## C1.1 Form of Offer & Acceptance

#### Offer

The Employer, identified in the Acceptance signature block, has solicited offers to enter into a contract for the procurement of:

## Hire of 1200Bar High Pressure Machine & Services as and when required

The tenderer, identified in the Offer signature block, has examined the documents listed in the Tender Data and addenda thereto and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the tenderer, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance the tenderer offers to perform all of the obligations and liabilities of the *Contractor* under the contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the *conditions of contract* identified in the Contract Data.

Options A	The offered total of the Prices exclusive of VAT is	
	Value Added Tax @ 14% is	RATE BASE
	The offered total of the amount due inclusive of VAT is1	
	(in words) [●]	

This Offer may be accepted by the Employer by signing the Acceptance part of this Form of Offer and Acceptance and returning one copy of this document including the Schedule of Deviations (if any) to the tenderer before the end of the period of validity stated in the Tender Data, or other period as agreed, whereupon the tenderer becomes the party named as the *Contractor* in the *conditions of contract* identified in the Contract Data.

PART C3: SCOPE OF WORK 3 C3 TSC3 COVER PAGE

<sup>&</sup>lt;sup>1</sup> This total is required by the *Employer* for budgeting purposes only. Actual amounts due will be assessed in terms of the *conditions of contract*.

#### **Acceptance**

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the tenderer's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the conditions of contract identified in the Contract Data. Acceptance of the tenderer's Offer shall form an agreement between the Employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

Part C1	Agreements and Contract Data, (which includes this Form of Offer and Acceptance)
Part C2	Pricing Data
Part C3	Scope of Work: Service Information

and drawings and documents (or parts thereof), which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Returnable Schedules as well as any changes to the terms of the Offer agreed by the tenderer and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Form of Offer and Acceptance. No amendments to or deviations from said documents are valid unless contained in this Schedule.

The tenderer shall within two weeks of receiving a completed copy of this agreement, including the Schedule of Deviations (if any), contact the Employer's agent (whose details are given in the Contract Data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the *conditions of contract* identified in the Contract Data at, or just after, the date this agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed and signed original copy of this document, including the Schedule of Deviations (if any).

Note: If a tenderer wishes to submit alternative tenders, use another copy of this Form of Offer and Acceptance.

## Schedule of Deviations to be completed by the *Employer* prior to contract award

- 1. This part of the Offer & Acceptance would not be required if the contract has been developed by negotiation between the Parties and is not the result of a process of competitive tendering.
- 2. The extent of deviations from the tender documents issued by the Employer prior to the tender closing date is limited to those permitted in terms of the Conditions of Tender.
- 3. A tenderer's covering letter must not be included in the final contract document. Should any matter in such letter, which constitutes a deviation as aforesaid be the subject of agreement reached during the process of Offer and Acceptance, the outcome of such agreement shall be recorded here and the final draft of the contract documents shall be revised to incorporate the effect of it.

By the duly authorised representatives signing this Schedule of Deviations below, the Employer and the tenderer agree to and accept this Schedule of Deviations as the only deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Tender Schedules, as well as any confirmation, clarification or changes to the terms of the Offer agreed by the tenderer and the Employer during this process of Offer and Acceptance.

It is expressly agreed that no other matter whether in writing, oral communication or implied during the period between the issue of the tender documents and the receipt by the tenderer of a completed signed copy of this Form shall have any meaning or effect in the contract between the parties arising from this Agreement.

X20.2	A report of performance against each Key Performance Indicator is provided at intervals of	3 months
Z	The additional conditions of contract are	Z1 to Z11 always apply.

#### Z1 Cession delegation and assignment

- Z1.1 The *Contractor* does not cede, delegate or assign any of its rights or obligations to any person without the written consent of the *Employer*.
- Z1.2 Notwithstanding the above, the *Employer* may on written notice to the *Contractor* cede and delegate its rights and obligations under this contract to any of its subsidiaries or any of its present divisions or operations which may be converted into separate legal entities as a result of the restructuring of the Electricity Supply Industry.

#### Z2 Joint ventures

- Z2.1 If the *Contractor* constitutes a joint venture, consortium or other unincorporated grouping of two or more persons or organisations then these persons or organisations are deemed to be jointly and severally liable to the *Employer* for the performance of this contract.
- Z2.2 Unless already notified to the *Employer*, the persons or organisations notify the *Service Manager* within two weeks of the Contract Date of the key person who has the authority to bind the *Contractor* on their behalf.
- Z2.3 The *Contractor* does not alter the composition of the joint venture, consortium or other unincorporated grouping of two or more persons without the consent of the *Employer* having been given to the *Contractor* in writing.

