Dear Mr Van Rooyen,

**RE: AMENDMENT TO THE COASTAL WATERS DISCHARGE PERMIT FOR TRANSNET PORT TERMINALS (PTY) LTD PLANT IN TERMS OF SECTION 69 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: INTEGRATED COASTAL MANAGEMENT ACT, 2008 (ACT NO. 24 OF 2008) ("THE ICM ACT") 2016/007/KZN/-TRANSNET PORT TERMINAL.**

### **ADDENDUM TO COASTAL WASTERS DISCHARGE PERMIT**

On receipt and assessment of your amendment application, dated 08 October 2019, the Department hereby grants the amendment of the Coastal Waters Discharge Permit issued on 07 March 2018, as set out below:

#### **Amendment 1: Section 8 - Permit Validity**

8.1 The permit is valid for a period of 5 (five) years from the date of issue, subject to a compliance review at 30 (thirty) months or as deemed necessary by the Department during the validity period of this permit.

#### **Is amended as:**

8.1 The permit is valid for a period of 10 (ten) years from the date of issue, subject to a compliance review at 30 (thirty) months or as deemed necessary by the Department during the validity period of this permit.

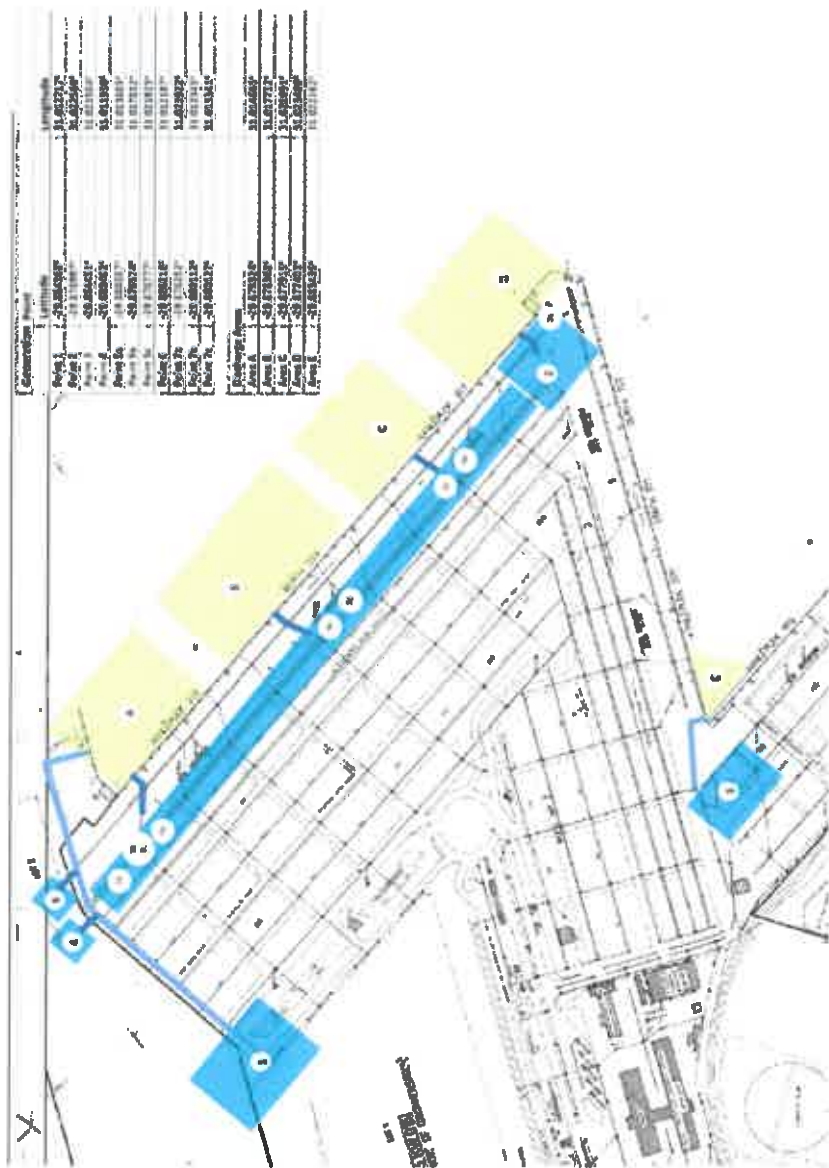

## **Amendment 2: Section 5 - Contingency Plans**

5.1 The permit holder must submit a contingency plan to the Department for approval, 6 (six) months after the commencement of the operation.

**Is amended as:**

5.1 The permit holder must submit a contingency plan to the Department for approval within 6 (six) months from the commencement of operation.

**AMENDMENT 3: Figure 1 - Aerial view of the proposed extension of Berths 203, 204 and 205 where the blue shaded areas represent the areas to be dewatered and the green shaded areas (A,B,C,D and E) represent the discharge areas**

**Is amended as:**

**Figure 1 - Aerial view of the proposed extension of Berths 203, 204 and 205 where the yellow areas represent the areas to be dewatered and the green shaded areas (A,B,C,D and E) represent the discharge areas**

In reaching this decision the Department took, *inter alia*, the following into consideration:

1. The information contained in the application for the amendment, dated 08 October 2019.
2. The environment and the rights and interests of interested and affected parties are not likely to be adversely affected by this decision.
3. All other conditions contained in the Coastal Waters Discharge Permit issued on 07 March 2018 still remain unchanged and enforceable.
