TOTAL QUALITATIVE TECHNICAL EVALUATION SCORE				100%

- Failure to achieve minimum threshold of 70% under Technical Qualitative Evaluations disqualifies and/or eliminates the tenderer from participating further in this tender.

Note:

Contract Condition Evaluation (SHEQ & SDL & I)

"Contract Condition will generally be applied after evaluation and are generally the criteria / conditions specifically linked to contract award (viz., legal compliance, adherence to contract terms and conditions, financial viability, specific goals, etc.), and may not necessarily be linked to the allocation of points for further scoring."

SHEQ requirements are Contract Condition and would not necessarily disqualify a supplier but are required for compliance purposes. Should there be documents outstanding at date of tender submission; supplier would be given an opportunity to still submit/comply.

SD & L requirements are Contract Condition but for this tender they have Special Conditions which in turn are mandatory, so compliance is crucial as this will disqualify a supplier if not complied with.

Note that one of the technical requirements is a tenderer with CIDB Minimum Grading Level 6ME or 5ME PE. In terms of CIDB Regulations, "Where employers have in place a targeted development programme, contractors who are registered PE may be awarded a contract in one contractor grading designation higher than their current contractor grading designation provided that the Employer:

- is satisfied that the contractor has the potential to develop into and qualify for registration in a higher grade.
- ensures that financial, management or other support is provided to that contractor to enable the contractor to successfully execute the contract."

SD&L has therefore made the following provisions Potentially Emerging (PE):

In an event that a potentially emerging contractor becomes a successful bidder the following will have to be considered:

- Project/s successfully completed over the last two financial years.
 - The best annual turnover of the last two financial years
 - The potential of the contractor to develop and qualify to be registered to the higher grading.
- In ensuring that the contractor execute the work successfully, the following will have to be explored:
- Ensuring that Financial Management and other support is provided to enable the contractor to successfully execute the contract.
 - Raising red flag (early warning) where there's potential risk

- Utilization of Progress Meetings/ Reports to close gaps that might be identified.
- Ensuring that the Contractor is paid on time to avoid cash flow problems.

NB: the above-mentioned will be underpinned by a Programme of action, that will be tailored to support and develop the successful bidder who happens to be potentially emerging. Amongst others, the Programme will entail identifying gaps that may undermine development objectives. Since access to funding is one of the major challenges faced by emerging contractors; early payment will be among the pillars of the developmental agenda. A kick-off meeting has been earmarked as the first step towards implementation of the Programme. The role of this will be to set the scene on how the rolling out of the Programme should happen. It will be addressing issues such as reporting frequency, raising of early warnings and risk mitigating interventions.

3.15 Evaluation of price	<p>Prices will be evaluated as follows:</p> <ul style="list-style-type: none"> • Inclusive of VAT • Making the specified correction for arithmetical errors • Excluding contingencies in any bill of quantities or activity schedule. • Making an appropriate adjustment for any other acceptable variations, deviations, or alternative tenders submitted. • Making a comparison of the Net Present Value of each adjusted tender based on the tendered programme (if provided) and prices, on the estimated effect of Price Adjustment Factors and rate of exchange fluctuations (if applicable) and on other evaluation parameters relating to uncertainty and risk, where applicable. • Unconditional discounts must be taken into account for evaluation purposes. • Conditional discounts must not be taken into account for evaluation purposes but should be implemented when payment is affected. <p>Prices will be scored out of 90 points</p>
3.17 Evaluation of B-BBEE	<p>B-BBEE status will be scored out 10 points in accordance with PPPFA.</p> <p>If a tenderer fails to submit proof of B-BBEE status level, the tenderer will not be disqualified (except if B-BBEE level is a pre-qualification criterion). The tenderer will, however, be awarded 90 points for price and will score 0 points for B-BBEE level /status (out of 10)</p>
3.18 Ranking of tenders	<p>Suppliers will be ranked by applying the preferential point scoring based on the relevant system as stipulated hereunder]:-</p> <ul style="list-style-type: none"> • 90/10 (for estimated values above R50M inclusive of all taxes) <p>Eskom will then add the score from Pricing and the B-BBEE level together and rank the suppliers from the highest to the lowest.</p>