#### Z3 Change of Broad Based Black Economic Empowerment (B-BBEE) status

- Z3.1 Where a change in the *Contractor's* legal status, ownership or any other change to his business composition or business dealings results in a change to the *Contractor's* B-BBEE status, the *Contractor* notifies the *Employer* within seven days of the change.
- Z3.2 The *Contractor* is required to submit an updated verification certificate and necessary supporting documentation confirming the change in his B-BBEE status to the *Service Manager* within thirty days of the notification or as otherwise instructed by the *Service Manager*.
- Z3.3 Where, as a result, the *Contractor's* B-BBEE status has decreased since the Contract Date the *Employer* may either re-negotiate this contract or alternatively, terminate the *Contractor's* obligation to Provide the Service.
- Z3.4 Failure by the *Contractor* to notify the *Employer* of a change in its B-BBEE status may constitute a reason for termination. If the *Employer* terminates in terms of this clause, the procedures on termination are P1, P2 and P4 as stated in clause 92, and the amount due is A1 and A3 as stated in clause 93.

#### Z4 Ethics

- Z4.1 Any offer, payment, consideration, or benefit of any kind made by the *Contractor*, which constitutes or could be construed either directly or indirectly as an illegal or corrupt practice, as an inducement or reward for the award or in execution of this contract constitutes grounds for terminating the *Contractor*'s obligation to Provide the Service or taking any other action as appropriate against the *Contractor* (including civil or criminal action).
- Z4.2 The *Employer* may terminate the *Contractor*'s obligation to Provide the Service if the *Contractor* (or any member of the *Contractor* where the *Contractor* constitutes a joint venture, consortium or other unincorporated grouping of two or more persons or organisations) is found guilty by a competent court, administrative or regulatory body of participating in illegal or corrupt practices.
  - Such practices include making of offers, payments, considerations, or benefits of any kind or otherwise, whether in connection with any procurement process or contract with the *Employer* or other people or organisations and including in circumstances where the *Contractor* or any such member is removed from the an approved vendor data base of the *Employer* as a consequence of such practice.
- Z4.3 Notwithstanding the provisions of core clause 90.2, the procedures on termination in terms of this clause are P1, P2 and P4 as stated in the core clause 92 and the amount due is A1 and A3 as stated in core clause 93.

#### Z5 Confidentiality

- Z5.1 The Contractor does not disclose or make any information arising from or in connection with this contract available to Others. This undertaking does not, however, apply to information which at the time of disclosure or thereafter, without default on the part of the Contractor, enters the public domain or to information which was already in the possession of the Contractor at the time of disclosure (evidenced by written records in existence at that time). Should the Contractor disclose information to Others in terms of clause 25.1, the Contractor ensures that the provisions of this clause are complied with by the recipient.
- Z5.2 If the *Contractor* is uncertain about whether any such information is confidential, it is to be regarded as such until notified otherwise by the *Service Manager*.
- Z5.3 In the event that the *Contractor* is, at any time, required by law to disclose any such information which is required to be kept confidential, the *Contractor*, to the extent permitted by law prior to disclosure, notifies the *Employer* so that an appropriate protection order and/or any other action can be taken if possible, prior to any disclosure. In the event that such protective order is not, or cannot, be obtained, then the *Contractor* may disclose that portion of the information which it

- is required to be disclosed by law and uses reasonable efforts to obtain assurances that confidential treatment will be afforded to the information so disclosed.
- Z5.4 The taking of images (whether photographs, video footage or otherwise) of the Affected Property or any portion thereof, in the course of Providing the Service and after the end of the service period, requires the prior written consent of the Service Manager. All rights in and to all such images vests exclusively in the Employer.
- Z5.5 The Contractor ensures that all his subcontractors abide by the undertakings in this clause.

#### Z6 Waiver and estoppel: Add to core clause 12.3:

Z6.1 Any extension, concession, waiver or relaxation of any action stated in this contract by the Parties, the *Service Manager* or the *Adjudicator* does not constitute a waiver of rights, and does not give rise to an estoppel unless the Parties agree otherwise and confirm such agreement in writing.

### Z7 Health, safety and the environment: Add to core clause 27.4

- Z7.1 The *Contractor* undertakes to take all reasonable precautions to maintain the health and safety of persons in and about the execution of the *service*. Without limitation the *Contractor*.
  - accepts that the Employer may appoint him as the "Principal Contractor" (as defined and provided for under the Construction Regulations 2014 (promulgated under the Occupational Health & Safety Act 85 of 1993) ("the Construction Regulations") for the Affected Property;
  - warrants that the total of the Prices as at the Contract Date includes a sufficient amount for
    proper compliance with the Construction Regulations, all applicable health & safety laws
    and regulations and the health and safety rules, guidelines and procedures provided for in
    this contract and generally for the proper maintenance of health & safety in and about the
    execution of the service; and
  - undertakes, in and about the execution of the service, to comply with the Construction Regulations and with all applicable health & safety laws and regulations and rules, guidelines and procedures otherwise provided for under this contract and ensures that his Subcontractors, employees and others under the Contractor's direction and control, likewise observe and comply with the foregoing.
- Z7.2 The Contractor, in and about the execution of the service, complies with all applicable environmental laws and regulations and rules, guidelines and procedures otherwise provided for under this contract and ensures that his Subcontractors, employees and others under the Contractor's direction and control, likewise observe and comply with the foregoing.

