The definition and measurement of the goals above is as follows:

**Women, disability, and youth:**

This will be measured by calculating the pro-rata percentage of ownership of the bidding company which meets this criterion. E.g., Company A has five shareholders each of whom own 20% of the company. Three of the five shareholders meet the criterion, i.e. they are women/disability/youth. Therefore, this bidder will obtain 60% of the points allowable for this goal.

**Location of enterprise**

Local equals province. Where a project cuts across more than one province, the bidder may be located in any of the relevant provinces to obtain the points.

**B-BBEE status level contributors from level 1 to 2 which are QSE or EME**

Measured in terms of normal BBEE requirements.

**Note: Formula for calculating points for specific goals**

**Preference points for entities are calculated on their percentage shareholding in a business, provided that they are actively involved in and exercise control over the enterprise.**

The following formula is prescribed:

$$PC = \frac{Mpa \times P\text{-own}}{100}$$

Where

**PC= Points awarded for specific goal**

**Mpa= The maximum number of points awarded for ownership in that specific category**

**P-own = The percentage of equity ownership by the enterprise or business**
