 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

Note ~ Most of our highmast lights use High-Pressure Sodium (HPS) light fittings which are traditionally high-intensity discharge (HID) lamps widely used in high mast lighting with poles generally 15-40 meters tall, due to their high efficacy and long life. However, we are moving towards replacing them by LED technology due to better energy efficiency and lower maintenance requirements of LEDs; therefore, components to be procured must be suitable for use in both LED and HPS fittings.
