SUBJECT : BID SPECIFICATIONS FOR THE APPOINTMENT OF A TRANSACTION ADVISOR FOR THE HIGH-ALTITUDE TRAINING CENTRE FOR THE PERIOD TWENTY-FOUR (24) MONTHS

1. PURPOSE

To request approval for specifications for appointment of a Transaction Advisor for the High-Altitude Training Centre after proposals have been received.

2. DISCUSSION

The Department of Culture, Sport and Recreation had been mandated through the State of the Province Address by the Premier to facilitate the building of the High-Altitude Training Centre. The Department of Public Works, Roads and Transport is responsible for the implementation of the projects. The projects require huge amount of financial resources to absorb the costs of construction and related costs.

The total project estimates from service providers contracted by implementing agent are far higher than the resources allocated for the estimated completion period. It is against this background that the Provincial Treasury advised the department to consider alternative funding models to finance costs of implementation. After careful considerations of the all available funding options and stakeholder consultations, the Provincial Treasury further advised the Department to opt for the Public Private Partnership approach. The funding model agreed up dictate appointment of the Transaction Advisor to handle legal, sourcing of funding, administration and management of related processes flowing from the assigned mandate in respect of the projects.

3. SCOPE OF WORK

The HATC is a programme that comprises of a number of projects that were previously identified by the DCSR to provide facilities as follows:

- Faculty of sports;
- High performance centre;
- Training facilities for Soccer Fields, Netball Courts, Swimming Pools, Rowing, Angling and Fly Fishing, Aquatic Centre, Rugby Fields, Volleyball Courts, Athletics, Basketball, Long Distance Running, Boxing, Cricket Fields, Tennis Courts, Karate, Judo, Wrestling, Velodrome, Gymnastics Facilities, Indoor Arena, White Water Kayaking and Cycling;
- Stadia for cricket, rugby, soccer and athletics;
- Administration block, matt sport facilities, support services, media facilities, club houses, public toilets and clinic;
- Boarding school;
- High-end hotel accommodation, chalets and restaurants; and
- Accommodation block and staff accommodation

The scope of work for the Transaction Advisor will involve an assessment of the feasibility of the flagship programme of projects, preparing tender documentation for competitive bidding to secure a partner, provision of advisory to and throughout the bidding process (until the financial close of the Project). As part of the scope of work, the Transaction Advisor will assist DCSR in the adjudication and hence the selection of a suitable PPP private party from the bidders.

SUBJECT : BID SPECIFICATIONS FOR THE APPOINTMENT OF A TRANSACTION ADVISOR FOR THE HIGH-ALTITUDE TRAINING CENTRE FOR THE PERIOD TWENTY-FOUR (24) MONTHS

Any preparatory work conducted by DCSR will be provided to the Transaction Advisor who will carry out the technical, financial and legal due diligence on the same.

The scope of work is presented in these two parts – Part 1: Feasibility Study and Part 2: PPP Procurement services prior

The bid submission is however a single submission incorporating Part 1 and Part 2

Part 1.

The Transaction Advisor will undertake a scoping assessment of the programme, conduct an exercise to screen and define the projects and conduct socio-economic analysis of the programme. It is anticipated that a number of PPP projects opportunities will be identified during the scoping exercise. The transaction advisor will be required to undertake a comprehensive feasibility study on the biggest PPP project within the HATC programme. The feasibility study developed for the biggest project will be used as a template for the feasibility studies for the other projects within the HATC precinct. It should however be noted that some projects can be incorporated into one feasibility study depending on the outcome of the scoping exercise.

The feasibility study for the biggest project will be undertaken for the whole life cycle of the project to enable DCSR to determine:

- a) Full project life costs;
- b) Affordability limits;
- c) Risks, risk allocation and mitigation measures;
- d) Contingent liabilities;
- e) Optimal value-for-money methods of delivery; and
- f) The optimal PPP option for the Project following an assessment of different and alternative PPP options.

The Feasibility Study will include the following:

- a) Needs Analysis that will encompass a review of DCSR strategic objectives, HR capability, needs assessment and scope of the Project in terms of output specifications;
- b) Solutions Options Analysis that will evaluate and assess each option for the development of the requisite infrastructure and services and recommend a preferred option;
- c) Project Due Diligence to bring out the legal aspects of the Project, regulatory matters, site enablement, and socio-economic factors that would impact the Project;
- d) Value Assessment in terms of the Public Sector Comparator (PSC) which includes all capital and operating costs as well as risks associated with the Project on a stand-alone basis using public sector procurement and a PPP reference model that reflects all of the costs and the risks associated with the private sector being the service provider. The PSC is to serve as a benchmark and evaluation tool and hence, must be robust and flexible enough to test various solution options;
- e) Comprehensive Risk Assessment outlining the retained and transferrable risks (risk matrix) on the basis of which a risk-adjusted PSC and PPP reference model will be determined;
- f) Economic Valuation presenting the macro-economic benefits of the Project;
- g) Procurement Plan recommending a road map for the procurement of the private party for the Project;
- i. Assessment of the capacity of the DCSR to procure, manage, and monitor the Project and recommendations for capacity building.

Upon achieving TA I approval and as required, the DCSR may continue the use of the services of the TA for the feasibility studies for the other identified potential PPP projects.

SUBJECT : BID SPECIFICATIONS FOR THE APPOINTMENT OF A TRANSACTION ADVISOR FOR THE HIGH-ALTITUDE TRAINING CENTRE FOR THE PERIOD TWENTY-FOUR (24) MONTHS

The scope of work is divided into two parts. The TA needs to submit a single bid, in the formats prescribed in the terms of reference

The full scope of work for the TA is as follows:

If, on the basis of the feasibility study, a PPP solution on the biggest HATC project is decided on, and if the DCSR requires it, the TA will be required to provide the necessary technical, legal and financial advisory support for the procurement of a private partner. This must be in compliance with all elements of Treasury Regulation 16 to the PFMA, 1999. The key areas for advisory support are as follows:
