## **2. INTRODUCTION**

2.1. Social Relief of Distress (SRD) is a programme intended for meeting the basic needs of indigent persons by means of rendering temporary and immediate material assistance in response to a crisis situation.

2.2. The Disaster Management Act 2002 (Act No. 57 of 2002) defines a disaster as a progressive or sudden, widespread or localized, natural or human-caused occurrence which – causes or threatens to cause- (i) death, injury or disease; (ii) damage to property, infrastructure or the environment; and / or iii) disruption of the life of a community; and is of a magnitude that exceeds the ability of those affected by the disaster to cope with its effects using only their own resources.

2.3. Disasters occur when an unforeseen event impacts on vulnerable structures, areas, services, households or a community to the extent that available resources cannot cope with the problem effectively. An incident as guided by SRD policy refers to disastrous events, where the area is not declared a disaster area.

- 2.4. The community and/or the individual require support and assistance to cope with the after-effects of disasters and/or incidents. The importance of a rapid and effective response in the event of a disaster or incident cannot be underestimated.
- 2.5. The responsibility of SASSA is to assist in the provision of immediate access to basic necessities for those severely affected by disasters and/or incidents, in consultation with other role players involved in the response effort.
- 2.6. A disaster or incident may affect only one family or person (for example a single house burns down) or an entire community (floods, fire, wind, tornados, etc.).
- 2.7. The response for an individual affected by a disaster will differ from a response to a community affected by a disaster. Child headed households, female headed households, people with special needs and the elderly are particularly vulnerable during such times.