#### Z8 Provision of a Tax Invoice and interest. Add to core clause 51

- Z8.1 Within one week of receiving a payment certificate from the *Service Manager* in terms of core clause 51.1, the *Contractor* provides the *Employer* with a tax invoice in accordance with the *Employer*'s procedures stated in the Service Information, showing the amount due for payment equal to that stated in the payment certificate.
- Z8.2 If the *Contractor* does not provide a tax invoice in the form and by the time required by this contract, the time by when the *Employer* is to make a payment is extended by a period equal in time to the delayed submission of the correct tax invoice. Interest due by the *Employer* in terms of core clause 51.2 is then calculated from the delayed date by when payment is to be made.
- Z8.3 The *Contractor* (if registered in South Africa in terms of the companies Act) is required to comply with the requirements of the Value Added Tax Act, no 89 of 1991 (as amended) and to include the *Employer's* VAT number 4740101508 on each invoice he submits for payment.

#### Z9 Notifying compensation events

Z9.1 Delete the last paragraph of core clause 61.3 and replace with:

If the *Contractor* does not notify a compensation event within eight weeks of becoming aware of the event, he is not entitled to a change in the Prices.

#### Z10 Employer's limitation of liability

- Z10.1 The *Employer's* liability to the *Contractor* for the *Contractor's* indirect or consequential loss is limited to R0.00 (zero Rand)
- Z10.2 The *Contractor*'s entitlement under the indemnity in 82.1 is provided for in 60.1(12) and the *Employer*'s liability under the indemnity is limited to compensation as provided for in core clause 63 and X19.11 if Option X19 Task Order applies to this contract.
- Z11 Termination: Add to core clause 91.1, at the second main bullet point, fourth sub-bullet point, after the words "against it":
  - Z11.1 or had a business rescue order granted against it.

#### Z12 Supplier Development and Localisation

## Annexure A: Insurance provided by the Employer

These notes are provided as guidance to tendering contractors and the Contractor about the insurance provided by the Employer. The Contractor must obtain its own advice. Details of the insurance itself are available from the internet web link given below.

- 1. Services provided in a TSC3 contract could include some element of construction or refurbishment as well as a continuous maintenance or operational service activity. If an event occurs which causes loss or damage, a claim could be made either against the *Employer*'s "works" type policy which may be in place for the *Employer*'s portion of the Affected Property concerned or against the *Employer*'s assets policy which may be in place for the *Employer*'s portion of the Affected Property concerned, or both.
- 2. The cover provided and the deductibles under the works policy are different to those under the assets policy. Each policy has a range of applicable deductibles depending on the location of the Affected Property and the nature of the insurable event.
- 3. The Contractor is required in terms of Contract Data for clause 83 to provide cover for the deductibles in the insurance provided by the Employer. This can be provided from his own resources on a 'self insured' basis or obtained by him from his own insurers. In order to assess the extent of this cover, tendering contractors and their brokers should consult the internet web link given below and scroll to 'Format TSC3' to establish both the cover and the deductibles in relation to the service provided in terms of this contract.
- 4. Tendering contractors should note that cover provided by the *Employer* is only per the policies available on the internet web link listed below and may not be the cover required by the tendering contractor or as intended by each of the listed insurances in the left hand column of the Insurance Table in clause 83.2. In terms of clause 83.1 "the *Contractor* provides the insurances stated in the Insurance Table except any insurance which the *Employer* is to provide". Hence the *Contractor* provides insurance which the *Employer* does not provide and in cases where the *Employer* does provide insurance the *Contractor* insures for the difference between what the Insurance Table requires and what the *Employer* provides.
- 5. If Marine Insurance is required the *Contractor* needs to obtain a copy of the latest edition of Eskom's Marine Policies Procedures found at internet website given below.
- 6. Further information and full details of all Eskom provided policies and procedures may be obtained from:

http://www.eskom.co.za/Tenders/InsurancePoliciesProcedures/Pages/EIMS\_Policies\_ From\_1\_April\_2014\_To\_31\_March\_2015.aspx

PART C3: SCOPE OF WORK 15 C3 TSC3 COVER PAGE

## Annexure B: The *Employer*'s Panel of Adjudicators

The following persons listed in alphabetical order of their surname have indicated their willingness to be included in the Eskom Panel of Adjudicators. Their CV's may be obtained by using the contact details provided.

Name	Location	Contact details (phone & e mail)
Nigel ANDREWS	Gauteng	+27 11 836-6760 nigela@quoin.net

PART C3: SCOPE OF WORK 16 C3 TSC3 COVER PAGE

## C1.2 Contract Data

## Part two - Data provided by the Contractor

[Instructions to the contract compiler: (delete this notes before issue to tenderers with an enquiry) Whenever a cell is shaded in the left hand column it denotes this data is optional and would be required in relation to the option selected. In the event that the option is not required select and delete the whole row.]

#### Notes to a tendering contractor:

- 1. Please read both the both the NEC3 Term Service Contract (June 2005) and the relevant parts of its Guidance Notes (TSC3-GN)<sup>3</sup> in order to understand the implications of this Data which the tenderer is required to complete.
- 2. The number of the clause which requires the data is shown in the left hand column for each statement however other clauses may also use the same data
- 3. Where a form field like this [ ] appears, data is required to be inserted relevant to the option selected. Click on the form field **once** and type in the data. Otherwise complete by hand and in ink.

