## FOR THE SUPPLY AND DELIVERY OF PLASMA ROPE AT THE PORT OF PORT ELIZABETH ON A ONCE-OFF BASIS

Tenderers are to note the following amendments to the tender documentation. All other tender documentation remains unchanged

ADDENDUM NO.1

DATED: 17 February 2023

The following information is furnished in addition to, in amplification and substation of matters contained in the tender documents issued in respect of the above – mentioned work.

### **1. Closing date extension**

Due to the delays in getting the outstanding information as requested, TNPA Port of Ngqura has opted to extend the RFQ closing date for this tender to the 27 February 2023.

### **2. Scope Change/Specification**

Please note the change in the specification:

- a) Supply plasma rope 12x12 strand  
Size (od 56mm x 250meter length)  
Min tensile strength 481000lbs  
Must be tested and inspected in accordance with iso 9001  
Quality management system.  
Provide certificate of conformance  
Need one 1.5m soft eye spliced on one end.
- b) A 12 x 12 strand. (od 64mm x 30 meter length)  
Plasma rope, to be the pennant with an eye of 1 m on both ends.  
One end to be spliced into the end of the 56mm plasma eye.  
Min tensile strength 596000lbs for 64mm rope.  
The eye of 64mm must be rolled up on the inside of the drum.

Scope of work you have (A) Supply plasma rope: 12x12 strand size: od56mmx250meter length.  
(B) 12x12 strand (0d64mmx30 meter length).

The B part is the pennant that needs to be attached on the working line, TNPA will take a pennant from the 250m working line.
