Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) **“tender”** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation.

- (b) “**price**” means an amount of money tendered for goods or services and includes all applicable taxes less all unconditional discounts.
- (c) “**Rand value**” means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes.
- (d) “**tender for income-generating contracts**” means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) “**The Act**” means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 PREFERENCE POINT SYSTEMS

A maximum of 80 points is allocated for price on the following basis:

80/20

$$Ps = 80 \left(1 - \frac{Pt - P_{min}}{P_{min}} \right)$$

Where?

- Ps = Points scored for price of tender under consideration
- Pt = Price of tender under consideration
- Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 points is allocated for price on the following basis:

80/20

Where?

- Ps = Points scored for price of tender under consideration
- Pt = Price of tender under consideration
- Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
 - (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system: or
 - (b) any other invitation for tender, that either the 80/20 preference point system will apply and that

the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for the 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

DECLARATION CERTIFICATE FOR LOCAL PRODUCTION AND CONTENT FOR DESIGNATED SECTORS

SBD 6.2

This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for Local Content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions and Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2022, the South African Bureau of Standards (SABS) approved technical specification number SANS 1286:2017 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), Annex D (Imported Content Declaration: Supporting Schedule to Annex C) and Annex E (Local Content Declaration: Supporting Schedule to Annex C)].

1. General Conditions

- 1.1. Preferential Procurement Regulations, 2022 (Regulation 8) make provision for the promotion of local production and content.
- 1.2. Regulation 8(2) prescribes that in the case of designated sectors, organs of state must advertise such tenders with the specific bidding condition that only locally produced or manufactured goods, with a stipulated minimum threshold for local production and content, will be considered.
- 1.3. Where necessary, for tenders referred to in paragraph 1.2 above, a two-stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SANS 1286:2017 as follows:

$$LC = [1 - x / y] * 100$$

x is the imported content in Rand.

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the bid as indicated in paragraph 3.1 below.

The SABS approved technical specification number SANS 1286:2017 is accessible on
<http://www.thedtic.gov.za/sectors-and-services-2/industrial-development/industrial-procurement> **at no cost.**

- 1.6. A bid may be disqualified if this declaration certificate and Annex C of the South African Bureau of Standards (SABS) approved technical specification number SANS 1286:2017 (Edition 1) (Local Content Declaration: Summary Schedule) are not submitted as part of the bid documentation.
2. The stipulated minimum threshold(s) for local production and (refer to Annex A of SANS 1286:2017 or <http://www.thedtic.gov.za/sectors-and-services-2/industrial-development/industrial-procurement>) for this bid is/are as follows:

Description of services, works or goods

Stipulated minimum threshold.

Valves products and actuators	70%
Steel Joining/Connecting Components	100%
Steel Frames	100%
Fasteners	100%
Ducting and Structural pipework	100%

3. Does any portion of the goods or services offered have any imported content?

Yes / No

- 3..1 If yes, the rate(s) of exchange to be used in this bid to calculate the local content as prescribed in paragraph 1.5 of the general conditions must be the rate(s) published by SARB for the specific currency at 12:00 on the date of advertisement of the bid.

The relevant rates of exchange information are accessible on www.reservebank.co.za

Indicate the rate(s) of exchange against the appropriate currency in the table below (refer to Annex A of SANS 1286:2017):

Currency	Rates of exchange
US Dollar	
Pound Sterling	
Euro	
Yen	
Other	

NB: Bidders must submit proof of the SARB rate (s) of exchange used.

4. Where, after the award of a bid, challenges are experienced in meeting the stipulated minimum threshold for local content the dtic must be informed accordingly in order for the dtic to verify and in consultation with the AO/AA provide directives in this regard.

LOCAL CONTENT DECLARATION**(REFER TO ANNEX B OF SANS 1286:2017)**

Local Content Declaration by Chief Financial Officer or other legally responsible person nominated in writing by the Chief Executive or Senior Member/person with management responsibility (Close Corporation, Partnership or Individual)

In respect of bid no:

Issued by (procurement authority/name of institution):

NB

The obligation to complete, duly sign and submit this declaration cannot be transferred to an external authorized representative, auditor or any other third party acting on behalf of the bidder.

- 1 Guidance on the Calculation of Local Content together with Local Content Declaration Templates (Annex C, D and E) is accessible on <http://www.thedtic.gov.za/sectors-and-services-2/industrial-development/industrial-procurement>. Bidders should first complete Declaration D. After completing Declaration D, bidders should complete Declaration E and then consolidate the information on Declaration C. **Declaration C should be submitted with the bid documentation at the closing date and time of the bid in order to substantiate the declaration made in paragraph (c) below.** Declarations D and E should be kept by the bidders for verification purposes for a period of at least 5 years. The successful bidder is required to continuously update Declarations C, D and E with the actual values for the duration of the contract.

