5.	<p>Thank you for your prompt response and for the clarification regarding the tender process.</p> <p>We are currently in the final stages of preparing our submission. However, as our remaining queries specifically concern the pricing structures, we would like to enquire if an extension to the current closing date of 08/05/2026 is being considered.</p> <p>An extension would allow us to ensure that our proposal provides the most accurate and competitive pricing possible.</p> <p>Thank you for your time and assistance. We look forward to hearing from you.</p>	An addendum has been issued and uploaded.	06 May 2026
6.	<p>Good day</p> <p>We are querying about the Addendum 1. that was issued on site, By chance we were able to pick it up soon before we submitted on the 8th of May 2026, Did you by any chance send it to anyone or any email from Firecheck if so, Please advise who/which email because we were prepared to submit and if we didn't go on the site and look we would not have known or noticed anything about an addendum even though it was supposed to be sent via email. How many days should it be before an addendum issued after a meeting since the meeting was on the 16th of April 2026</p>	Addendum 1 and the revised BOQ was uploaded on 06 May 2026. The tender closing date has been extended to 19 May 2026 10h00	11 May 2026
