1. PURPOSE

The purpose of this Terms of Reference is to provide guidelines for the appointment and establishment of a panel of prequalifying service providers from where quotations will be sourced to provide institutional development support in respect of training for **450** councillors and officials on a skills programme: Accountability and Ethical Conduct in 11 Municipalities, as and when required.

1.1 BACKGROUND

The public sector is plagued with poor governance, lack of accountability and corruption. Resulting in failing municipalities and on a wider scale South Africa not been able to meet its developmental goals.

There are numerous legislative frameworks and policies that describe and govern how the public sector should convey themselves. The 6th Administration has identified seven (7) priorities and specific interventions in strategic sectors and corridors to achieve optimal outcomes during this decade. One of the seven priorities refer, *Building a Capable, Ethical and Developmental State*. CoGTA aligning to the priority *Building a Capable, Ethical and Developmental State* Building will capacitate both councilors and officials in order to be more accountable, advocate good governance and behave in an ethical manner.

Ethics is simply defined as the right thing to do, which is essentially concerned with a right or wrong dimension. Equally important is that ethics does not only apply to oneself but to others as well and that the organisations values and applicable laws and rules must be upheld (Schoeman, 2014). "Ethical choices are thus reflected in words, actions, decisions and behavior relative to oneself and others, which collectively reveals the ethical status of the individual or organization" (Schoeman, 2014, p. 3).

Various legislation, policies, and strategies have been formulated since the advent of the democratic dispensation as an attempt to address the problem of unethical behaviour in the South African public sector.

"The discourse on ethics in the South African public service recognizes undoubtedly that South Africa has a sound legislative and policy framework for promoting professional and ethical conduct. The *Constitution of the Republic of South Africa* (1996), as the supreme law of the country, lays the foundation for the promotion of professional and ethical behaviour. To this end, it stipulates in section 195 (a) that "public administration must be accountable and a high standard of professional ethics must be promoted and maintained".(Manyaka & Sebola, 2013, p.75).

Even with the sound legislation and policies, the public sector is still challenged with unethical behaviour including corruption (Manyaka & Nkuma, 2014). The corruption and unethical behaviour in the public sector impacts service delivery and undermines the developmental goals of the country. In addition the adverse effects of unethical behaviour reinforces socio-political inequalities facing the country, where the rich get richer and the poor, poorer (Manyaka & Nkuma, 2014).

In order to address the current unethical and corrupt public sector, Manyaka & Sebola (2013) advocate that rigorous ethical training must be the cornerstone of an effective anti-corruption system. The training must be aimed at promoting ethical behaviour by explaining the principles of ethics in the municipal environment. In addition, providing knowledge on ethical principles, standards and professional conduct and how to apply this knowledge in real life.

During a conference in September 2019, at the National Council of Provinces (NCOP), the Auditor General had highlighted that a critical challenge facing local government is the lack of accountability and good governance. This was evident in the regressing audit outcomes, irregular expenditure, lack of accountability and lack of consequence management. Furthermore, the Auditor General maintained that this is due to the failure of both Leadership and Management to fulfil their oversight

function. The only viable solution from the Auditor General, to improve the performance on the local government, is for Leadership and Management to set the tone by being more accountable and adhering to laws that govern the municipality. Thus, capacitating both the Leadership and Management on accountability and ethical conduct.

National and Provincial Priorities focus on building a capable, ethical and developmental state. In order to achieve this, Gauteng CoGTA will in the 6th Administration, focus on a key strategic imperative. This strategic imperative relates to building capacity to eliminate corruption by promoting ethical leadership, ensuring compliance and accountability, both internally and across municipalities

	TOTAL FUNCTIONALITY POINTS	100	500
	MINIMUM THRESHOLD FOR FUNCTIONALITY	70	350

Scores are allocated according to a value matrix ranging from 0 to 5 of which 0 is the lowest score that can be obtained and 5 the highest. The Maximum Possible points are calculated by multiply the weight of each criteria with the highest score (as per the value matrix) that can be obtained.

The minimum qualifying score for functionality is indicated as a percentage and is calculated as follows:

- a) The score for each criterion is added to obtain the total score; and*
- b) The following formula is applied to convert the total score to a percentage for functionality:*

So

$$Ps = Ms \times 100$$

Were:

Ps = Percentage scored for functionality by bid under consideration

So =Total score of bid under consideration

Ms= Maximum possible score

The percentage of each panel member is added and divided by the number of panel members to establish the average percentage obtained by each bidder for functionality.

11. PREFERENTIAL PROCUREMENT SYSTEM

The Preferential Procurement Policy Framework Act, Act No 5 of 2000 and its associated amended Regulations 2017 will be applied when evaluating and appointing the preferred service providers. Bids meeting the minimum threshold for functionality will be further evaluated in terms of the 80/20-point system as stipulated in the Preferential Procurement Regulations, 2017 (The calculation of price and preference

points will only apply at the RFQ stage). Shortlisted bid(s) will be allocated 20 points for a Level 1 B-BBEE status.

NB: Bidders are required to, together with their bids, submit original and valid B-BBEE

B-BBEE Status Level of Contributor	Number of points (80/20 system)

status level verification certificates or certified copies to substantiate their B-BBEE rating claims. A bid will not be disqualified from the bidding process if the bidder does not submit a certificate substantiating the B-BBEE status level of contribution nor is a non-compliant contributor (unless a specific B-BBEE level is required as a pre-qualification criteria). Such a bidder will score zero out of maximum of 20 points for B-BBEE.