I, the undersigned, (full names),

do hereby declare, in my capacity as

of(name of bidder entity), the following:

- (a) The facts contained herein are within my own personal knowledge.
- (b) I have satisfied myself that:
- the goods/services/works to be delivered in terms of the above-specified bid comply with the minimum local content requirements as specified in the bid, and as measured in terms of SANS 1286:2017 ; and
- (c) The local content percentage (%) indicated below has been calculated using the formula given in clause 3 of SANS 1286:2017 , the rates of exchange indicated in paragraph 3.1 above and the information contained in Declaration D and E which has been consolidated in Declaration C:

Bid price, excluding VAT (y)	R
Imported content (x), as calculated in terms of SANS 1286:2017	R
Stipulated minimum threshold for local content (paragraph 2 above)	
Local content %, as calculated in terms of SANS 1286:2017	

If the bid is for more than one product, the local content percentages for each product contained in Declaration C shall be used instead of the table above.

The local content percentages for each product have been calculated using the formula given in clause 3 of SANS 1286:2017, the rates of exchange indicated in paragraph 3.1 above and the information contained in Declaration D and E.

- (d) I accept that the Procurement Authority / Institution has the right to request that the local content be verified in terms of the requirements of SANS 1286:2017.
- (e) I understand that the awarding of the bid is dependent on the accuracy of the information furnished in this application. I also understand that the submission of incorrect data, or data that are not verifiable

as described in SANS 1286:2017, may result in the Procurement Authority / Institution imposing any or all of the remedies as provided for in Regulation 14 of the Preferential Procurement Regulations, 2022 promulgated under the Preferential Policy Framework Act (PPPFA), 2000 (Act No. 5 of 2000).

ACCEPTANCE

By signing this part of this form of offer and acceptance, the Employer identified below accepts the Tenderer's offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the conditions of contract identified in the contract data. Acceptance of the Tenderer's offer shall form an agreement between the Employer and the Tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

- Part 1 Agreement and contract data, (which includes this agreement)
- Part 2 Pricing data
- Part 3 Scope of work.
- Part 4 Site information

and drawings and documents or parts thereof, which may be incorporated by reference into Parts 1 to 4 above.

Deviations from and amendments to the documents listed in the tender data and any addenda thereto as listed in the tender schedules as well as any changes to the terms of the offer agreed by the Tenderer and the Employer during this process of offer and acceptance, are contained in the schedule of deviations attached to and forming part of this agreement. No amendments to or deviations from said documents are valid unless contained in this schedule.

The Tenderer shall within two weeks after receiving a completed copy of this agreement, including the schedule of deviations (if any), contact the Employer's agent (whose details are given in the contract data) to arrange the delivery of any bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the conditions of contract identified in the contract data. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect, if delivered by hand on the day of delivery, or if delivered by courier within two working days after submission by the Employer to the courier services for a door-to-door delivery to the Tenderer, provided that the Employer notifies the Tenderer of the tracking number within 24 hours of such submission. Unless the Tenderer (now Contractor) within seven working days of the date of such submission notifies the Employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the parties.

PART C2: PRICING DATA

C2.1 PRICING INSTRUCTIONS

1 The agreement is based on the JBCC Series 2000 Principal Building Agreement, prepared by the **JBCC** Principal Building Agreement (Edition 6.2 - May 2018). The additions, deletions, and alterations to the JBCC Principal Building Agreement as well as the contract specific variables are as stated in the Contract Data.

2 The prices and rates in the Pricing Schedule are fully inclusive prices for the work described under the items. Such prices and rates cover all costs and expenses that may be required in and for the execution of the work described in accordance with the provisions of the Scope of Work, and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the Contract Data, as well as overhead charges and profit. These prices will be used as a basis for assessment of payment for additional work that may have to be carried out.

of the works.

3 Reference to any particular trademark, name, patent, design, type, specific origin or producer is purely to establish a standard for requirements. Products or articles of an equivalent standard may be substituted.

4 The rates contained in the Pricing Schedule will apply irrespective of the final quantities of the different classes and kinds of work actually executed.

5 An item against which no price is entered will be considered to be covered by the other prices or rates in the Pricing Schedule. A single lump sum will apply should a number of items be grouped together for pricing purposes.

6 Where any item is not relevant to this specific contract, such item is marked N/A (signifying “not applicable”)

7 The Pricing Schedule is not intended for the ordering of materials. Any ordering of materials, based on the Pricing Schedule, is at the Contractor's risk.

