 If the Tenderer/Service Provider/Contractor can prove that it has restored the damage caused by it and has installed a suitable corruption prevention system, or taken other remedial measures as the circumstances of the case may require, Transnet may at its own discretion revoke the exclusion or suspend the imposed penalty.

6 TRANSNET'S LIST OF EXCLUDED TENDERERS (BLACKLIST)

- 6.1 The process of restriction is used to exclude a company/person from conducting future business with Transnet and other organs of state for a specified period. No Tender shall be awarded to a Tenderer whose name (or any of its members, directors, partners or trustees) appear on the Register of Tender Defaulters kept by National Treasury, or who have been placed on National Treasury's List of Restricted Suppliers. Transnet reserves the right to withdraw an award, or cancel a contract concluded with a Tenderer should it be established, at any time, that a tenderer has been restricted with National Treasury by another government institution.
- 6.2 All the stipulations on Transnet's restriction process as laid down in Transnet's Supply Chain Policy and Procurement Procedures Manual (CPM included) are included herein by way of reference. Below follows a condensed summary of this restriction procedure.
- 6.3 On completion of the restriction procedure, Transnet will submit the restricted entity's details (including the identity number of the individuals and registration number of the entity) to National Treasury for placement on National Treasury's Database of Restricted Suppliers for the specified period of exclusion. National Treasury will make the final decision on whether to restrict an entity from doing business with any organ of state for a period not exceeding 10 years and place the entity concerned on the Database of Restricted Suppliers published on its official website.
- 6.4 The decision to restrict is based on one of the grounds for restriction. The standard of proof to commence the restriction process is whether a "*prima facie*" (i.e. on the face of it) case has been established.

- 6.5 Depending on the seriousness of the misconduct and the strategic importance of the Goods/Services, in addition to restricting a company/person from future business, Transnet may decide to terminate some or all existing contracts with the company/person as well.
- 6.6 A Service Provider or Contractor to Transnet may not subcontract any portion of the contract to a blacklisted company.
- 6.7 Grounds for blacklisting include: If any person/Enterprise which has submitted a Tender, concluded a contract, or, in the capacity of agent or subcontractor, has been associated with such Tender or contract:
- a) Has, in bad faith, withdrawn such Tender after the advertised closing date and time for the receipt of Tenders;

 - g) caused Transnet damage, or to incur costs in order to meet the contractor's requirements and which could not be recovered from the contractor;
 - h) has litigated against Transnet in bad faith.

- 6.8 Grounds for blacklisting include a company/person recorded as being a company or person prohibited from doing business with the public sector on National Treasury's database of Restricted Service Providers or Register of Tender Defaulters.
- 6.9 Companies associated with the person/s guilty of misconduct (i.e. entities owned, controlled or managed by such persons), any companies subsequently formed by the person(s) guilty of the misconduct and/or an existing company where such person(s) acquires a controlling stake may be considered for blacklisting. The decision to extend the blacklist to associated companies will be at the sole discretion of Transnet.

7 PREVIOUS TRANSGRESSIONS

- 7.1 The Tenderer/Service Provider/Contractor hereby declares that no previous transgressions resulting in a serious breach of any law, including but not limited to, corruption, fraud, theft, extortion and contraventions of the Competition Act 89 of 1998, which occurred in the last 5 (five) years with any other public sector undertaking, government department or private sector company that could justify its exclusion from its registration on the Tenderer's/Service Provider's/Contractor's database or any tendering process.
- 7.2 If it is found to be that the Tenderer/Service Provider/Contractor made an incorrect statement on this subject, the Tenderer/Service Provider/Contractor can be rejected from the registration process or removed from the Tenderer/Service Provider/Contractor database, if already registered, for such reason (refer to the Breach of Law Returnable Form contained in the document.)

8 SANCTIONS FOR VIOLATIONS

- 8.1 Transnet shall also take all or any one of the following actions, wherever required to:

 - b) Immediately cancel the contract, if already awarded or signed, without giving any compensation to the Tenderer/Service Provider/Contractor;
 - c) Recover all sums already paid by Transnet;
 - d) Encash the advance bank guarantee and performance bond or warranty bond, if furnished by the Tenderer/Service Provider/Contractor, in order to recover the payments, already made by Transnet, along with interest;

- e) Cancel all or any other contracts with the Tenderer/Service Provider/Contractor; and
- f) Exclude the Tenderer/ Service Provider/Contractor from entering into any Tender with Transnet in future.

