- 17.2 Bids delivered after the Closing Time or lodged at a location or in a manner that is contrary to that specified in this RFP will be disqualified from the Tendering Process and will be ineligible for consideration. However, a late Bid may be accepted where the Bidder can clearly demonstrate (to the satisfaction of the DBSA, in its sole discretion) that late lodgement of the Bid was caused by the DBSA; that access was denied or hindered in relation to the physical tender box; or that a major/critical incident hindered the delivery of the Bid and, in all cases, that the integrity of the Tendering Process will not be compromised by accepting a Bid after the Closing Time.
- 17.3 The determination of the DBSA as to the actual time that a Bid is lodged is final. Subject to clause 17.2, all Bids lodged after the Closing Time will be recorded by the DBSA and will only be opened for the purposes of identifying a business name and address of the Bidder. The DBSA will inform a Bidder whose Bid was lodged after the Closing Time of its ineligibility for consideration. The general operating practice is for the late Bid to be returned within 5 (five) working days of receipt or within 5 (five) working days after determination not to accept a late Bid.

It is not sufficient that the statement appears only as part of an attachment to the Bid or be included in a general statement of the Bidders usual operating conditions.
- 19.5 An incomplete Bid may be disqualified or assessed solely on the information completed or received with the Bid.

20. ILLEGIBLE CONTENT, ALTERATION AND ERASURES

- 20.1 Incomplete Bids may be disqualified or evaluated solely on information contained in the Bid.
- 20.2 The DBSA may disregard any content in a Tender that is illegible and will be under no obligation whatsoever to seek clarification from the Bidder.
- 20.3 The DBSA may permit a Bidder to correct an unintentional error in its Bid where that error becomes known or apparent after the Closing Time, but in no event will any correction be permitted if the DBSA reasonably considers that the correction would materially alter the substance of the Bid or effect the fairness of the Tendering Process.

21. OBLIGATION TO NOTIFY ERRORS

If, after a Bidder's Response has been submitted, the Bidder becomes aware of an error in the Bidders Response (including an error in pricing but excluding clerical errors which would have no bearing on the evaluation of the Bid), the Bidder must promptly notify the DBSA of such error.

22. RESPONSIBILITY FOR BIDDING COSTS

- 22.1 The Bidders participation or involvement in any stage of the Tendering Process is at the Bidders sole risk, cost and expense. The DBSA will not be held responsible for, or pay for, any expense or loss that may be incurred by Bidders in relation to the preparation or lodgement of their Bid.

DBSA DIGITAL CENTER OF EXCELLENCE

FEBRUARY 2023

1. Background

The Development Bank of Southern Africa (“the DBSA” or “the Bank”) is a Development Finance Institution (“DFI”) wholly owned by the Government of the Republic of South Africa (“the shareholder”), with a mandate to finance infrastructure projects across Africa. This is achieved primarily through preparation, funding, and delivery of infrastructure projects in the markets within which the Bank operates.

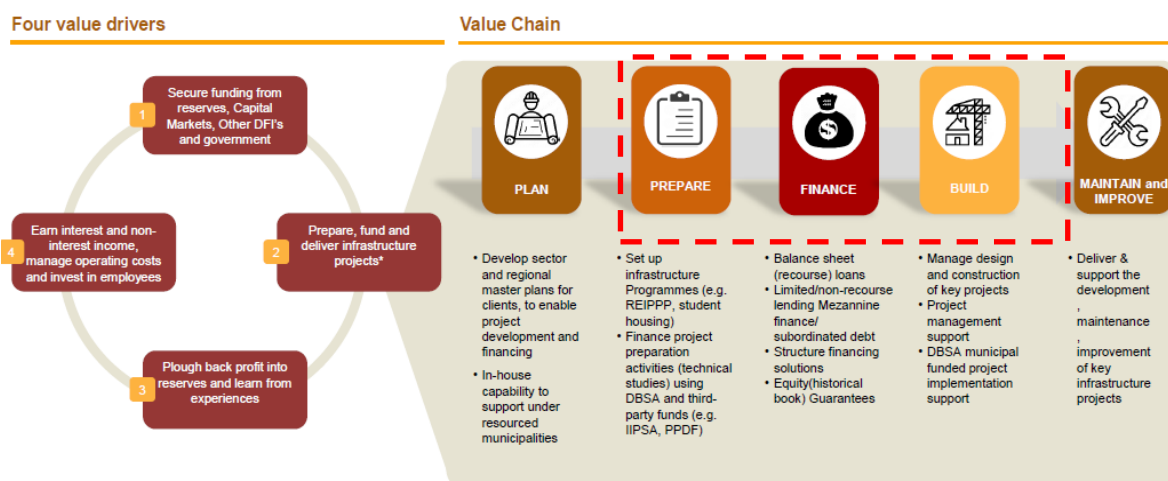

Figure 1: Primary focus areas of the DBSA

DBSA primarily plays a key role in the preparation, funding and building phases of the infrastructure development value chain. The diagram below illustrates the various services as well as the key target markets per value chain segments.

