

NEC3 Engineering and Construction Contract

**ENQUIRY NUMBER: E1206DXKZN
QUESTIONS & ANSWERS (2)**

An enquiry process in order to supplement the existing pre-approved panel of seven (07) contractors with an additional eight (8) contractors, for Electrical Works performed within the Sub Transmission portfolio, in the KwaZulu Natal (KZN), and Free State (FS) Operating Units (Central East Cluster), on an “as and when” required basis, for a period of thirty-six (36) months for construction and twelve months (12) for project completion.

**TENDER CLOSING DATE : Friday,
18 July 2025
AT 10H00**

QUESTIONS		ANSWERS
1	<p>On the experience requirements, we have done substation construction projects, but mostly extensions or feeder bays and most of them did not include substation buildings except of 1 project which included construction of new substation building. We have however done building construction projects outside of substations (offices, commercial buildings and residential dwellings) and have done minor renovations works on substations buildings. I therefore wanted to find out if these projects can be accepted as experience for the Substation Building Works or not?</p>	<p>Building construction projects (as stated in the email) will be accepted as experience of Substation Civil works experience.</p> <p>The main point is for the contractor to demonstrate that they can build, and experience of commercial and residential buildings is proof of that.</p>
