Dear Sir/Madam

Request for Enquiry Number	E1973GXMPGRO
Description / Project Title	FUGITIVE DUST MONITORING, SAMPLING, ANALYSIS, AND REPORTING FOR A PERIOD OF 5 YEARS.
Tender Questions Closing Date	<u>02/11/2025</u>

Item	Questions	Answers	Clarity Published Dates
1.	Can I get clarity with the qualitative technical criteria 1.1, what requirements can I attach here to showcase proof of an existing relationship	This is to show that the lab you been using is SANAS accredited, it could be a previous report or a service level agreement letter with, a contract.	20/10/2025
2.	The Legislative Guiding statement needs to be approved by the legislature, or these are guides the company needs to have? Or please can I get a brief explanation	This is the legal framework that regulates fugitive dust management	20/10/2025

4.	It was noted that Eskom already has dust buckets, wind shields, and stands at the Grootvlei Power Station. Should the consultant still include these items in the quotation?	Yes (sampling has not taken place for almost two years the network must be reestablished)	28.10.2025
3.	Please clarify what is meant by the additional 20 samples.	34 sampling points were previously determined. We are adding 20 more sampling points total of 54 samplers to be installed and samples on monthly basis.	28.10.2025
4.	How many sampling points are required?	54 sampling points	28.10.2025
5.	Please confirm whether police clearance is required once per year.	Yes it required once a year for five years	28.10.2025
6.	Should the service provider include costs for 10 damaged stands and buckets per year in the quotation?	Yes to replace points that may be vandalized (as and when it occurs)	28.10.2025
7.	The costing appears to include the placement of concrete for each stand annually, please confirm if this is correct.	The concrete stands shall be done on the first year for all 54 samplers(the 10 is for the ones that may be vandalized) i.e. as and when	28.10.2025
8.	The scope mentions two monthly reports. Could you please elaborate on what these reports should cover? (i.e internal and external reports	Our site is divided into two monitoring areas (internal i.e. points that are within the power station and external points that are within our properties including major sources such as ash dump, col storages etc)	28.10.2025
9.	Is elemental analysis required monthly, and should it be conducted on all samples?	Yes	28.10.2025
10.	Is there an ambient air monitoring station on site that measures PM ₁₀ and PM _{2.5} ?	Yes	28.10.2025