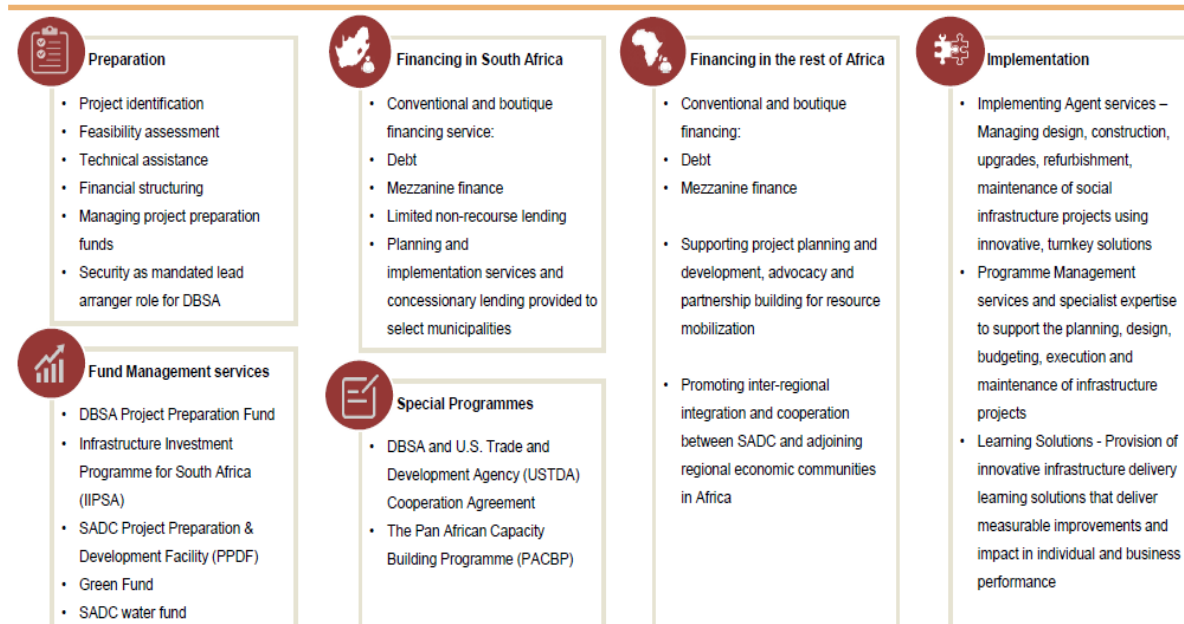

Figure 2: products and services of the DBSA

1. PURPOSE

The purpose of this document is to detail the Terms of Reference (ToR) for the appointment of a service provider to establish a cross functional and multi capability digital center of excellence (“DCoE”), which will manage the digital transformation activities of the Development Bank of Southern Africa (DBSA). The DCoE will enhance operating model, accelerate project implementation and adoption of new technologies as well as optimize core capabilities, to enable operational efficiency and effectiveness.

2. BACKGROUND

Under the uncertainty that the global pandemic has created, the DBSA has considered how it should adjust its strategic approach in order to remain relevant and sustain the development impact while still executing on its mandate. This requires a balanced approach to development finance with equal consideration given to the dual mandate aspects of financial sustainability and sustained development impact. The approach requires the need to create efficiencies and cross functional capacity to achieve operational excellence and enhanced customer experience.

Operational excellence is envisaged to be achieved through digital transformation of the Bank’s core operations, which will be underpinned by several enablers which consider novel

approaches in ways of work in which projects are developed and executed, future fit operations enabled by the right technologies to anticipate and address current and long term trends and enhancing strategic partnerships both locally and globally.

DBSA has embarked on a digital transformation journey, to increase efficiency and effectiveness of the Bank's processes, capabilities and overall operating models. To continue delivering value to clients, respond to the increased competitive landscape and accelerate the development agenda, the DBSA must adapt to the new market realities and leverage technology to deliver an unmatched client experience and enhance development impact.

The DBSA has developed a digital roadmap and cloud migration strategy. A number of key projects have been identified and prioritised. These projects are at various stages in the project lifecycle; some of which have appointed technology implementation partners.

3. PROBLEM STATEMENT

The DBSA has developed its digital roadmap and cloud migration plan, which have informed the prioritisation of key focus areas and projects. The digital transformation of the DBSA requires the balancing of developing new digital capabilities, ways of work and technology adoptions whilst maintaining minimal interruptions to current operations; all while needing to transition the organization towards a future fit organization.

To achieve the desired digital transformation, adequate capability and execution capacity is required. The right infrastructure is needed to manage and drive this transformation.