9 CONFLICTS OF INTEREST

- 9.1 A conflict of interest includes, inter alia, a situation in which:
- a) A Transnet employee has a personal financial interest in a tendering / supplying entity; and
 - b) A Transnet employee has private interests or personal considerations or has an affiliation or a relationship which affects, or may affect, or may be perceived to affect his / her judgment in action in the best interest of Transnet, or could affect the employee's motivations for acting in a particular manner, or which could result in, or be perceived as favouritism or nepotism.
- 9.2 A Transnet employee uses his / her position, or privileges or information obtained while acting in the capacity as an employee for:
- a) Private gain or advancement; or
 - b) The expectation of private gain, or advancement, or any other advantage accruing to the employee must be declared in a prescribed form.
- Thus, conflicts of interest of any Tender committee member or any person involved in the sourcing process must be declared in a prescribed form.
- 9.3 If a Tenderer/Service Provider/Contractor has or becomes aware of a conflict of interest i.e. a family, business and / or social relationship between its owner(s)/ member(s)/director(s)/partner(s)/shareholder(s) and a Transnet employee/ member of Transnet's Board of Directors in respect of a Tender which will be considered for the Tender process, the Tenderer/Service Provider/ Contractor:
- a) must disclose the interest and its general nature, in the Request for Proposal ("RFX") declaration form; or
 - b) must notify Transnet immediately in writing once the circumstances has arisen.
- 9.4 The Tenderer/Service Provider/Contractor shall not lend to or borrow any money from or enter into any monetary dealings or transactions, directly or indirectly, with any committee member or any person involved in the sourcing process, where this is done, Transnet shall be entitled forthwith to rescind the contract and all other contracts with the Tenderer/Service Provider/Contractor.

10 DISPUTE RESOLUTION

- 10.1 Transnet recognises that trust and good faith are pivotal to its relationship with its Tenderer / Service Provider / Contractor. When a dispute arises between

Transnet and its Tenderer / Service Provider / Contractor, the parties should use their best endeavours to resolve the dispute in an amicable manner, whenever possible. Litigation in bad faith negates the principles of trust and good faith on which commercial relationships are based. Accordingly, following a blacklisting process as mentioned in paragraph 6 above, Transnet will not do business with a company that litigates against it in bad faith or is involved in any action that reflects bad faith on its part. Litigation in bad faith includes, but is not limited to the following instances:

- b) **Perjury:** where a Tenderer / Service Provider / Contractor make a false statement either in giving evidence or on an affidavit;

- d) **Abuse of court process:** when a Tenderer / Service Provider / Contractor abuses the court process in order to gain a competitive advantage during a Tender process.

11 GENERAL

- 11.1 This Integrity Pact is governed by and interpreted in accordance with the laws of the Republic of South Africa.
- 11.2 The actions stipulated in this Integrity Pact are without prejudice to any other legal action that may follow in accordance with the provisions of the law relating to any civil or criminal proceedings.
- 11.3 The validity of this Integrity Pact shall cover all the tendering processes and will be valid for an indefinite period unless cancelled by either Party.
- 11.4 Should one or several provisions of this Integrity Pact turn out to be invalid the remainder of this Integrity Pact remains valid.

1. INTRODUCTION

Transnet Pipelines (TPL), a division of Transnet SOC Ltd, provides strategic pipeline infrastructure, with associated world class pipeline logistics, for the petroleum and gas industries of South Africa. This is done in partnership with our customers and stakeholders thereby assuring the African sustainable development imperative. Established in 1965, TPL owns, maintains and operates a network of 3 114 km of high-pressure petroleum and gas pipelines. TPL transports an average of 15 billion litres of fuel per annum amid Covid-19. This includes diesel, unleaded petrol, aviation turbine fuel and crude oil.

The pipeline network and the liquid fuels network depots traverses five provinces, KwaZulu-Natal, Free State, Gauteng, North West and Mpumalanga with only three available intakes stations at Durban, Sasolburg and Secunda. The pipeline is laid within the servitudes which traverse through many properties (private, state owned, local authorities) and the pump stations and delivery depots located in rural, industrial and suburban areas along the pipeline routes.

The pipelines range from 6" (150mm) to 24" (600mm) in diameter. All the pipelines have been constructed in accordance with the American Code ASME B31.4. Pressure in the pipeline network is monitored 24 hours a day, 365 days a year in the control centre in TPLs' National Operating Centre (NOC).

TPL offers fully integrated supply chain solutions from source to destination with no independent injection point into the pipeline network and one active independent distribution point at Tarlton, strategically positioned to facilitate regional integration from mainly pipeline to road and rail. To this effect, TPL currently transports:

- More than 80% of all refined products required for the inland market (4 provinces);
- More than 70% of all jet fuel required at OR Tambo International Airport;
- 100% of crude requirements for the NATREF Refinery;
- 100% of pipeline methane-rich gas requirements to KwaZulu-Natal from Secunda; and
- 100% of Tarlton Distribution Terminal volumes of which 60% are distributed over-border.