Completion of the data in full, according to Options chosen, is essential to create a complete contract.

## **C3.1: EMPLOYER'S SERVICE INFORMATION**

#### C3.1 EMPLOYER'S SERVICE INFORMATION

## 1 Description of the service

Hire of 1200Bar HP machine & services at Hendrina Power Station

### 1.1 Employer's requirement for the service

The contract will be as and when required.

SCOPE OF WORK

Unblocking / descaling of ash lines, sumps and pumps.

Unblocking / descaling of waste water recovery lines and pumps.

Unblocking / descaling of sewage lines and pumps.

Unblocking / descaling of hopper spray lines and pumps.

Unblocking / descaling of main sluice supply lines and pumps.

Unblocking / descaling of sealing water lines.

Unblocking / descaling of quick filling lines.

Unblocking / descaling of ash water return lines and pumps.

Flush the system to remove all debris.

## 2 Health and safety, the environment and quality assurance

### 2.1 Health and Safety Risk Management

- Contractor provides qualified Safety Officer to be on site for the duration of the project.
- Contractor provides a risk management plan identifying measures used to preserve safety.
- Contractor provides a detailed risk assessment identifying all safety hazards and mitigation measures.
   Reference to be made to the Employer's Risk Assessment for all risks related to the required works.
   Contractor is responsible to ensure that all risks associated with executing the required works are identified, recorded and managed.
- Before commencing the required works, Contractor ensures all his/her personnel attend the Employer's Health and Safety Induction Course. The induction grants permission to access the site.
   Permission is valid for one year from the date of induction. Induction courses are given on Mondays, Wednesdays and Fridays at 09:00.
- Contractor conducts Toolbox Talk and inspects all PPE before the required works commences, and retains written proof of such actions.
- Contractor performs daily activity safety risk assessment in line with a daily site register. Upon request by the *Employer*, this is to be provided to the *Service Manager*.
- Contractor submits a risk management plan and risk assessment that is compatible with the site conditions and project constraints.

Contractor ensures compliance with the health and safety regulations prescribed by law of any statutory authority. In particular, Contractor complies with the Occupational Health and Safety Act (No 85. of 1993, as amended), and all regulations and operating procedures made thereafter.

Furthermore, Contractor complies with the health and safety requirements prescribed as follows:

- Contractor complies with all requirements contained in the Hendrina Power Station Safety, Health and Environmental Specifications for Principal Contractors (HSPHO/058).
- Contractor provides a First Aid service to his/her employees. In the case where these prove to be
  inadequate, like in the event of serious injury, the Employer's Medical centre and facilities will be
  available.
- Outside the *Employer's* office hours, *Employer's* First Aid services are only available for serious injuries and life threatening situations.

- Employer recovers the cost incurred, in the use of the above Employer's facilities from the Contractor.
- Contractor ensures that no personnel are transported on any open vehicles. Personnel may only travel in a vehicle with SABS seating and safety belts.

## 2.2 Environmental Constraints and Management

- *Contractor* provides strategy identifying measures how methodology to execute the required works will not contravene environmental compliance.
- The required works are executed within the site boundaries and isolations provided by the Employer.
  The usage of machinery/equipment ensures that there are no spillages of sludge or polluted water
  during the execution of the works, thus eliminating the potential of any environmental contravention.
  Contractor is responsible for the expenditure for all cleanup and relevant activities that may be required
  to correct the effects of any spillages or environmental contravening factors induced by the execution
  of the required works
- Sludge is disposed at Ash dam 3. Non-hazardous waste and rubble induced from executing the works is disposed at the landfill site.
- Environmental requirements, submitted by the *Contractor*, are compatible with the site conditions and constraints of the project.

*Contracto*r ensures that all machinery/equipment used during execution of the works conform to all applicable environmental legislation. In particular, the *Contractor* to comply with the:

- Environmental Management System (ISO 14001:2004)
- Hendrina Power Station Environmental policy (HSPPPIN005)
- Hendrina Power Station Environmental Emergency Preparedness Procedure (HSPPIN032)
- Hendrina Power Station Waste Management Procedure (HSPPIN003)
- EMS Non-Conformance ,Corrective and Preventative Action (HSPPIN034)

## 2.3 Quality Assurance Requirements

Contractor conforms to the following Quality Management systems:

- Quality requirements as per ISO 9001:2015
- QM 58,and Hendrina Power Station HSSPPA 006 "Quality requirements for quality related items"
- Contractor provides a detailed Quality Control Plan for acceptance within 3 working days of the
  Contract Date identifying how use of labour, machinery and equipment suffice to successfully
  execute the required services according to the methodology provided by the Contractor. In addition,
  quality control plan details strategy identifying how the methodology will meet the production rate at
  which the required works will be executed within the specified project duration. Production rate is
  broken down according to the rate at which the Seepage Dam will be desilted, and sludge will be
  disposed to the Ash Dam 1. Quality control plan is approved by the Service Manager.
- Quality control plan is compatible to the site conditions and project constraints. This aligns with the *Employer's* Quality criteria and adheres to the Employer's Safety, Health, and Environmental requirements.
- Contractor compiles QIP according to Hendrina Power Station's standard QIP format (reference no. HSPPA/014).QIP stipulates hold points; witness points and verification points approved and documented before the works commence.

