Supplier question

Tender number : LPMED00138GX

Kindly note there is a discrepancy with the quantity for item 6.

The NEC 3 advises the quantity of 96 pieces however the pricing schedule advises the quantity is 28 pieces.

Please confirm what is the correct quantity.

Eskom answer

The correct quantity is on the NEC pricelist which is the formal tender document to respond to. In this case the correct quantity is 96 which is on the NEC. We have also updated and published the new price list spreadsheet (v2) to reflect the quantity of 96.
