

TENDER CLARIFICATION

Integrated Physical Security System and maintenance support for thirteen (13) substations within Transmission Division

Clarification 06	Request For Proposal No. MWP2421TX
-------------------------	---

The following clarification is needed in response to queries and questions raised by Tenderers.

	<p>Do we need to include all the specification and standard documents provided by Eskom in our submission? Please refer to Annex F of the Scope of Work document (240-170000258) for guidance on what should be submitted for technical, No it will not be necessary for Tenderers to include all the technical specifications that were issued to the market in their technical submission.</p>
	<p>Currently, we are busy with working on our response to the Eskom tender and sincerely appreciate the opportunity.</p> <p>However, we are noticing the integration requirement which linkage all sub-systems and PSIM system, honestly there is a lots of technical evaluation jobs to do. To ensure that we can provide the most comprehensive response possible, we kindly request an extension of the RFP by an additional 6 weeks again.</p> <p>The extension has already been granted by additional two weeks the tender is closing on the 23 May 2024</p>