## 2.4 Programming constraints

- Contractor provides a hardcopy and an electronic copy of a pdf Gantt chart programme, identifying how the execution of the works is achieved within the specified project duration.
- Programme summarizes the major work activities, estimated durations, and relationships to the other
  activities of the project. This includes demonstrating how quickly labour, machinery and equipment to
  execute the required works will arrive and be secured on site. Programme is approved by the
  Service Manager before the required works commences.
- Programme, submitted by the *Contractor*, is compatible with the site conditions and constraints of the project.

#### 2.4.1 Submission of revised programmes and progress reporting

 On a weekly basis, Contractor submits an electronic copy of the revised pdf Gantt chart programme and schedule monthly progress report to the Service Manager for acceptance. All formally issued reports follow the progress reporting requirements as stated below.

#### 2.4.1.1 Daily Site register/dairies

- Contractor develops a daily site register/diary detailing the works to be carried out on daily basis and to be in line with the accepted programme.
- Daily site register/diary is signed by both the Contractor and the Service Manager
- Contractor ensures that all his/her employees are accounted for in the daily site register/diary with their signatures

### 2.4.1.2 Weekly progress report

The contents of the report may vary from month to month depending on the phase of the project and/or the items of management focus. The basic framework of the report consists of the following:

- Narrative in an executive summary format identifying major movement within the reporting period.
- Programme summary narrative
- Progress and performance summaries
- Sectional completion and Key Milestone status
- Key issues/items of concern and corrective actions
- Cost and cash flow
- Early warning log
- Compensation event log

#### 2.5 Contractor's management, supervision and key people

Contractor submits an organogram to the Service Manager with key personnel. Contractor appoints qualified and competent Site manager, supervisor, operators, and safety officer. Resource allocation abides to their respective function. These resources are present for the duration of the works. Daily site register are signed with all the resources specified.

Contractor provides the key people required to successfully provide the works. The allocation of the key people is clearly reflected on the activity programme, with the required activities to execute and duration stipulated. During the execution of the works, registers or time sheets of the Contractor's employees is kept for contract records.

Management as indicated on the *Contractor's* organogram avail themselves immediately when required to resolve matters that may impact on the accomplishment of the works.

Reference is to be made to the technical evaluation criteria for further requirements documenting the control measures to mitigate technical risks.

## 3 Management strategy and start up

## 3.1 The Contractor's plan for the service

## 3.2 Management meetings

Regular meetings of a general nature may be convened and chaired by the Service Manager as follows:

Title and purpose	Approximate time & interval	Location	Attendance by:
Overall contract progress and feedback	To be conducted weekly on a day and time agreed upon by Parties.	To be confirmed by the Service Manager	Contractor, Service Manager, System Engineer, and Others
Early Warning (Risk reduction) meeting	As and when required	To be confirmed by the Service Manager	Contractor, Service Manager, System Engineer, and Others
Kick-off meeting	Third working day after official contract is placed.	To be confirmed by the Service Manager	Contractor, Service Manager, System Engineer, and Others
Interfacing meetings	As and when required	To be confirmed by the Service Manager	Contractor, Service Manager, System Engineer, and Others
Risk register and compensation events	As and when required	To be confirmed by the Service Manager	Contractor, Service Manager, System Engineer, and Others

Meetings of a specialist nature may be convened as specified elsewhere in this Service Information or if not so specified by persons and at times and locations to suit the Parties, the nature and the progress of the *service*. Records of these meetings shall be submitted to the *Service Manager* by the person convening the meeting within five days of the meeting.

All meetings shall be recorded using minutes or a register prepared and circulated by the person who convened the meeting. Such minutes or register shall not be used for the purpose of confirming actions or instructions under the contract as these shall be done separately by the person identified in the *conditions of contract* to carry out such actions or instructions.

### 3.3 Documentation control

- All contractual communications will be in pdf format or forms attached to emails and not as a
  message in the email itself. Letters are typed and signed by the *Contractor*, and delivered either in
  hardcopy or e-mailed to the *Service Manager*.
- The routing of all written communications to be between the Service Manager and the Contractor
  only. Any agreements between the Contractor and any other person representing the Employer
  which has not been routed via the Service Manager to be unacceptable and invalid.
- Any instructions written or verbal resulting in any changes to the duration, quality, and cost of the project to only be received from the Service Manager.
- All reports are compiled in Word format, in English, and submitted electronically as pdf to Service
   Manager. Hardcopy reports (which are deemed originals) are counter signed by the Contractor's line
   of authority for authenticity and quality verification after finalisation for purposes of record keeping.
- Copies of all documents relating to the works are retained by the *Contractor* in hardcopy format as well as electronic format (pdf format for signed documents) for 5 years.

## 3.4 Invoicing and payment

Within one week of receiving a payment certificate from the *Service Manager* in terms of core clause 51.1, the *Contractor* provides the *Employer* with a tax invoice showing the amount due for payment equal to that stated in the *Service Manager* payment certificate.

