SPECIAL CONDITION OF CONTRACT FOR GT/GDH/035/2023 - THE SUPPLY, DELIVERY, INSTALLATION, COMMISSIONING AND MAINTENANCE OF GALLIUM FLUIDIC LABELLING MODULE FOR STEVE BIKO ACADEMIC HOSPITAL.

1. THE PURPOSE

The purpose of this tender is to appoint a service provider for the supply, delivery, installation, commissioning and maintenance of gallium fluidic labelling module for Steve Biko Academic hospital.

2. THE BACKGROUND

This request for a 68 Gallium fluidic labelling module is based on sound academic, radiation protection and economic principles and is supported by the Departments of Nuclear Medicine, Radiography and Physics. It will also indirectly benefit the referring departments (especially urology, surgery and oncology) who frequently refer patients for targeted radionuclide therapy. It is a major technological advancement in theranostics as it allows the technologist to label a variety of Ga-68-based tracers (which are used in theranostics approaches for oncology patients) without operator interference, leading to a consistent, high-quality product independent of operator skill and experience. Due to the faster labelling, there is less tracer loss and more patients can be imaged from a single labelling, making this a cost-effective way of labelling. Importantly, the radiation exposure to the hot lab staff is also significantly decreased. Procurement of this equipment will lead to long-term cost savings for the hospital and significantly improve the quality of patient care as well as reduce the radiation exposure to staff.

Use of an automated Ga-68 labelling system ensures a consistent and reliable GMP-compliant final product in a shorter time with fewer wastage. We could image more patients with a variety of cancers each day and assess their eligibility for targeted radionuclide therapies. Importantly this automated system also significantly reduces the amount of staff radiation exposure.

3. LEGISLATIVE AND REGULATORY FRAMEWORK

3.1 The General Conditions of Contract (GCC):

This bid and all contracts emanating from this tender will be subject to the General Conditions of Contract (GCC), as issued by National Treasury in accordance with Treasury Regulation 16A published in terms of the Public Finance Management Act, 1999 (Act 1 of 1999). The general conditions are available on the National Treasury website (www.treasury.gov.za).

3.2 The Special Conditions of Contract (SCC):

The Special Conditions of Contract are supplementary to that of the General Conditions of Contract. Where the Special Conditions of Contract conflict with the General Conditions of Contract, the Special Conditions of Contract shall prevail.
