

C.2.1.4.3 Minimum score for functionality

In order to be considered for a contract in terms of this tender, tenderers must achieve the minimum score for functionality in the Works Project Value ranges being tendered for. Functionality will be evaluated separately for each Work Project Value range.

The minimum score for functionality for each Works Project value range is **70** points out of **100**. Tenderers that fail to achieve the minimum score for functionality will be declared as non-responsive.

Tenderers tendering for multiple Works Project value ranges and meet the functionality criteria for the highest value range tendered for will automatically be considered to have met the functionality criteria for the lower Works Project value range(s). Tenderer's are therefore only required to fill in the schedule once.

Where the entity tendering is a Joint Venture the tender must be accompanied by a statement describing exactly what aspects of the work will be undertaken by each party to the joint venture (appended to Schedule 3, Part C5.2: Returnable Schedules).

The description of the functionality criteria and the maximum possible score for each is shown in the table below. The score achieved for functionality will be the sum of the scores achieved, in the evaluation process, for the individual criteria.

Tenderers shall ensure that all relevant information has been submitted with the tender offer in the prescribed format to ensure optimal scoring of functionality points for each Evaluation Criteria. Failure to provide all information IN THIS TENDER SUBMISSION could result in the tenderer not being able to achieve the specified minimum scoring.

CRITERION 1 – Relevant Experience (Comparable Projects)

Functionality criteria for Works Projects from R0 up to R500 000: 1SF or higher

Comparable Projects Completed	Points
0 completed comparable projects	0
1 completed comparable project	15
2 completed comparable projects	25
3 completed comparable projects	35
4 completed comparable projects	45
5 or more completed comparable projects	50