The Contractor shall address the tax invoice to Eskom Holdings SOC Ltd Hendrina Power Station Accounts Payable P/Bag X1003 Pullenshope 1096

and include on each invoice the following information:

- Name and address of the Contractor and the Service Manager;
- The contract number and title:
- Contractor's VAT registration number;
- The *Employer's VAT* registration number 4740101508;
- Description of service provided for each item invoiced based on the Price List;
- Total amount invoiced excluding VAT, the VAT and the invoiced amount including VAT;
- (add other as required)

Add procedures for invoice submission and payment (e. g. electronic payment instructions)

Contractor uses the assessed amount when completing the tax invoice and the invoice is forwarded to Management Accounting Payables. Invoices not submitted by hand must have COPY TAX INVOICE heading.

### 3.5 Contract change management

Contractor provides daily site register/diaries of planned working versus work completed to the Service Manager. Following information is stipulated on the daily site diary:

- Task based risk assessments and Toolbox Talks
- Signed time sheets
- Weather conditions
- · Site conditions
- Locations where work was being undertaken together with resources being utilised
- Any delays noted (for whatever reason), any notification by people employed by the Contractor regarding difficulties encountered
- · Complaints by third parties
- Any work done by Others at the site

No standing time claims will be accepted without relevant proof of presence and activity in the form of these records and the early warning process to be followed

Contractor provides proof of expenses to the Employer in the form of a hardcopy as well as a soft copy.

#### 3.5.1 Use of standard forms

- Event register
- · Risk register
- Daily site register/diaries
- Task order forms before work commences
- SHEQ forms
- · Assessment forms on completion of each task order
- Early warning forms when either party warns the other about unforeseen situation/s
- Compensation event notification form as and when the need arises

### 3.6 Records of Defined Cost to be kept by the Contractor

Contractor keeps all records of costs incurred during the works and makes it available to the Service Manager upon request.

### 3.7 Insurance provided by the Employer

First read TSC3 Core Clause 86.1 and then add anything necessary for the <u>management</u> of insurance related issues such as a cross reference to where procedures for making claims can be found. Also provide contact details for persons capable of being able to answer any insurance related queries the *Contractor* may have, as well as to whom the information required by Marine Insurance (if any) may be addressed.

## 3.8 Training workshops and technology transfer

N/A

## 3.9 Design and supply of Equipment

- Contractor provides all labour, and other machinery/equipment to conduct the works. This is compatible with the site conditions and constraints of the project.
- Contractor provides their own resources to secure security of machinery /equipment stored on site, and utilized to conduct the required works. Employer is not liable to account for any costs related to damages or thief of Contractor's machinery and equipment.

#### 3.10 Things provided at the end of the service period for the Employer's use

#### 3.10.1 Equipment

N/A

#### 3.10.2 Information and other things

Take-over is after:

- Completion of HP cleaning as per the specific scope requirements and duration through QIP sign off, and
- Final approval of reports associated with the HP cleaning activities.

#### 3.11 Management of work done by Task Order

N/A

#### 4 Procurement

#### 4.1 People

#### 4.1.1 Minimum requirements of people employed

No constraints on procurement procedures are foreseen

#### 4.1.2 BBBEE and preferencing scheme

Where a change in the *Contractor's* legal status, ownership or any other change to his business composition or business dealings results in a change to the *Contractor's* B-BBEE status, the *Contractor* notifies the *Employer* within seven days of the change

#### 4.1.3 SUPPLIER DEVELOPMENT AND LOCALIZATION (SD & L)

The objective criteria for cleaning of the AWR and pollution control Dams are to advance participation of businesses that are BBBEE compliant around South Africa.

SGB Industrial Cleaning is a Black Owned with a BBBEE of Level 1.

#### **Enterprise Development**

They have on the table (matrix) below proposed percentage to spend on **Enterprise Development** to Black Owned (BO)/Black Women Owned (BWO) or Black Youth Owned (BYO) contractor that they will gain experience and developed on cleaning of the AWR and pollution control Dams for the period of the contract.

#### This will form part of the contractual obligation with the successful contractor.

Criteria	Target	Proposed
Enterprise Development to BWO/BYO	20.00%	20%
Total Score		

#### **Skills Development**

Eskom intends to improve Skills Development by ensuring that technical support is directed towards enhancing supply capacity and capability within the industry or sector of operation. By doing this the capacity and competitiveness of the local supply base will be increased and the goals of shared growth, employment creation, poverty reduction and skills development will be achieved

Tenderers are encouraged to propose Skills Development initiatives in terms of the Skills required for this project as indicated in the table (matrix) below.

### This will form part of the contractual obligation with the successful contractor

Type of Skills	Target	Proposal
Machine Operation	4	
Safety Officer	1	
Total Skills Offered	5	

#### **Job Creation**

Suppliers should mention the number of jobs created and retained as a direct result of the contract. These proposals shall be made in the SD&L Compliance Matrix as shown below. Suppliers are **required** to source local to site labour on semi-skilled and unskilled labour to increase job creation around Hendrina Power Station.

