INVITATION OF SERVICE PROVIDERS TO SUBMIT PROPOSALS TO RENDER THE SERVICES OF DESLUDGING SEPTIC TANKS AT GAUTENG DEPARTMENT OF EDUCATION (GDE) INSTITUTIONS FOR A FIXED - TERM PERIOD OF THIRTY-SIX (36) MONTHS.

BACKGROUND

The Gauteng Department of Education (GDE) is committed to ensuring that the school environment is conducive for teaching and learning and conducive work environment for GDE officials. In ensuring a conducive environment for teaching and learning, the GDE must among other requirements provide the services of desludging of septic tanks at GDE Institutions in areas where no municipal sewerage reticulation infrastructure is available.

There are a number of GDE institutions that are located in rural areas like farms and agricultural holdings that do not have municipal sewerage reticulation infrastructure and depend on septic tanks and portable water for the provision of sanitation services. These septic tanks collect all the waste, which is a mixture of sludge and dirty water, from the ablution facilities. The sludge is composed of solids that settle at the bottom of the tank whereas the other waste matter forms the scum at the top of the wastewater. After some time, the septic tank fills up with waste, which has to be emptied to stop it from overflowing and to allow the ablution facilities to continue functioning optimally. Desludging involves using a vacuum truck, commonly known as a honey-sucker, to pump out all the solid and liquid waste-matter through the access lid of the septic tank and into the truck. The waste-matter is then removed from site by the vacuum truck and disposed off at an approved waste disposal site. Septic tanks need to be emptied on a regular basis to prevent possible overflow that could result in health risks to all occupants at the GDE Institutions.

GDE is seeking to appoint a suitable service providers with the necessary equipment, knowledge, and experience for the service of desludging septic tanks through a thirty six (36) months contract. The GDE and the service providers agree on a rate of desludging per Kilolitre of waste including transportation to designated municipal dumping sites for effluent.

At the beginning of the contract, service providers are provided with a list of institutions that use septic tanks and a schedule of how frequent each septic tank should be desludged. During the term of the contract, the list will be reviewed periodically and communicated to the appointed service providers. Where the septic tank fills up before scheduled time, the institution logs a request with Head Office for the service provider to desludge the septic tank. The contracted service provider is then issued with a written instruction to go and desludge the septic tank. The service provider and the facility verify and record the quantity of waste-matter that is pumped out of the septic tank in Kilolitres. The service provider

INVITATION OF SERVICE PROVIDERS TO SUBMIT PROPOSALS TO RENDER THE SERVICES OF DESLUDGING SEPTIC TANKS AT GAUTENG DEPARTMENT OF EDUCATION (GDE) INSTITUTIONS FOR A FIXED - TERM PERIOD OF THIRTY-SIX (36) MONTHS.

issues a delivery note for each load of waste removed, and the facility stamps the delivery note as an acknowledgment of the service rendered. At the end of each month, the service provider submits a claim for services rendered as per the stamped delivery notes. The amount on the claim is the product of the amount of waste in Kilolitres and the agreed rate as per the contract. The claim is then processed for payment through the GDE Head Office.

The purpose of having a contract in place with service providers is to ensure that GDE responds timeously to requests when septic tanks are full, enabling a continuous availability of clean and safe sanitary facilities. If there is a delay in desludging a septic tank, there is a risk of the waste overflowing and presenting a health hazard to learners, educators and the surrounding community.
