Physical Address of the company	
Sender (full name of the sender at the company)	
Description of the works/goods/services	<p>The scope of work for SO3 package includes procurement, design, manufacturing, shipping, transportation, storage, decommissioning, installation, testing, commissioning, documentation, and handover of unit 1 to 6 Sulphur trioxide skids and common plant. The complete SO₃ plant will include but not limited to the steam stations ,steam drain stations, sulphur storage tanks and its auxiliaries including submerged Sulphur Circulating Pumps, sulphur offloading pumps, burner and convertor vessels, sulphur injection lances, process air heaters, process blower/fan, pressure reducing stations, all the associated pipeworks, valves, electrical apparatus and control instrumentations as outlined in the works information. The proposed installation also includes an installation of a Sulphur supply line ring main. The plant will also need to be inside an enclosure. The steam supply for the plant will need to be tapped from the cold reheat or auxiliary steam range supply manifold. All the associated pipeworks and tie-in from there to the skids and the storage tanks form part of the works.</p>

Please find below our response to Eskom's questions:

No.	Question	Please indicate your response in this column
1.	Provide the company registration number?	
2.	Are you registered on CSD? Please provide your CSD registration number.