Number of jobs to be created as a result of this contract	
Number of jobs to be retained as a result of this contract	

#### 4.2 Subcontracting

#### 4.2.1 Preferred subcontractors

Contractor submits the proposed condition of contract for each subcontract to the Service Manager for acceptance as per the NEC contract.

#### 4.2.2 Subcontract documentation, and assessment of subcontract tenders

The use of NEC document is compulsory. Specified constraints on how the *Contractor* prepares subcontract documentation and how subcontract tenders are to be issued, received, assessed (using joint report) and awarded.

#### 4.2.3 Limitations on subcontracting

Contractor obtains approval from the Service Manager. Employer permits Contractor to subcontract other works, but not more than a specialised proportion of the whole contract. Contractor provides the majority of the works being 80% from own resources and all the necessary documentation for the works carried out by subcontracting is submitted to the Service Manager for approval.

#### 4.2.4 Attendance on subcontractors

The main *Contractor* is responsible for the management of the duties and performance of the *Subcontractor*.

#### 4.3 Plant and Materials

#### 4.3.1 Specifications

- As per the isolations stipulated in section 1.3.1.3 to 1.3.1.4, *Employer* only issues the *Contractor* with a 400mm HDPE pipeline and a 300mm steel pipeline. *Employer* to issue scaffolding upon request by the *Contractor*. Arrangements are made accordingly with the *Service Manager*
- Contractor provides all labour, and other machinery/equipment to conduct the works. This is compatible with the site conditions and constraints of the project.
   Contractor provides their own resources to secure security of machinery /equipment stored on site, and utilized to conduct the required works. Employer is not liable to account for any costs related to damages or thief of Contractor's machinery and equipment

#### 4.3.2 Correction of defects

- Contractor takes over the site where the works are executed at the beginning of the contract period, and the full risk and cost of dealing with all the unforeseen circumstances.
- Contractor is responsible for the full adequate protection of the works against damage due to any cause that may arise during the execution of the works
- Contractor submits a programme showing the defects correction period within 5 days of receiving the notification from the Services Manager

The Contractor corrects notified Defects within a time which minimises the adverse effect on the *Employer* or Others. If the *Contractor* does not correct a Defect within the time required by this contract, the *Service Manager* assesses the cost to the *Employer* of having the Defect corrected by other people and the *Contractor* pays this amount.

#### 4.3.3 Contractor's procurement of Plant and Materials

Contractor procures transports, offloads and stores all plant and material to provide the required works.

#### 4.3.4 Tests and inspections before delivery

- Contractor does not bring to the Working Area those Plant and Materials which are to be tested or inspected before delivery.
- Contractor retains calibration certificates, throughout the duration of the project, certifying the use of his/her machinery to conduct the required works. Upon request, this is made accessible to the Service Manager.

#### 4.3.5 Plant & Materials provided "free issue" by the *Employer*

As per the isolations stipulated in section 1.3.1, *Employer* only issues the *Contractor* with a 400mm HDPE pipeline and a 300mm steel pipeline. *Employer* to issue scaffolding upon request by the *Contractor*. Arrangements are made accordingly with the *Service Manager* 

## 5 Working on the Affected Property

## 5.1 Employer's site entry and security control, permits, and site regulations

## 5.2 Employer's site entry and security control, permits, and site regulations

Hendrina Power Station is located within the Middleburg Magisterial District, approximately 35 km south-east of the town Middleburg and on the south-western border of the town Pullenshope. The power station is located south of the Optimum Colliery, which is the main supply of coal for the power station.

 Hendrina Road (N11) taking the Pullenshope turn off and continue about 8km, then there is a sign Hendrina Power Station and turn left to the security gate.

Compulsory induction is required before gaining access to *Employer's* site. Adherence to 'Life Saving rules' of *Employer's* and other requirements re explained during the induction and in addition these rules are also indicated on signage within the perimeter of the Station. The rules and regulations for site access and security measures are contained in HSPHO020 '*Access Control-Protective Services*'. The *Contractor* adheres to this procedure at all times.

Failure to adhere to any of the access, security or "Life Saving" rules at any times will result in the suspension of the permit for the relevant person and may also lead to criminal prosecution for the violation of safety rules and regulations.

## 5.3 People restrictions, hours of work, conduct and records

It's very important that the Contractor keeps records of his people onsite, including those of the Subcontractors which the Service Manager have access to any time. These records may be needed when assessing compensation events.

#### 5.4 Restrictions to access on Site, Hidden and other services within the site

#### 5.4.1 Seven Year Dam

The Seven Year Dam is located opposite the coal plant, just across the railway. Road accessing to the dam is utilised by trucks conveying coal to the coal plant, as well as vehicles conducting routine maintenance on the Seven Year Dam and surrounding vicinities.

