**30 September 2026**

**NOTICE TO TENDERERS NO: 6**

**TENDER NUMBER: 151S/2025/26**

**TENDER DESCRIPTION: CITY OF CAPE TOWN WASTE TO ENERGY INDEPENDENT POWER PRODUCER (IPP) PROGRAM FOR EMBEDDED OR WHEELED GENERATION FOR A PERIOD OF 20 YEARS**

**CLOSING DATE OF TENDER: 29 May 2026 (Original) and 1<sup>st</sup> Extension 31 August 2026**

**EXTENDED CLOSING DATE OF TENDER: 30 October 2026**

**BOX NUMBER: 187**

Dear Sir/Madam

**Tenders should take note of the following:**

A number of clarifications request were submitted regarding CCT waste and the following notice is issued to clarify the matter.

**THE POSSIBLE FUTURE SUPPLY OF CCT MUNICIPAL WASTE**

1. Clause C5.3(j) of the tender specifications provides that bidders are responsible for sourcing the fuel or waste feedstock required for their projects and that the City's Energy Directorate will not facilitate fuel, waste or other input contracts. This requirement remains unchanged.
2. In response to questions 2, 3 and 6 in Notice to Tenderers No. 2, the City advised that it would not be party to any waste supply agreement and would not participate in such a process on behalf of, or in support of, any bidder.
3. However, the City wishes to clarify that it will enter into discussions with a preferred or successful bidder regarding the possible future supply of suitable municipal waste pursuant to the award of the tender.
4. The City is not presently in a position to commit to the supply of municipal waste. This Notice therefore does not guarantee that municipal waste will be supplied or commit the City to any quantity, quality, composition or duration of supply. It also does not grant any bidder an exclusive or preferential right to municipal waste, commit the City to paying a gate fee or accepting any minimum-tonnage or compensation obligation, or create any right that may be relied upon by a bidder, lender, financier or other third party.
5. Any future arrangement in relation to the supply of municipal waste will be subject to the availability and suitability of municipal waste, the City's operational requirements and existing contracts, all necessary assessments and approvals, compliance with applicable legislation, the City's future long term waste strategy and the City's Supply Chain

Management Policy, and any separate procurement process that may be required.

6. Appointment under this tender will not give a preferred or successful bidder an automatic right to receive municipal waste from the City. Bidders remain responsible for submitting compliant tenders and for making adequate provision for the feedstock required for their proposed projects.
7. The responses to 2, 3 and 6 in Notice to Tenderers No. 2 are amended to clarify that, notwithstanding those responses, the City may consider supplying suitable municipal waste to a preferred or successful bidder. This does not constitute any commitment, guarantee or obligation by the City to provide municipal waste, and any such supply remains subject to the City's sole discretion and relevant approvals. All other tender requirements and clarifications remain unchanged.
8. It is the responsibility of the bidders to factor the cost of waste agreement in their bid price as the price adjustment will not be allowed after the closing date of the tender. The City accepts no responsibility in terms of the long term supply, composition or availability of waste and the successful bidder accepts this risk as part of its bid.

Tenderers are to return a signed copy of this notice/addendum with the submission of their Tender.

Yours faithfully,

For: Director: Supply Chain Management
