### 2. Departmental and Programme Overview

The mandate of the Department of Economic Development, Tourism and Environmental Affairs is to influence the direction of the KwaZulu-Natal

provincial economy and to position it on a sustainable growth path that systematically reduces high levels of unemployment, poverty and inequality. The Department is further mandated to create opportunities for the previously disadvantaged communities thus enabling them to participate in the mainstream economy and reduce income and wealth disparities

The Enterprise Development sub-programme main function is to co-ordinate small enterprise development support services and promote the development of sustainable SMMEs and co-operatives/social enterprises that contribute to wealth and job creation. Furthermore, it is responsible for improving the state of readiness of small enterprises towards contributing to economic growth, inclusion and local economic development. To achieve this function the Enterprise Development sub-Programme must create and implement strategies, programmes and projects that are aimed at creating employment and building capacity through training and mentorship of enterprises

The Department of Economic Development, Tourism and Environmental Affairs through its Operation Vula Fund [OVF] had invested approximately R 339.2 Million to provide grant funds in support of SMMEs and Cooperatives. The objectives of Operation Vula Fund are:

- To provide a framework for grant funding initiatives that promote the mandate of the Department such as those targeting manufacturing, SMME development, localisation, tourism, economic infrastructure development and job creation.
- To provide a framework for leveraging funding and market access from the private and public sector support of broad economic support in the province
- To support the implementation of radical economic transformation objectives geared towards attainment of inclusive and sustainable economic growth
- To support and promote growth and competitiveness of priority sectors in KwaZulu-Natal and;
- To promote industry clusters in order to reposition the province into higher value-added supply chains while increasing equitable participation within the value chains.

The Department of Economic Development, Tourism and Environmental Affairs has tasked the Enterprise Development sub-Programme of IEDS to implement a Post Disbursement Support Programme to over 1016 Operation Vula Fund beneficiaries spread through the Province. This Programme is to be used as a mechanism for protecting EDTEA investment and the provision of post funding support with main objective of addressing the development of entrepreneurs and their businesses in line with the strategic objective of the sub-Programme. The post disbursement support ensures that early interventions are carried out after the district officials have undertaken visits to individual beneficiaries and have made assessments and recommendations of possible support requirements. Approximately 30% of the beneficiaries have been visited by the district officials. One of the gaps that has been identified is the training and mentorship of these beneficiaries because most of them are entering the entrepreneurship space for the first time with no previous experience. Chapter 2 of the Operation Vula Fund Policy [06/05/2019] [Guiding Principles] stipulate that where appropriate, capacity building and support will be provided to SMMEs in order to develop local capacity, especially in non-metro areas, rural areas and other historically disadvantaged areas.

The first phase of the training and mentorship project will take the form of a classroom set-up and will cover the following broad topics:

Basic business management [Aligned to New Venture Creation];

Financial Management covering issues like: Financial Statement, record keeping, taxation, pricing and costing;

Human Resource Management covering issues like: Human resource plan, recruitment and selection, performance management, time management and training and development;

Corporate Governance and Compliance;

Productivity;

Risk Assessment and Management;

Marketing management covering issues like: marketing plan, access to markets, corporate identity, branding and packaging and pricing and;

Financial/Advisory Services covering specific Industry Compliance requirements registration with relevant industries, CIDB, SABS Certification

and ISO Certification

The second phase of the training and mentorship project is envisaged to take the form of a one-on-one method where there will be a Mentor and a Mentee relationship wherein the Mentor will pass on the business knowledge and skills to the Mentee

The training provider to be appointed will have to be accredited with the Services SETA or ETDP Seta and the training modules to be used during training will have to be accredited Unit Standards. In most cases the certificate received after training will not be accredited since this training is a short skills course but will have to indicate the Unit Standard used.

### 3. Purpose of the TOR