8 Where the initial contract period is extended, the monthly charge shall be calculated on the basis as set out in 14 but taking into account the revised period for completing the works.

9 All work is to be constructed using labour-intensive methods.

Payment for items, which are designated to be constructed under labour-intensively, will not be made unless they are constructed using labour-intensive methods. Any unauthorized use of plant to carry out work which was to be done labour-intensively will not be condoned and any works so constructed will not be certified for payment.

PART C3: SCOPE OF WORK

The Automotive Industry Development Centre (AIDC) serves to develop the automotive manufacturing sector to globally competitive standards of excellence, through a world-class value proposition which enables effective and sustainable socio-economic growth. The organization was established as a government support centre, to increase the local automotive industry's global competitiveness and to promote Gauteng as the automotive industry investment destination of choice.

The organization is the dedicated developmental agency of the Gauteng Growth and Development Agency (GGDA) in relation to the specific industrial, infrastructure and training needs required by the automotive and allied sector - in particular those based in the Gauteng province.

The AIDC is thus tasked by GGDA with special developmental-oriented projects aimed at retaining and attracting investments in the automotive and allied-related sector with a focus on enterprise development; support BBBEE SMME development, skills development and limited logistical infrastructure in line with the Gauteng provincial government's objectives of transformation, modernization and re-industrialization (TMR). The AIDC also undertakes projects related to the transport and energy sectors, as well as the development of the Auto City in the Northern Corridor.

C3.2 BACKGROUND TO THE TENDER

C3.2.1 INTRODUCTION

The Supplier Park Development Company SOC Ltd trading as AIDC (hereinafter referred to as "AIDC") is a state-owned company (SOC) with all its shares held by the Gauteng Growth and Development Agency (GGDA), an agency of the Department of Economic Development of the Gauteng Province. The company was established to primarily provide support to the SA Automotive and Allied Industry, in its drive for global competitiveness.

The AIDC has since been in the process of on boarding the new Tenant at the Automotive Supplier Park within Building A10 & A11. The plan is to prioritize the current 2023/24 allocated budget to accommodate this unavoidable building requirement per Tenant installation.

Both buildings A10 & 11 are already occupied by the same tenant and are Structural Steel trussed warehouses with sheeting and brick infill. The buildings have double volume brick and mortar offices located at the east end of the building.

The above-mentioned facilities have a combined 5436 square meters of building ground area and are currently occupied by a new tenant in the ASP. As part of the safety requirements and Insurance compliances, it has been identified as a risk to render their operation with their demanding different type of fire classification without any sprinkler system in place. Therefore, it is recommended that a proper fire sprinkler system be designed and installed for the building to be compliant in terms of the applicable National Building Regulations, Fire regulations and respond to Tenant Insurance compliance requirements.

The installations and commissioning shall comply with the following regulations:

- a) SANS 10400: The application of the National Building Regulations.
- b) SANS 10400: Part T Fire Protection.
- c) SABS Standards
- d) National Building Regulations Part W – Fire Installation
- e) ASIB 11th Edition Standard
- f) The Occupational Health and Safety Act, Act No. 85 of 1993
- g) Applicable Local Municipal Regulations

C3.3 TENDER SCOPE OBJECTIVES

The aim of the tender is to request interested and experienced Turnkey Service Provider for a Design, Construction, Commissioning and Certification of a Fire Sprinkler System at the Automotive Supplier Park, Rosslyn (North of Pretoria) for both existing building A10 and A11 to comply with the applicable National Building Regulations, Fire regulations as well as adheres to the Tenant Insurance compliance requirements.

C3.4 TENDER SCOPE

The service provider shall execute and manage the construction work, the service provider is also expected to install the fire sprinkler system and provide all Guarantees/warranties associated with the installation. The service provider shall co-ordinate designs according to applicable building standards and regulations to ensure compliance. In addition, the service provider also needs to comply with ASIB rules.

C3.4.1 Scope of work

C3.4.1.1 Item A - Investigation of Existing Pump House Capacity

The ASP currently utilizes a water-based fire protection system to assist with the distribution of water throughout numerous sprinkler systems to make sure buildings around the park are adequately protected in case of fire.

The Fire Engineer to undertake detailed assessment of existing fire pumps, water tanks and pipe work to determine existing capacity and adequacy for accommodation of envisaged building expansion and future developments within the ASP.

