

Multi-element Standard for ICP-OES

Custom solution in water

We are looking for a multi standard for the elements and concentrations stated below for our ICP OES method.

Aluminium= 20ppm

Boron= 10 ppm

Calcium= 1000ppm

Copper= 20ppm

Iron= 50ppm

Potassium= 200ppm

Magnesium=500ppm

Manganese= 20ppm

Sodium=500ppm

Zinc=20ppm

In 2* 250 ml bottle (One bottle must have at least **2026** expiry date)

COA must be provided – must be NIST traceable.

Manufacturer must meet the ISO 17034 requirements.

Repackaging will not be allowed.
