1. PURPOSE

- 1.1. Appointment of a service provider to conduct an evaluation and review of community participation in state-owned protected areas and develop guidelines for community participation in state-owned protected areas within a period of six (6) months.

2. INTRODUCTION AND BACKGROUND

- 2.1. South Africa is a home to 11 239 622,84 hectares of protected areas network with 54 Forest Nature Reserves, 12 Forest Wilderness Areas, 41 Marine Protected Areas, 16 Mountain Catchment Areas, 22 National Parks, 1406 Nature Reserves, 46 Protected Environments, 2 Special Nature Reserves and 9 World Heritage Sites.
- 2.2. These protected areas, among other things, serve as sites for conserving South Africa's ecosystems and areas of high biodiversity value. Because of their nature, most of these protected areas are geographically located in rural areas, forming an integral system with rural communities whose livelihoods and cultures are closely dependent on. As a result, threats to protected areas and loss of biodiversity tend to affect the poorest communities more directly, increasing their vulnerability as, traditionally, local communities have always depended on and lived in harmony with nature. It should be noted that management of protected areas is the competency of both national and provincial spheres of government.
- 2.3. During the apartheid era, the establishment of protected areas often resulted in local communities being forcefully relocated to new areas, losing their ancestral land and access to resources within protected areas. Post the apartheid regime, the management of protected areas changed, and as a result, the People and Parks Programme was established as a transformational intervention by government to address the injustices of the past by ensuring that local communities have access to resources and participate meaningfully in the management of protected areas.
- 2.4. An engagement platform is provided through People and Parks Programme, where local communities and land claimants get an opportunity to interact with government to inform policy development, direction, and determination of the degree to which protected areas contribute to equitable and sustainable development for the well-being of the local communities. A national People and Parks Steering Committee with community representatives is constituted to coordinate the implementation of the intention mentioned above. Furthermore, there are structures at both provincial and protected area levels which include communities to ensure the flow of information from local level to national sphere and vice-versa.

- 2.5. Substantial strides have been made in the implementation of the programme since its inception in 2003, however; the department has been experiencing challenges in gauging the extent to which communities participate as far as governance (decision-making) is concerned, and other areas such as economic opportunities within and around protected areas and sharing of benefits arising from the utilisation of natural resources in protected areas.
- 2.6. This is as a result of nonexistence of national guidelines for community participation in protected areas, exacerbating some of the challenges that the department has experienced during the implementation of the programme as follows:
 - 2.6.1. Conflicts between Traditional Leaders and members of Community Property Associations (CPAs)/Trusts.
 - 2.6.2. Infighting between land claimants and ordinary community members surrounding protected areas.
 - 2.6.3. Difficulties in dealing with archetypes of community, CPAs, and Trusts.
 - 2.6.4. Some communities not represented in the People and Parks structures e.g., communities neighbouring World Heritage Sites and strategic conservation areas.
- 2.7. Given these challenges, the department therefore anticipates conducting a thorough evaluation and review on the extent of community involvement in the management of state-owned protected areas, and subsequently develop guidelines for community participation in the management of protected areas, in consultation with relevant community structures, public entities, and departments.

3. OBJECTIVES

- 3.1. The objective is to conduct an evaluation and review of community participation in state owned protected areas and develop guidelines for community participation in state-owned protected Areas in South Africa.

4. SCOPE AND EXTENT OF WORK

- 4.1.2. Conduct a review on community participation in protected areas in other countries, preferably Southern African Development Community (SADC) countries, and benchmark the various models.
- 4.1.3. Conduct a situation analysis on the involvement of communities in protected areas in South Africa, particularly governance issues, community capacity building programmes, community procurement preference, participation in decision making with regards to the management of State-Owned Protected Areas (e.g., community members in executive/board positions), TORs (for local, provincial and national structures), amongst others.
- 4.1.4. The service provider to consider the High-Level Panel (HLP) recommendations in relation to broader community and traditional leaders' participation in biodiversity conservation.
- 4.1.5. Conduct two (2) virtual stakeholder engagement meetings with management authorities namely: Eastern Cape Park and Tourism Agency (ECPTA), iSimangaliso Wetland Park Authority, Ezemvelo KZN Wildlife, Limpopo Department of Economic Development Environment and Tourism (LEDET), North West Parks and Tourism Board (NWPTB), CapeNature, Gauteng Department of Agriculture and Rural Development (GDARD), South Africa National Parks (SANParks), Mpumalanga Tourism and Parks Agency (MTPA), Free State Department of Small Business Development, Tourism and Environmental Affairs (DESTEa), Northern Cape Department of Agriculture, Land Reform and Rural Development.
- 4.1.6. The service provider to apply a sampling method to identify the Co-Management Committee/ Community Property Associations/ Park forums/ Conservation Trust to be engaged. Conduct eleven (11) physical stakeholder engagements with Co-Management Committee/ Community Property Associations/ Park forums/ Conservation Trust (1 per Management authority). Conduct two (2) physical stakeholder engagements with National People and Parks Steering Committee.
- 4.1.7. Conduct at least one (1) stakeholder engagement with other relevant stakeholder groups to be identified in the situation analysis, policy review or stakeholder consultations if necessary.