Deliverables to include:

The appointed fire engineer will assume full responsibility of the design where necessary for any engineering aspect of the pump house and associated fittings requiring rational assessment deemed-to-satisfy provisions of the building regulations, including but not limited to:

- Thorough investigation of site conditions and assessment of existing system
- Specification or recommendation of appropriate materials and equipment .
- Production of designs where necessary for envisaged installations in accordance with norms and standards.
- Production of recommendations where necessary regarding the capacity of existing fire protection system within the Automotive Supplier Park.

C3.4.1.2 Item B - Building A10 and A11 Sprinkler System

Stage 1 – Initiation

Defined as: Establish client requirements and preferences, assess user needs and options, appointment of necessary consultants, establish the project brief including project objectives, priorities, constraints, assumptions aspirations and strategies.

- Assist in developing a clear project brief.
- Attend project initiation meetings.
- Advise on procurement policy for the project.
- Advise on the rights, constraints, consents, and approvals.
- Define the scope of services and scope of work required.
- Conclude the terms of the agreement with the client.
- Inspect the site and advise on the necessary surveys, analyses, tests and site or other investigations where such information will be required for Stage 2 including the availability and location of infrastructure and services.
- Determine the availability of data, drawings and plans relating to the project.
- Advise on criteria that could influence the project life cycle cost significantly
- Provide necessary information within the agreed scope of the project to other consultants involved.

Deliverables will typically include:

- Agreed scope of services and scope of work
- Signed agreement
- Report on project, site, and functional requirements
- Schedule of required surveys, tests, analyses, site, and other investigations
- Schedule of consents, approvals, and related timeframes.

Stage 2 – Concept and Viability

Defined as: Prepare and finalise the project concept in accordance with the brief, including project scope, scale, character, form and function, plus preliminary programme, and viability of the project.

- Agree documentation programme with principal agent or consultant and other consultants involved.

- Attend design and consultants' meetings.
- Establish the concept design criteria.
- Prepare initial concept design and related documentation.
- Advise the client regarding further surveys, analyses, tests, and investigations that may be required.
- Establish regulatory authorities' requirements and incorporate into the design.
- Refine and assess the concept design to ensure conformance with all regulatory requirements and consents.
- Establish access, utilities, services, and connections required for the design.
- Participate in coordinated design interfaces with architect or other consultants involved.
- Prepare process designs (where required), preliminary designs, and related documentation for approval by authorities and client and suitable for costing.
- Provide cost estimates and life cycle costs, as required.
- Liaise, co-operate, and provide necessary information to the client, principal consultant and other consultants involved.
- In Addition:

The Fire Engineer to assume responsibility for the detail assessment of existing fire pumps and tanks at the Automotive Supplier Park if adequate to supply the extension to sprinkler system requirements to Building A10 & 11 as well as Building MSSL. And produces associated data with an approach to look at the entire Supplier Park in term of the Fire Protection System capacity & capabilities.

Deliverables will typically include:

- Concept design
- Schedule of required surveys, tests and other investigations and related reports
- Process design
- Preliminary design
- Approved concept design by client

Stage 3 – Design Development

Defined as: Develop the approved concept to finalise the design, outline specifications, cost plan, financial viability, and programme for the project.

- Review documentation programme with principal consultant and other consultants involved.
- Attend design and consultants' meetings.
- Incorporate client's and authorities' detailed requirements into the design.
- Incorporate other consultants' designs and requirements into the design.
- Prepare design development drawings including draft technical details and specifications.
- Review and evaluate design and outline specification and exercise cost control.
- Prepare detailed estimates of construction cost.
- Liaise, co-operate, and provide necessary information to the principal consultant and other consultants involved.
- Submit the necessary design documentation to local and other authorities for approval.

Deliverables will typically include:

- Design development drawings
- Outline specifications
- Local and other authority submission drawings and reports
- Detailed estimates of construction costs.
- Council approvals

Stage 4 – Design Documentation

Defined as: Prepare procurement and construction documentation, confirm, and implement the procurement strategies and procedures for effective and timeous procurement of necessary resources for execution of the project.

- Attend design and consultants' meetings.
- Prepare specifications and preambles for the works.
- Accommodate services design.
- Check cost estimates and adjust designs and documents, if necessary, to remain within budget.
- Formulate the procurement strategy for contractors or assist the principal consultant where relevant.
- Prepare documentation for contractor procurement.
- Review designs, drawings, and schedules for compliance with approved budget.
- Liaise, co-operate, and provide necessary information to the principal consultant and the other consultants as required.

- Preparing contract documentation for signature.
- Assess samples and products for compliance and design intent.

