TERMS OF REFERENCE FOR ESTABLISHING A DBSA INFRASTRUCTURE RESEARCH CHAIR AT A SOUTH AFRICAN UNIVERSITY

1. Introduction

These terms of reference (ToRs) are for procuring the services of a tertiary institution to provide services on a partly planned and partly responsive basis through an Infrastructure Research Chair platform.

2. Background

The role of DFIs like the DBSA is very central to the growth and development of the country especially in relation to the development, operation, and maintenance of infrastructure. One central characteristic of DFIs is their ability to play a countercyclical role and to have the agility to be developmental on the one hand as well as responsive to crises. It is very important for the Bank to be able to balance sustainability as all DFIs should. Equally critical is the need to deepen the developmental impact of its work. It is these characteristics that enable DFIs to be relevant and have the appropriate impact in the respective sectors they are involved in.

It is also important for there to be a discernible link between the Bank's projects and contribution to the sustainable development principles embodied in the various national and transnational strategic documents like the NDP and the SDGs as cases in point, including advancing regional as well as continental integration. It is for these reasons that the DBSA seeks to establish an Infrastructure Research Chair at a University and keep ahead of developments through research and conversation.

3. Objectives of the Research Chair

- a) To develop two (2) annually planned and short infrastructure research papers on topics determined by the DBSA across the infrastructure development value chain.

The infrastructure development value chain entails planning, preparing, financing, building, and maintaining infrastructure projects. That is why key economic, regulatory, political, financial, governance or social trends that affect the development of infrastructure in the mandated sectors may also receive research attention.

The tertiary institution will be expected to have extensive networks in the infrastructure environment as well as the necessary technical expertise to undertake the commissioned research assignments. It is imperative to note that the tertiary institution will be required to sign a non-disclosure agreement for the project information that will be supplied to it.

4.2 *Expertise required*

The assignment requires expertise in research, report writing as well as presentation skills on infrastructure, DFIs, the economies of South Africa, the SADC region and the continent.

Expertise required to successfully prepare the reports *inter alia* are:

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
 - 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
 - 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregards the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancels a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
1. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
 2. To give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