2. BACKGROUND

Kroonstad (KRO) depot was previously a part of the Durban Johannesburg Pipeline (DJP) system, receiving fuel from Durban via Ladysmith depot. As a result, the DJP was discontinued in March

TRANSNET PIPELINES	ASSET ALTERNATIVE-USE		R&D AND CI
	Page 3 of 8	Rev 0	

2018, and KRO depot continued to receive product from Durban via a 24-inch route, which is significantly longer than the DJP route. The 24-inch route from Durban connects an 18-inch at Jameson Park (JMP) to Sasolburg (SBG), which then reconnects to the 12-inch DJP to KRO. However, TPL completed a fit for purpose (FFP) study on the DJP in 2003 that also took into account the 12-inch between SBG and KRO.

According to the study, pre-1970 Electric Resistance Welded (ERW) steel pipe was used to build the DJP, which is inherently prone to manufacturing flaws brought on by a brittle weld microstructure and causes in-service issues like preferential corrosion and fatigue cracking. The study came to the conclusion that, as of 2003, seven of the eleven pipeline's sections had exceeded their predicted fatigue life. However, the DJP section between SBG and KRO was granted an exception to continue operating until November 2023.

It was predicted that by the time the 12-inch pipeline between SBG and KRO reached its end date (November 2023), TPL would have already built a replacement pipeline (PL5). However, PL5 was terminated in 2021 due to a lack of market volume to support the project's financial viability. According to the AECOM study, PL5 required a minimum of 900 million litres to be financially viable. The 12-inch pipeline between SBG and KRO, feederlines, and the KRO depot—including all of its infrastructure described in section 3 of this report—will therefore be obsolete as of the end of November 2023. As a result, TPL must look for an alternative use for these assets.

3. INFRASTRUCTURE

Since the inception of the DJP, the KRO depot has served as a delivery depot, receiving petrol and diesel and separating the intermixture into accumulator tanks (see Table 1). These tanks have been in operation since then to-date interconnected with other infrastructure (Mechanical, MC&I, Civil and Electrical). These infrastructure were built, operated, and maintained to ensure safe working conditions and the achievement of business objectives.

Table 1: Intermixture tanks

Tanks	Maximum Capacity (L)	Working Capacity (L)
1 - Heavy Intermixture	822 872	769 277
2 - Light Intermixture	822 599	769 277
3 - Light Intermixture	834 016	788 047
4 - Heavy Intermixture	834 016	788 047
TOTAL	3 313 503	3 114 648

The list of assets per discipline is provided below, and these will be considered for the alternative use study. The Magdala depot is not part of this scope, it forms part of the decommissioning scope.

4. SCOPE DESCRIPTION

The study's objective is to identify multiple potential alternatives for re-purposing the Kroonstad depot, feeder-lines, and the 12-inch pipeline connecting the Sasolburg and Kroonstad depots, research and analyse the options, and eventually recommend the most financially viable option. The approach should include but not limited to the following:

- Compile a study work plan with resource-loaded schedule that is aligned with the work plan,
- Compile a needs list of applicable data and information needed from TPL for the study,
- Determine potential repurposing options for the Kroonstad depot and feederlines,

-
- Determine potential repurposing options for the 122.5 km of 12-inch pipeline that connects Sasolburg and Kroonstad depots,
 - Request, receive, evaluate and analyse data and information,
 - Conduct customer engagement,
 - Conduct a knowledge gap analysis between the existing information and desired information,
 - Research desired information based on understanding the Transnet requirements / plans / strategy,
 - List the depot's option solutions, and for each solution, list the following in rough order of magnitude:
 - Option scope,
 - Option time to execute,
 - Option cost,
 - Option financial viability,
 - Option commercial viability,
 - Option constraints and barriers, and
 - Option compliance.
 - Present to the owners team the list of options solutions generated,
 - Compile a draft report to detail the extent of the study that would suffice as input to a TPL EXCO presentation.
 - Compile a final report to detail the extent of the study that would firm up a business case(s) for the project.

5. STUDY DELIVERABLES AND FORMATS

The high-level study deliverables are summarized as follows:

- Delivery of the technical options that will enable maximum utilisation of the Kroonstad assets and the 12-inch pipeline at the least cost;
- Design a high level potential commercial contracting structure;
- A high-level financial model to aid in the evaluation of each of the commercial structures proposed, with the model taking into account the regulatory environment of the best proposed solution;
- Possible development scenarios;
- Stakeholder management plan – develop, manage and execute;
- Communications plan – develop, manage and execute; and