#### 5.4.2 Seepage Dam

- Access gravel road
- Ash Dams
- Three inlet concrete pipelines discharging water into the Seepage Dam
- Old Lower Dam
- One outlet concrete pipeline conveying water from the new lower dam to the Old Lower Dam

#### 5.4.3 New Lower Dams

The New Lower Dams are located inside the ash dam complex and the dams can be accessed by gravel road. Other infrastructure within the vicinity of the New Lower Dams includes:

- Ash dams
- Switchgear room
- Pump house

#### 5.4.4 Old Lower Dams

The Old Lower Dams are located inside the ash dam complex and the dams can be accessed by gravel road. Other infrastructure within the vicinity of the Old Lower Dams includes:

- Ash dams
- Switchgear room
- Pump house

Seepage dam

#### 5.4.5 **Upper Dams**

The Upper Dams are located outside the ash dam complex and the dams can be accessed by gravel road. Other infrastructure within the vicinity of the Upper Dams includes

- Ash dams
- Switchgear room
- Pump house

#### Title to materials from demolition and excavation

Employer has the title deeds to the sludge and non-hazardous waste accumulated from conducting the works. Waste material and/or consumable items to be disposed as per section 1 stipulated on the Employer's Works Information.

#### 5.6 **Temperature**

Altitude (Elevation above sea level)	1636 m	
Mean Annual Barometer Pressure	84 kPa	
Maximum ambient temperature	38° C	
Minimum ambient temperature	-2° C	
Maximum relative humidity	79%	
Minimum relative humidity 10%		
During the hottest season it is expected that the indoor ambient temperature may		

reach 42° C at ground level.

#### 5.7 Health and safety facilities on the Affected Property

The Medical Centre is used by all people on site for injuries and first aid related issues, however cost to perform Medical services is covered by the Contractor. The fire department is also available for fire and other related emergencies. Their respective contact details to be provided during induction. However, the Contractor must have his own medical facilities available and appointed safety supervisor.

#### **Environmental controls, fauna & flora**

The dam cleaning activities are executed to align with the *Employer's* Environmental management Policy objectives.

#### Cooperating with and obtaining acceptance of Others

Contractor co-operates with others in obtaining and providing information which they need in connection with the works. Contractor also co-operates with others and shares the Working Areas with them. Contractor's communication to Others is routed via the Service Manager.

## 5.10 Records of Contractor's Equipment

- Contractor provides all the necessary equipment to provide the required works.
- Contractor's equipment bought on and removed from
- Contractor complies with the Employer's site access procedures.

### 5.11 Equipment provided by the Employer

Employer to issue scaffolding, mobile crane & overhead cranr upon request by the Contractor. Arrangements are made accordingly with the Service Manager.

#### 5.12 Site services and facilities

### 5.12.1 Provided by the Employer

Item	Date by which it will be provided
Safety file review	Before commencement of the project
Induction for Contractor's Employer's	Before commencement of the project
Permit to Work	At commencement of the project
Waste disposal area	At commencement of the project

The Contractor adheres to the site and services requirements and procedure

#### 5.12.1.1 Medical Facilities

- Contractor provides a First Aid service to his/her employees and Subcontractors. In the case where
  these prove to be inadequate, like in the event of a serious injury, the Employer's Medical Centre
  and facilities will be available.
- Employer recovers the costs incurred, in the use of the above Employer's facilities from the Contractor.

#### 5.12.1.2 Site yard

- Employer provides a site for the Contractor's yard at a location that is indicated to the Contractor. Contractor provides all the facilities required by him/her for such a site at their own cost (including fencing of area as per the requirements).
- Contractor provides their own resources to secure security of machinery and equipment that may be stored on site. Employer is not liable to account for any costs related to damages or thief of machinery and equipment.
- Contractor maintains the site to meet the requirements of the health and safety requirements as per the requirements of the Service Manager. Contractor restores the site to its original state i.e. clean rehabilitate the site. Inspection to be held and signed off by the Service Manager.

#### 5.12.2 Provided by the Contractor

Contractor provides as necessary, site accommodation, storage, vehicles and office equipment, etc. for the Contractor's staff. After completion of the contract these facilities are taken or de-established. Inspection to be held and signed off by the Service Manager.

#### 5.13 Control of noise, dust, water and waste

- All labours are visible during the execution of the works.
- Applicable PPE, aligning with the work requirements, is worn during the execution of the works.
- Contractor provides their employees with all PPE requirements. No PPE will be issued by the Employer
  to the Contractor.

#### 5.14 Hook ups to existing works

N.A

#### 5.15 Tests and inspections

N/A

#### 5.15.1 Materials facilities and samples for tests and inspections

N/A

## 6 List of drawings

## 6.1 Drawings issued by the Employer

This is the list of drawings issued by the *Employer* at or before the Contract Date and which apply to this contract.

Drawing number	Revision	Title
0.15/22487	0	7 Year Dam existing inlet, outlet structure plan, section and details
25.15/ 39963	0	Stormwater Drainage and Runoff-Seven Year Dam

## 8 Project KPI's

KPA/KPI	Description	Control Measures
Project duration	Contractor completes the works as per the provide programme (pdf MS Project format). Deviations from the programme is communicated to the <i>Services Manager</i> within 3 days, and updated programme is submitted accordingly to the <i>Services Manager</i> .	Early warning is issued to the <i>Contractor</i> if the updated programme is not submitted within the stipulated timeline.
Scope/Quality	Assessment is conducted and approved by the <i>Employer</i> as per the project QIP, after completion of the activities stated on the QIP.	Contractor conducts rework, if the assessment of the completed activities fails.
