

1.1 TECHNICAL EVALUATION STRATEGY

The following technical evaluation strategy will be used in the evaluation of the tenders.

Table-1: Technical evaluation strategy for unit 1-10 vacuuming and HP cleaning

Requirement	Determinants	Points	Weight %
1. Company's experience in industrial vacuuming and high pressure cleaning.	Two task orders + two contactable references	20	20
	One task order + contactable reference	10	
	No experience	0	
2. Site manager's CV of demonstrating management skills. Experience must show industrial vacuuming and high pressure cleaning ability.	Experience greater 3 years	10	10
	Experience greater than 2 years but less than or equal to 3 years	6	
	Experience between greater than 1 year's experience but less than or equal to 2 years.	4	
	Experience less than or equal to 1 year's experience.	2	
3. Operators CVs (at least two) demonstrating industrial vacuuming and high pressure cleaning ability.	At least two CVs provided showing proof of relevant training + greater than 1 year's experience.	25	25
	Proof of relevant training + less than or equal to 1 year's experience	10	
	No proof of relevant training	0	
4. Provide detailed methodologies (for Vacuuming and for High Pressure Cleaning) and make reference to the relevant machinery/equipment.	Complete methodologies with reference to applicable equipment	25	25
	Methodologies copied verbatim from provided scope of work, or with minor changes	10	
	No methodology provided	0	
5. Project Management Abilities	Provide proof of the company's ability to use the tools listed below. This can be based on the above methodology or on previous work in an industrial setting.		20
	Programme (barchart)	4	
	Quality control documents (e.g. QIP, ITPs etc.)	4	
	Safety management	4	
	Project cashflow management	4	
	Manpower deployment	4	

Total

100

Note: A company will be deemed technically acceptable if it attains 75% on the technical criteria-