Deliverables will typically include:

- Specifications
- Services co-ordination
- Working drawings
- Budget construction cost

Stage 5 – Construction, contract administration and supervision

Defined as: Construction, Manage, administer, and monitor the construction contracts and processes including preparation and coordination of procedures and documentation to facilitate practical completion of the works.

Supply and installation of a fire sprinkler system as per the approved design drawing & specification by Fire engineer, installation shall include but not limited to the following items:

- Sprinkler valve assembly to approved designs and ASIB specifications
- Flow switches
- Sprinkler valve chamber
- Connecting of pipes underground
- Trenching (Open and backfill)
- Cut in new connection and supply main
- Supply and install remote test valves
- Supply and install new sprinkler valve complete to ASIB Spec
- Do flow adjustment hydraulic calculation
- Connecting pipe from trunk main to sprinkler valve 150mm
- Install a fire sprinkler system as per the approved design and ensure all testing is conducted.
- Supply warranties/guarantees of equipment.

a) Professional Services:

- Attend site handover.
- Issue construction documentation in accordance with the documentation schedule
- Carry out contract administration procedures in terms of the contract.
- Attend regular site, technical and progress meetings.
- Inspect the works for conformity to contract documentation as described.
- Review the outputs of quality assurance procedures and advise the contractor and client on adequacy and need for additional controls, inspections, and testing.
- Adjudicate and resolve financial claims by contractors.
- Assist in the resolution of contractual claims by the contractor.
- Establish and maintain a financial control system.
- Clarify details and descriptions during construction as required.
- Prepare valuations for payment certificates to be issued by the principal agent.
- Witness and review of all tests and mock-ups carried out on site.
- Check and approve contractor drawings for compliance with contract documents.
- Update and issue drawings register.
- Issue contract instructions as and when required.
- Review and comment on operation and maintenance manuals, guarantee certificates and warranties.
- Inspect the works and issue practical completion and defects lists.
- Arranging for the delivery of all test certificates, including any Certificates of Compliance, statutory and other approvals, and record drawings and operating manuals.

Deliverables will typically include:

- Construction documentation
- Drawing register
- Estimates for proposed variations
- Contract instructions
- Financial control reports
- Valuations for payment certificates
- Progressive and draft final accounts
- Practical completion and defects list
- All statutory certification and certificates of compliance as required by the local and other statutory authorities.
- Completion certification.

Stage 6 – Close-out

Project Management Services shall fulfil and complete the project close-out including necessary documentation to facilitate effective completion, handover, and operation of the project. This includes inspection and verify the rectification of defects, approve relevant payment valuation and completion certificates, facilitate final operating and maintenance.

Deliverables will typically include:

- Certification by Fire Engineer
- Approved drawings (Fire chief and building control from City of Tshwane)
- Certification from Fire chief (City of Tshwane)
- ASIB Sprinkler system installation certificate
- Compliant mounted Fire Installation Block Plans
- Submit as-built plans to the Employer in electronic format (preferably, dwg & PDF).
- Prepare and/or procure operations and maintenance manuals, guarantees and warranties.
- Prepare and/or procure as-built drawings and documentation.
- Obtain updated building occupancy certificate (OC)
- Conclude the final accounts where relevant.

C3.4.2 Quality of Service

Emphasis will be placed on quality of experience and expertise of the turnkey service provider Team, the extent that the team can provide the integrated knowledge and expertise required to facilitate decision-making processes and the proposed methodology, as well as Insight and understanding into the Fire Regulations, and Fire Safety Regulations.

Scope of work deliverables to typically include:

- Certification by Fire Engineer
- Approved drawings (Fire chief and building control from City of Tshwane)
- Certification from Fire chief (City of Tshwane)
- ASIB Sprinkler system installation certificate
- Compliant mounted Fire Installation Block Plans
- Submit as-built plans to the Employer in electronic format (preferably, dwg & PDF).
- Prepare and/or procure operations and maintenance manuals, guarantees and warranties.
- Prepare and/or procure as-built drawings and documentation.
- Obtain updated building occupancy certificate (OC)
- Conclude the final accounts where relevant.

The installations and commissioning shall comply with the following regulations:

- SANS 10400: The application of the National Building Regulations.
- SANS 10400: Part T Fire Protection.
- SABS Standards
- National Building Regulations Part W – Fire Installation
- ASIB 11th Edition Standard
- The Occupational Health and Safety Act, Act No. 85 of 1993
- Applicable Local Municipal Regulations

C3.6 HEALTH AND SAFETY

C3.6.1 HEALTH AND SAFETY REQUIREMENTS AND PROCEDURES

Before starting work on site, the Contractor shall appoint a health and Safety Officer in writing and give a copy of the letter of appointment to the Employer.
