

Clarification No. 1 (17.08.2026)**TENDER E3334GXMPKRI: DREDGING AND CLEANING OF ALL DAMS IN KRIEL POWER STATION FOR A PERIOD OF 5 YEAR.****Question 1**

Could you please confirm whether the Waste Disposal Licence is required to be held by the Contractor, or whether it is the responsibility of the landfill/waste disposal facility owner or operator receiving and disposing of the waste?

Response

- License will be of the landfilled
- Disposal Certificate will be of the contractor.

Question 2

Could you please clarify whether the **Disposal Certificate** is required as a pre-contract submission or as a post-contract/construction-stage deliverable?

Our understanding is that the Disposal Certificate is generated and submitted during construction, following the actual disposal of waste or surplus materials at an approved disposal facility. It would therefore not ordinarily be available prior to contract award or commencement of the works.

Kindly confirm the intended requirement and the stage at which this certificate must be submitted.

Response

To be clarified during the Clarification meeting on 18/08/2026 at 10am.

A reminder that the communication platform is the Eskom e-tender portal and of National Treasury and the responsibility of the tenderer to visit regularly for possible updates. Any revised documents after site meeting, clarification information and minutes will be uploaded as such. Information asper the latest communication will apply
